

DORMAN PREMIUM EXTENDED LIFE CHASSIS PARTS

Premium
Extended Life Chassis Parts™

EXTENDED LIFE TECHNOLOGY

Dorman utilizes XL technology to meet the exacting performance requirements on today's most popular vehicles, each denoted by an "XL" suffix on the part number

Low friction bearings maintain a vehicle's original steering and handling without adding resistance to the steering or suspension systems

Features high-quality components designed for ease of installation while restoring vehicle to like new condition

Maintenance-free design

**We optimize
every component**

PREMIUM ADVANTAGES

EXCLUSIVE ARMOURGRADE™ STUDS

ArmourGrade coating provides corrosion resistance against harsh environments

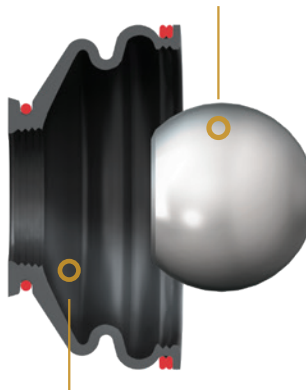

PERFORMANCE RATED BOOT

Tested to help ensure prevention from contaminants

EXCLUSIVE EVERSMOOTH™ BALL FINISH

EverSmooth Finish reduces the amount of torque required to move the stud and contributes to increased durability

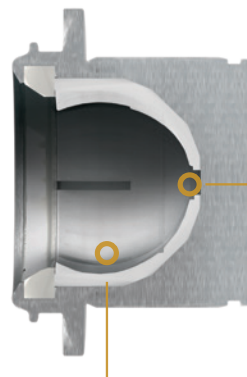

EXCLUSIVE I.C.E.™ GREASE

High-quality lithium-based grease delivers better lubrication characteristics than conventional aftermarket grease under a wider range of operating temperatures

EXCLUSIVE ULTRAFLOW™ NORMALIZED FORGED HOUSING

UltraFlow Housing insures small material grain size and maximizes part durability
