- Wheels damaged due to adverse weather conditions and road chemicals.
- Wheels that have not been installed properly.
- Wheels that have been installed with tires that exceed the recommended size or used with the excessive vehicle load rating.

- Wheels that have been installed with other than Diablo Wheels approved accessories such as adapters or spacers used to change the original bolt pattern or offset.
- Wheels used for off-road or for racing purposes.

Note: All wheels should be carefully inspected for proper fitment on the vehicle prior to mounting. Diablo Wheels reserves the right to change wheel specifications in this catalog with prior notice.
