

NEW RC3 LR SKID PLATE

GORRHINO 

The (Patent Pending) RC3 LR is the newest evolution in front end vehicle protection. This unique combination of skid plate, rock and splash guard, non-slip patented step and recessed light mount provides excellent front-end protection.

Features:

- ◊ Constructed of 2" high strength alloy steel and bolt-on polymer skid plate
- ◊ RC3 LR will not interfere with OEM bumper mounted front facing sensors
- ◊ Replaceable polymer skid plate for an additional layer of protection from road debris
- ◊ Applications available for most vehicles
- ◊ Zinc plated for superior corrosion protection
- ◊ Available with or without 20" single row LED bar
- ◊ Integrated galvanized steel patented front access step (US Patent # 6,612,595)
- ◊ Textured black powder coat finish with a 5-year limited warranty
- ◊ Light ready mount for optional 20" LED single row light bar (not included)

Wide, secure stepping area

Mounting point for 20" single row light bar
