Wheel Nut Checks

Requirement for school busses and city municipal vehicles

- > Dorman knows anytime a wheel is removed for service, there is a greater risk of damaging or misplacing this critically important safety hardware
- > Dorman expertise in wheel hardware – transferring that knowledge base in light duty over to MD and HD to meet market needs
- > Dorman HD Solutions Wheel Checks – a safety inspection must have for servicing school bus or municipalities vehicles – provides visual assurance that your wheel has been and remains securely fastened
- > Assortments and different packing options available
- > Untrailer HD trucks use 10 lug nuts per wheel

**WITH OVER 100 YEARS
OF HARDWARE EXPERIENCE**
DORMAN IS THE CATEGORY EXPERT
