

DORMAN VALVE COVERS

EXACT FITS FOR MILLIONS OF VEHICLES.

When you need a new valve cover, Dorman has you covered, with more valve covers for more vehicles than anyone else in the aftermarket.

As valve covers have evolved in complexity, Dorman has led the way with new replacement solutions for original equipment. Today we have dozens of exclusive products covering more than 65 million vehicles in operation, including new designs with integrated PCVs and other modern features.

“It’s our job to give you a complete, confident repair with every Dorman valve cover”

Randy Zahorchak, Product Manager

Rigorously tested – we perform precise dimensional measurement, third-party material testing, and 500-mile long-term on-vehicle testing to ensure no leaks or oil consumption

Reliable solutions – each cover is designed to match the OEM fit and withstand extreme temperatures for durable performance
