

## Part # 6029

## R-134a Can Tap

Brass dispensing valve for R-134a charging hose Valve has 1/2" ACME RH thread with depressing actuator For use with R-134a self-sealing valve refrigerant cans

## Instructions:

- Read the instructions completely before using.
- Prior to attaching the R-134a can tap on the R-134a can, turn the handle clockwise until the actuator stem is above the can tap seal.
- Thread the R-134a can tap on the R-134a can fitting.
- Attach the R-134a charging hose from the manifold gauge set.
- (CAUTION) Always add refrigerant to low side of A/C system.
- Turn the handle on the R-134a can tap counterclockwise until the actuator stem opens the internal self-sealing valve.
- Refrigerant is now entering the A/C system.
- 8. Turn R-134a can tap hande clockwise until it stops to close the internal self-sealing valve. Remove the R-134a can tap from the R-134a can.

## ALWAYS WEAR PROTECTIVE EYEWEAR AND RUBBER GLOVES WHEN SERVICING ANY A/C SYSTEM
