

DR_x Beasley's™

Your Detailing Prescription

Instructions

- 1.** Mist a small amount of product on the desired area.
- 2.** Gently wipe the surface to remove dirt and other contaminants as well as excess moisture. The surface may appear slightly dark after application.
- 3.** Let the area dry for several minutes. The microsuede's color will return to its natural state.
- 4.** Repeat steps 1-3 as necessary for heavier soil.

Additional Tips

Do not apply a second application until area is completely dry.
