

# DR<sub>x</sub> Beasley's™

---

*Your Detailing Prescription*

**Use:**

Only use Dr. Beasley's Neutra-Scent on clean surfaces.  
Use before applying any protective coating.

1. Shake well.
2. Spray Neutra-Scent directly onto the affected area. Neutra-Scent must make direct contact with odor molecules in order to be effective.
3. Let Dry.

**Before applying, test a small amount in an inconspicuous place to check compatibility with surface.**
