Your Detailing Prescription

Instructions

- 1.** Fill a bucket with several gallons of water.
- 2.** Pour in 1 oz. (about 2 capfuls) of Premium Body Wash for each gallon of water added.
- 3.** Agitate with a wash pad until suds form. If using about 3 gallons of water for each car wash a 12 oz. bottle of Premium Body Wash should last you 4 washes.
- 4.** Start from the top of the car with a clean wash pad and make your way down. Flip and rinse the wash pad frequently to prevent trapped debris from coming into contact with the surface.
- 5.** When complete, rinse surface and dry with a waffle weave microfiber towel.

Additional Tips

Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
