THE DECKED DIFFERENCE

DESIGNED & ENGINEERED

STRENGTH

Utilizing HDPE co-molded around a steel frame, you will experience the torsional and lateral stiffness of a factory vehicle bed. Thanks to our Detroit-based engineering team, DECKED boasts a true 2000 lb load rating while weighing in at slightly over 200 lbs.

MADE IN USA

With engineering and manufacturing partners in Michigan and Ohio, you'll feel the American-made quality the moment you grab the handles and feel the buttery glide of our drawers.

NO DRILLING

DECKED mounts easily to your bed's existing tie-down points with no drilling required. Once assembled, the DECKED system may be removed and reinstalled in a matter of minutes. Your truck or van's manufacturer warranty will not be affected.

STORAGE

Four ammo cans located in the four corners of the DECKED system offer additional storage to our massive bed-length drawers. BONUS: Ammo can lids flip over to reveal drink holders.

FINE FINISHES

We use stainless and zinc chromate steel hardware with rust inhibitors that exceed auto industry standards for all of our steel bits. DECKED's exterior finishes include a ruler with handy common drill bit and diameter guides as well as the happy hour bottle opener.

STEEL SUBFRAME

30% of the weight is steel! Galvanized tubes are co-molded laterally into each deck. Dimples in the deck surface identify steel tubes, allowing you to drill into the deck to attach racks or slide systems.

BEEFY WHEELS

Thanks to four sealed-bearing wheels per drawer, DECKED drawers roll like butter

OUR COMPANY MISSION IS TO MAKE LIFE EASIER FOR THE WORKING MAN AND WOMAN. WHATEVER YOUR MISSION, DECKED HELPS YOU WORK SMARTER WITH INCREASED EFFICIENCY AND LESS WEAR AND TEAR ON YOUR BODY.

STRENGTH & DURABILITY

We didn't bring a gun to a knife fight. We brought a cannon. HDPE represents the ultimate in impact-resistant, weather-proof materials. Molded to an engineered steel frame, the result is a combination of materials that are built to last.

3-YEAR WARRANTY

We have gone to great lengths in R&D and manufacturing to ensure that your experience is second to none. We are so confident you will be pleased with the quality of your new set of drawers, that we back everything with a 3-year limited warranty against defects in materials and workmanship.

WHY OUR WOODY CAME TO MATTER

It can be a sensitive topic, so we don't want to say anything bad about your woody. However, after decades of cussing, fussing, fiddling, and tinkering with our own rattling around in the backs of our trucks, we realized there had to be a better way. With more money invested in hardware and lumber than we'd like to admit to build storage systems that may well have come from of Geppetto's workshop, we finally sat down at the proverbial kitchen table and went to work.

After burning through a few hundred napkin sketches, four years of R&D, and a highly respectable amount of head scratching, we have arrived at an ergonomically engineered, durable and affordable product designed to make work more efficient, life easier and your vehicle more functional. We believe we've created the best in-vehicle storage system available, and we're confident you will feel the same way.
