

LED BULBS

12 VOLT AUTOMOTIVE USE

FEATURES

- ▶ High-brightness LED technology
- ▶ Replaces your factory-installed incandescent bulb
- ▶ Low power consumption with extra long life
- ▶ New, advanced bulb design for high reliability

INSTALLATION

- ▶ Reference your vehicle manual for instructions on accessing bulb.
- ▶ Unplug factory bulb from socket.
- ▶ Insert new LED bulb into socket. Enjoy!

TROUBLESHOOTING

- ▶ If the bulb does not light up, remove and flip 180° and then reinstall.
- ▶ Make sure the bulb is making full contact in the socket by adjusting metal pins on bulb and socket.
