

⚙️ Warehouse Distributors

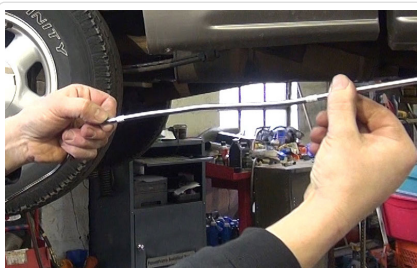

Dorman Brake Lines are made with upgraded high quality stainless steel that resist corrosion providing you and your customers a part that will outlast the OE.

📦 Counterpeople / Jobbers

Dorman Stainless Steel Brake Lines provides you with 120+ SKUs covering over 48 million vehicles from popular Dodge, Ford, GM and Jeep trucks.

🔧 Service Technicians

Dorman Stainless Steel Brake Lines come pre-formed eliminating the need for bending, cutting or flaring — saving you time.

Original Failure & Symptoms of Failure

Why do original brake lines fail?

- Rust and deterioration from exposure to corrosive road treatments
- Near 100% failure rate in the rust belt region

What are the symptoms of failure?

- Increased stopping distance
- Brake fluid loss
- Spongy pedal
- Complete brake system failure
