

DIRECTIONAL LEDS

ED5051VDL2

Deck, Dash & Visor Light

ECCO's low-profile ED5051VDL2 deck, dash and visor light delivers discreet warning wherever an interior light is needed in a work truck or any fleet vehicle. Permanently or temporarily mount the warning light using included suction cups or permanent brackets. The dual-color LED light heads are available in combinations of white and amber, red or blue colors, which are capable of producing 67 flash patterns. The cigarette plug adapter also includes a simple two-button controller and a removable shroud prevents unwanted flash back from the windshield.
