#846 - 70 Pc. Diagnostic Test and Terminal Set

FEATURES:

- 52 piece variety of terminal adapters enable connection to most vehicle harness connectors, both foreign and domestic
- 10 piece interchangeable test lead set with probes, alligator and crocodile and clips
- 8 piece back probe set allows tapping of sensor signals and live readings. **Includes new Spoon Probes**
- Clear storage case included & helps you stay organized
- **Works with Multimeters and digital scopes**
- Includes 48" stacking banana plug test leads
- Kit is designed to provide wide testing coverage and quicken the test process

Due to feedback from the field, we have made improvements to the adapter set included with 309 and 312. These items will be superseded by the two new items below, 309A & 312A.

#309A FUSE BUDDY® MINI KIT

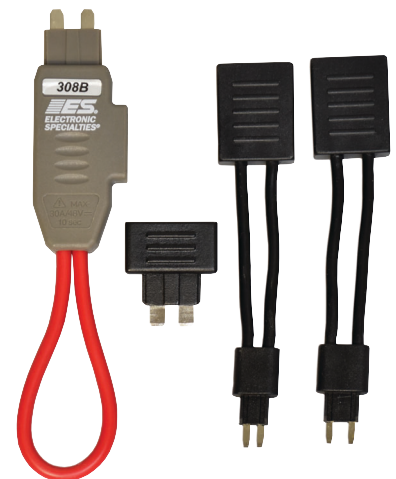

- **New improved adapters allow better accessibility in tightly spaced fuse boxes**
- Tests all three fuse sizes: Micro, Mini & ATO circuits
- Plug in Fuse Buddy and read circuit amp draws
- Easy test connection into fused circuits
- **Can be used on circuits up to 30 Amps**
- Resolution 0.1 Amps
- Includes storage pouch for safe keeping of tester and adapters

#312A FUSE BUDDY® Current Loop Kit

FEATURES:

- **New improved adapters allow better accessibility in tightly spaced fuse boxes**
- **Clamp your current probe over the loop for easy & non-intrusive amperage measurements**
- Tests all three circuits: ATO, Mini and Micro
- **Great way to tap current waveforms on fuel injectors**
- Use up to 30 Amps great for checking fuel pump amperage
- Includes clear **storage pouch**
