

DR_x Beasley's™

Your Detailing Prescription

Instructions

- 1.** Shake well.
- 2.** Spray onto leather. Let sit on surface briefly to penetrate dirt and stains.
- 3.** Scrub the surface with a brush and wipe clean with a dry cloth.

Additional Tips

For heavily soiled areas, a second application may be needed.

For maximum results, follow with Dr. Beasley's pH Neutralizer then Dr. Beasley's Leather Cream. Do not let dry on surface. Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
