

## PRODUCT QUESTIONS

### **Will this fit on my camper shell if needed?**

Most camper shells taper toward the roof, which means this rack would have some overhang on each side.

### **What is the weight capacity of this rack? Can you mount a roof top tent on the rack when installed on a Toyota Tacoma?**

Our rack system can hold weight up to 660lbs. Mounting a Roof Top Tent on your Tacoma wouldn't be a problem at all.
