Installation Guide

....
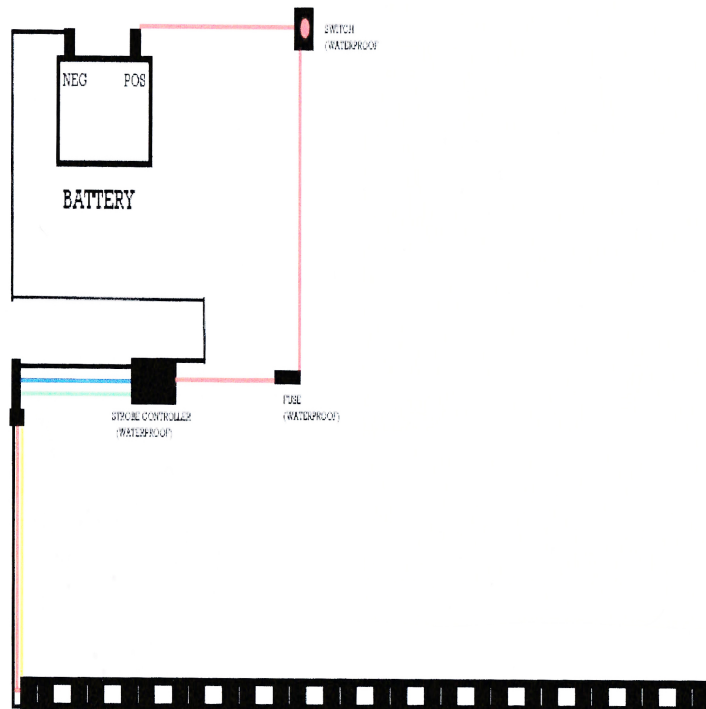

FIREWIRE SAFETY WIRE INSTALLATION

1. CLEAN THE DESIRED AREA WITH THE PROVIDED 3M WIPE.

2. POSITION THE LIGHT IN THE DESIRED LOCATION AND MARK ITS POSITIONING.

3. PEEL THE RED BACKING FROM THE ADHESIVE TAPE.

4. GENTLY LAY THE LIGHT IN POSITION ON THE DESIRED LOCATION.

5. GENTLY APPLY PRESSURE WITH THE PALM OF YOUR HAND AND SLIDE FROM ONE END TO THE OTHER AND BACK. WE DO NOT RECCOMEND USING YOUR FINGER TIPS AS THIS CAN CAUSE DAMAGE TO THE LIGHT.

6. RUN WIRES TO THE DESIRED LOCATION. IT IS OK TO EXTEND THE WIRES IF NEEDED.

7. SIMPLY CONNECT THE CONTROLLER TO THE LIGHT.

8. CONNECT THE BLACK WIRE FROM THE CONTROLLER TO GROUND.

9. IF USING THE SUPPLIED BUTTON SWITCH, CONNECT THE RED WIRE TO EITHER WIRE FROM THE SWITCH AND CONNECT THE OPPOSITE WIRE ON THE SWITCH TO THE POWER SOURCE.

10. IF NOT USING SUPPLIED SWITCH SIMPLY CONNECT THE RED WIRE TO THE SWITCHED POWER.
