GO RHINO 

Are you a Jeep Wrangler JL owner, but a fan of Go Rhino's bumpers made for the Jeep Wrangler JK? Say no more! Introducing the new Go Rhino Trailline® bumpers for the Jeep Wrangler JL & JK, the newest addition to Go Rhino's hefty Jeep Wrangler product lineup.

Three distinct styles guarantee that there's something for everyone. High-quality bumpers are available for those who are off-road and rock-crawling enthusiasts or for those who are building the next best mall-crawler.

In order to complete the signature Go Rhino look, matching rear bumpers are also available. These rear bumpers are compatible with future Go Rhino add-on accessories (hint, hint) so keep an eye out for new products on the way!

Let Go Rhino lead the way in the next adventure, wherever that may take you.

TRAILLINE® FRONT BUMPERS

The new Trailline® front winch bumper for Jeep® Wrangler JL & JK is loaded with Go Rhino exclusive features and provides 3 distinct styles to fit the need of any Jeep enthusiast.

Features:

- 3 unique bumper styles with 3 optional light mount bar designs
- Grade 8 mounting fasteners coated in GEOMET Black for superior strength and corrosion resistance
- Fully welded 1" thick dual function patented rhino hooks with cross hole for up to 7/8" D-Ring pin (US Patent # D790,408)
- Front gear drawer with latch (optional locks for ignition keys available)
- Compatible with round factory lights
- Industry standard winch mounting slots, for up to 12,000 pound capacity winch, cut directly into the top surface
- Replaceable polymer rub plates help protect approach angle area of bumper
- CNC laser cut and formed steel with fully welded hand-finished seams
- Bumper is zinc plated then top coated with Go Rhino signature black texture powder coat

Removable mesh screen with signature Go Rhino hexagonal pattern

Trailline® 10 Light Mount Bar

Easy bolt-on installation

Light Mount Bar (US Patent # D757,316)

Trailline® 20 Light Mount Bar

Removable cover allows installation of winch

Trailline® 30 Light Mount Bar

Compatible with aftermarket or factory fog lights

Polymer rub plates for added protection

Signature rhino horn tow hook and D-shackle mount (US Patent # D790,408)

Gear drawer (Optional lock code-able to ignition key also available)

TRAILLINE® FRONT BUMPERS

The Trailline® front winch bumper has 3 distinct styles, with something for everyone. The stubby bumper is an aggressive style made for maximum tire clearance, the straight bumper is most like the classic Jeep Wrangler look, and the full bumper fills out the front end and lines up with the stock fenders.

Stubby Bumper

Straight Bumper

Full Bumper

TRAILLINE® REAR BUMPERS

The Trailline® Rear Bumper is part of Go Rhino's Jeep® product lines for the Jeep® Wrangler JL & JK. Three different styles allow enthusiasts to create their own bumpers from Go Rhino that match the styles of the Trailline® front bumper.

Features:

- Fully welded 1" thick dual function patented rhino hooks with cross hole for up to 7/8" D-Ring pin (US Patent # D790,408)
- Allows for installation of two additional single row or compatible flush-mount lights
- Bumper made from cold-rolled steel
- Compatible with factory hitch
- Provisions to add optional Go Rhino swing away tire carrier
- Grade 8 mounting fasteners coated in GEOMET Black for superior strength and corrosion resistance
- Drop center step for oversized tire clearance
- 5-year Limited Warranty

TRAILLINE® STUBBY REAR BUMPER

TRAILLINE® STRAIGHT REAR BUMPER

TRAILLINE® FULL REAR BUMPER

1" Thick steel shackle mounts with signature rhino horn tow hook (US Patent # D790,408)

Drop center style bumper with step area, perfect for large tires

Mesh vent covers can be replaced with single row flush-mount lights
