

DESCRIPTION

Flowmaster's Super 10 Series 409S Stainless Steel - Single Chamber mufflers are intended for customers who desire the loudest and most aggressive sound they can find. Because these mufflers are so aggressive, they are recommended only for off highway use and not for street driven vehicles. These mufflers utilize the same patented Delta Flow technology that is found in Flowmaster's other Super series mufflers to deliver maximum performance. Super 10 Series mufflers are constructed of 16-gauge 409S stainless steel and fully MIG-welded for maximum durability. These mufflers are manufactured in the USA and are covered by Flowmaster's Lifetime Limited Warranty.

- * **Flowmaster Chambered Technology**
- * **Super Aggressive Sound Level**
- * **409S Stainless Steel Construction**
- * **Made in the USA**
