

DR_x Beasley's™

Your Detailing Prescription

Application Instructions

- 1.** Clean leather surface completely to ensure optimal protection.
- 2.** Saturate a soft, clean microfiber towel with the product. Do not spray directly onto surface.
- 3.** Wipe the surface with saturated towel, overlapping to maintain even coverage.
- 4.** Once applied, do not disturb the surface for at least 3 hours or until completely dry. Leather Lock will take 24-48 hours before it fully cures and takes effect.

Additional Tips

For best results, clean leather with Fine Leather Cleanser and condition with Leather Cream before application.

Before applying, test a small amount in an inconspicuous place to check compatibility with surface. To maximize the longevity of your coating, regularly maintain leather with Leather Cream and Fine Leather Cleanser.
