Your Detailing Prescription

Application Instructions:

1. Make sure tire has been thoroughly cleaned and dried.
2. Apply Matte Tire Conditioner to an applicator and spread evenly across the surface of the tire.
3. After fully covering the surface wipe up any excess product for a clear, matte look.

Additional Tips:

Use 1/2 ounce of Tire Conditioner for each tire.
Remove all excess product and let sit for several minutes before driving vehicle.

Can be used on exterior plastic and trim. Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
