

# DR<sub>x</sub> Beasley's™

---

*Your Detailing Prescription*

## Application Instructions

1. Before use, be sure the wheel is clean and dry.
2. Apply Matte Wheel Seal using a soft cloth.
3. Allow coating to cure for several minutes, then use a soft cloth to hand buff for optimal protection.

For maximum results, begin by cleaning the wheels with our Matte Wheel Cleanser, then prep with Exterior pH Neutralizer before applying Matte Wheel Seal.

**Before applying, test a small amount in an inconspicuous place to check compatibility with surface.**
