# #165 STARTER BUDDY®

**NEW  
Product!!!**

*Instructional DVD  
featuring Dan Sullivan  
included w/purchase*

Cranking Circuit Diagnostics  
Video

Operational Overview Video

Theory of Operation Video

**Applications:**  
Automotive  
Heavy Duty  
Marine  
RV  
Equipment

**Is the starting/cranking circuit operating properly?  
Starter Buddy tests the health of the vehicle's entire  
electrical starting/cranking circuit.**

## **Starter Buddy Diagnoses:**

- **Starter & Solenoid**
- **Positive Cable**
- **Negative Cable**
- **Battery (under load)**

**Starter Buddy** tests the health of the vehicle's electrical starting/cranking circuit. Slow cranks and no cranks are most likely caused by excessive voltage drops (resistance). If excessive resistance exists, Starter Buddy will help you quickly locate and diagnose which part of the circuit has the issue. Just 3 connections and a 3 second cranking test diagnose the problem. 12 foot test leads allow safe connections and control of the cranking test from the driver's seat. Starter Buddy includes a training DVD with three 15 min videos by Dan Sullivan.

**Specifications:** - Tests 12 and 24 volt systems - Uses vehicle battery for power - Includes training DVD  
- Includes Zippered Carrying Case - One Year Warranty - **Made in USA**
