**Front spindle nuts should be checked after the first race. Bearings should be checked every six races to ensure proper lubrication.**

**Did you know** Titanium Snout Spindles and Titanium King Pins save 1.06 lbs. over steel units.

**Customer TESTIMONIAL** "We're proud to have been a DMI Distributor since 2001. Their constant commitment to Quality and Innovation keeps DMI one of our most valued suppliers. As a pit-side vendor at Knoxville Raceway, we see the test that the fast half mile can put on parts and DMI/BullDog consistently passes the test with honors."

Doug Brown - Jocko's Sprint Parts, Des Moines, IA
