

PRODUCT QUESTIONS

Will the Bat Wing/Manta Wing Brackets (RRAC074) also work with the new 2018 model Batwing awning? Will it work with the expedition rail kits as well?

Yep! The new Batwing awning uses the same mounting extrusion as the old one, so it should fit our brackets just fine. The brackets will also clear all expedition rail kits.

Will these mounts work for a Foxwing 270 degree awning?

We have brackets for the Fox wing (RRAC036). These brackets would need to be modified to work.

Will this work for the series 2000 awning?

Unfortunately this bracket will not work for the 2000 series awning. We did however develop a new mount that will be available early 2015.
