

PREMIUM OCTA SERIES ALUMINUM STEP TUBES

- **Patented *OCTAGON* profile** compliments the styling of today's hard edged trucks and SUV's, and is ***a look that no-one else can offer.***
- **DEEP CHROME Finish** – ***for an even brighter shine than polished stainless steel, that will never become dull, or yellow like stainless steel will.***
- **2.5mm thick MILITARY GRADE ALUMINUM TUBES**, with either chrome or black powdercoat finish will **NEVER RUST, PIT, PEEL, FLAKE OR DULL. The ultimate in long lasting great looks.**
- Extreme corrosion resistance and backed by our **LIFETIME WARRANTY.**
- Our black powder coated tubes are coated with a **two-stage e-coat then powder coat process, the same as required by the OEM's.**
- Our **BLACK TUBES** are **also backed by our LIFETIME WARRANTY, unlike the competition.**
- Our tubes include **OEM STYLE plastic BRACKET COVERS.** These covers **improve the appearance** by making the bracket look big and beefy but also, **they protect the bracket from unsightly stone chips and rust** that is visible on all other aftermarket tubes without bracket covers.
- **ULTIMATE GROUND CLEARANCE BRACKETS**, with the brackets not extending below the tube, unlike the competition.
- Aggressive step pad tread design, is molded **from the same UV weathering, impact resistant grade of resin used by the OEM's** unlike most aftermarket companies that use a brittle and poor weathering grade of resin.
- All mounting hardware is coated with the **same OEM coatings used to pass 1000hrs salt spray testing and are far superior than the zinc or galvanized hardware used by others.**
- All tubes mount **USING THE OEM MOUNTING HOLES**, for fast installation with clear and simple instructions.
