

ECCO® 3rd Brake Light Mounting kit

WARNING!

Failure to install or use this product according to manufacturer's recommendations may result in property damage, serious bodily/personal injury, and/or death to you and those you are seeking to protect!

Do not install and/or operate this safety product unless you have read and understand the safety information contained in this manual.

1. Proper installation combined with operator training in the use, care, and maintenance of emergency warning devices are essential to ensure the safety of you and those you are trying to protect.
2. Exercise caution when working with live electrical connections.
3. Proper placement and installation are vital to the performance of this warning device. Install this product so that output performance of the system is maximized and the controls are placed within convenient reach of the operator so that s/he can operate the system without losing eye contact with the roadway.
4. It is the responsibility of the vehicle operator to ensure during use that all features of this product work correctly. In use, the vehicle operator should ensure the projection of the warning signal is not blocked by vehicle components (i.e., open trunks or compartment doors), people, vehicles, or other obstructions.
5. The use of this or any other warning device does not ensure all drivers can or will observe or react to a warning signal. Never take the right-of-way for granted. It is your responsibility to be sure you can proceed safely before entering an intersection, driving against traffic, responding at a high rate of speed, walking on or around traffic lanes.
6. This equipment is intended for use by authorized personnel only. The user is responsible for understanding and obeying all laws regarding warning signal devices. Therefore, the user should check all applicable city, state, and federal laws and regulations. The manufacturer assumes no liability for any loss resulting from the use of this warning device.

WARNING!

Maximum recommended vehicle speed for safe operation using the 3rd Brake Light Mount is 80 mph (129 km/h) or POSTED SPEED LIMIT. Higher speeds could cause the mount to fail, which could cause damage to other vehicles, and injury or death to the passengers.

Specifications:

Size: 17.7" L X 12.5" W X 4.7" H

Weight: 3.1 lbs.

Installation & Mounting:

Carefully examine the unit for damage. If damage is found, contact the transit company or ECCO. Do not use broken or damaged parts.

Ensure the mounting kit is compatible with the vehicle type and light style, i.e., halogen bulb or LED, prior to installation.

1. Completely uninstall the 3rd brake light and set aside.
2. Install product(s) (not including the brake light) on the mounting plate.
3. Align the mounting holes on the mounting plate with the third brake light mounting holes in the vehicle body as shown in FIGURE 1.
4. Place the mounting clamps inside the vehicle body in the position shown in FIGURE 2. Line up the straight diagonal edges. The mounting clamps and the mounting plate should sandwich the body of the vehicle as shown in FIGURE 3. Hold the mounting brackets in place by hand and loosely secure into place with the supplied screws.
5. Readjust the mounting plate placement as necessary and torque the screws to 15 in-lbs.
6. If required, route power wire, using notch in mount as entry point.
7. Reinstall the previously removed third brake light.
