# Don't Let Your Truck Down

*Spray ons might look good new but ...*

THOUGHT I COULDN'T  
GOUGE OR TEAR THIS

SO MUCH FOR NOT FADING!

THAT'S NOT  
PROTECTING MY BED

## **Consider The Facts:**

- ▶ Duraliner® bedliners offer up to **4X the abrasion resistance to prevent scuffs & tears**
- ▶ The deep, rich finish of a Duraliner® provides up to **8X the resistance to ultra-violet fading**
- ▶ The Duraliner® rib design guards against dents & heavy use with up to **7X the impact resistance**

## Thinking about a spray on coating?

Not all forms of truck bed protection are as

**TOUGH** and **DURABLE**

as a **Duraliner®** Bedliner

Independent tests show Duraliner® Bedliners outperform leading spray-on coatings

Features	Spray-On Coatings	Duraliner® Bedliner	Benefits
 <b>Impact Resistance</b>	BASELINE	<b>Up To 7X BETTER</b>	Testing shows that 483 ft. pounds of force is required to dent sheet metal through a Duraliner® Bedliner compared to 67 ft. pounds of force to dent sheet metal through the leading spray-on coating. <sup>(1)</sup>
 <b>Abrasion Resistance</b>	BASELINE	<b>Up To 4X BETTER</b>	Testing shows it takes more than 200,000 scuff cycles to penetrate a Duraliner® Bedliner compared to 43,000 scuff cycles to penetrate the leading spray-on coating, resulting in potential damage to the truck bed. <sup>(1)</sup>
 <b>Ultraviolet Resistant Fading</b>	BASELINE	<b>Up To 8X BETTER</b>	Ultra-violet weathering tests show Duraliner® Bedliners are up to 850% more resistant to ultra-violet fading than the leading spray-on coatings. <sup>(2)</sup>
 <b>*No drill, No scuff Installation</b>	NO	<b>YES</b>	Spray-on coating installation may require “scuffing” the truck bed, which removes factory corrosion resistance materials. This may affect a consumer’s corrosion warranty.
 <b>Lifetime Limited Warranty</b>	LIMITED NATIONAL WARRANTY	<b>NATIONAL WARRANTY</b>	Duraliner® Bedliners have you covered with a part replacement Lifetime Limited Warranty valid at any Duraliner® retailer nationwide.
 <b>100% Recyclable</b>	NO	<b>YES</b>	Duraliner® Bedliners are made of 100% recyclable materials. Spray-on coatings are not recyclable and may impair the ability to recycle the truck’s sheet metal

1 Testing conducted by Bjorksten Research Laboratories April 2008  
 2 Testing conducted by Detroit Testing Laboratory, Inc. April 2008

\* For best fit, some models may utilize screws for the bedliner &/or tailgate
