Driver Side

Install bolts

- Step 1:** Remove factory bumper. Note: **Do not** remove factory tow hooks.
- Step 2:** Remove factory fog lights from bumper and install factory fog lights (if available) to front bumper replacement using factory bolts and nuts.
- Step 3:** Mount front end replacement (not shown) to frame horn using two 1/2" X 1-3/4" bolts per side. Install bolts to the holes on the outside of the frame cap.
- Step 4:** Check alignment of front end replacement to truck from side to side and tighten bolts. Check alignment of front bumper replacement up and down to truck and tighten all bolts.
