

KNOW THE FEATURES

THAT MAKE FREMAX THE ULTIMATE BRAKE

AN IDEAL COMBINATION OF QUALITY, INNOVATION AND SAFETY.

Fremax brake discs and drums have exclusive features that guarantee real safety any time, on any track. Fremax quality is far superior

MEET OUR FEATURES AND

PROVE THE FREMAX QUALITY.

CARBON+

FREMAX IS TOUGHER.

All Fremax brake discs and drums are manufactured with high carbon alloy which ensures better performance when braking and longer brake life.

PAINTED

FREMAX PROVIDES SUPERIOR FINISH

An innovative paint that protects the part against rust, preserving product and vehicle aesthetics.

READY TO GO

FREMAX: THE CHOICE OF EXPERTS.

Fremax unique technology: the use of a protective oil that does not contaminate brake linings, eliminates wash off before assembly, therefore making it easier, faster and safer.

STOP AND GO!

FREMAX ENSURES MORE CONFIDENCE.

Finish with concentric grooves provides better and faster bedding of pads and brake shoes. It will prevent noise or vibration from happening after brake service, eliminating the need to return to the garage for further adjustments.

FREMAX KIT

FREMAX IS THE COMPLETE SOLUTION.

Unparalleled feature in the Brazilian market, Fremax Kit combines all components required for the assembly of brake discs and drums on the vehicle. You save time and money, and reduce storage space. Full warranty from one manufacturer only.

Fremax is homologated by car makers Renault, Mitsubishi Motors and Suzuki, among others, as the supplier of brake discs and drums. It is real quality, attested by major automakers.

Fremax brake discs and drums are manufactured according to standard ISO 9001. This certification ensures uniform quality of all products, and safety in the assembly.

Fremax meets all quality requirements in the production of brake discs and drums for worldwide automakers. ISO TS 16949 certification attests: Fremax is the right choice for major automakers.

YOU CAN TRUST:

FREMAX HAS ATTESTED QUALITY.
