Part # 4923

Dye for Motor Oil, Transmission, Power Steering

Instructions

1. Each bottle contains 1 ounce of FJC Fluorescent dye for engine oil, transmission fluid and power steering
2. Pour bottle into system that is to be checked for leaks.
3. Amounts as 'shown':
 - A. Engine Oil: 1 ounce per 4 to 5 quarts
 - B. Transmission Fluid: 1 ounce per 4 quarts
 - C. Power Steering Fluid: 1 ounce per system
 - D. Gasoline: 1 ounce per 5 gallons
4. Operate system for 10 minutes and drive for 5 miles.
Use Black Light device to detect Leak.

Warning:

**Dye will Stain Surfaces if spilled.
Not for use in brake fluid systems.**
