Silent HITCH

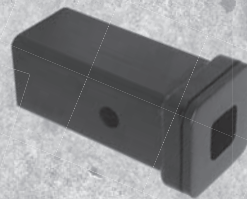

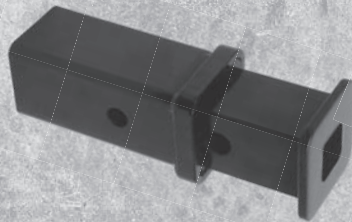

DON'T
SUFFER
THE NOISE!

ELIMINATE Unibody Hitch Noise!

Quickly and easily ELIMINATE unibody hitch noise from towing or hauling hitch-mounted equipment like a trailer, bike rack, or cargo rack! Daystar's Silent Hitch is a polyurethane isolator you install into your 2" receiver converting it to a 1 1/4". You then use the accessory of your choice, not included, to haul in silence!

Stick it in your receiver and tow in silence!

UNIVERSAL AIR BAG CRADLE

Keep the benefits of air bags, while
maintaining suspension travel!

KU09140BK

We want our trucks to do everything. Adding an air bag system has always meant sacrificing something. Most often that will be some suspension travel. Your air bag system should compliment your truck, not inhibit its ability. Daystar's new Air Bag Cradle mounts to your trucks lower suspension providing more room for the air bag to safely cycle with no loss of overall wheel travel. The Air Bag Cradle fits most full-size pick up trucks, and SUVs running 6" diameter, bellow-style air bags
