TECH NOTES: INSTALLATION

ATTENTION: Refer to the appropriate shop manual for your vehicle to obtain specific service procedures for this part. If you do not have a service manual or lack the skill to install this part, it is recommended that you seek the services of a qualified technician. Pay special attention to all cautions and warnings included in the shop manual. Read and follow all instructions carefully. This product is only designed to function properly on specific vehicle applications. Please verify that the vehicle requirements match the product specifications and application notes for this part.

Chevrolet 2007–03, GMC 2007–03, Hummer 2007–06

ATTENTION:

Without proper programming and setup, the vehicle may not start, or certain functions may not operate.

Programming

- Using a factory approved tool, program the module to the latest software.
- Ensure that the configurations selected matches factory options (RPO codes).

Learn the Restraints ID

- On vehicles equipped with an SDM, the restraint code must be reprogrammed to match the BCM. Failure to do this will result in a stored DTC and an airbag trouble code light.

Theft Learn

- On vehicles equipped with anti-theft measures, the keys must be relearned to the vehicle. Failure to relearn the keys will result in the vehicle not starting.

Clear DTCs

- After programming and setting up the module, clear all DTCs and perform a key cycle before attempting to start the vehicle.
