

DORMAN TURBOCHARGER ACCESSORIES

TURBOCHARGED VEHICLE SALES ARE BOOMING. **DORMAN IS YOUR ONE-STOP SHOP FOR MUST-HAVE REPAIR PARTS.**

Replacing or servicing a turbocharger can be a messy business, and a thorough, professional job requires replacing worn and failure-prone hoses, oil lines, clamps, sensors, and other hard-to-find parts. Make Dorman your single source for turbo accessories to ensure a proper, complete fix the first time.

First to Market – Dorman offers the largest selection of direct replacements for failure-prone factory turbo accessories in the business, and continuously introduces new parts

The parts you need for a thorough repair or turbo replacement - from a single source

Innovative and upgraded designs - OE FIX solutions save time and money by replacing just the failed component instead of the entire assembly, and increase reliability by improving on failure-prone OEM designs

DORMAN TURBOCHARGER ACCESSORIES

POPULAR PART TYPES

BOOST SOLENOIDS

TURBOCHARGER FEED AND RETURN LINES

V-BAND EXHAUST CLAMPS

667-001

Ford 2003-99

VIO: 810,000+

TURBOCHARGER CARTRIDGES

Balance tested individually with results included in product packaging

Available as a complete kit, including O-rings for a complete repair

OE PROBLEM:

When a turbocharger cartridge fails, the only original equipment solution is to replace the entire turbocharger.

DORMAN OE FIX™

Dorman's OE FIX replacements enable direct replacement of the cartridge without paying for an entire new turbocharger.

667-300

Ford 2016-11

VIO: 825,000+

COLD SIDE INTERCOOLER PIPE KIT

Boots constructed of durable silicone for better oil- and heat-resistance

Clamps included for complete repair

OE PROBLEM:

Original equipment turbocharger intercooler hoses often fail from a weak plastic tube that can crack, chafe or melt.

DORMAN OE FIX™

Dorman's OE FIX turbocharger intercooler hose has been redesigned to stainless steel for greater durability. Includes new end clamps for a complete repair.
