APPROXIMATED INSTALLATION TIME: 30 MIN.

Cleaning and care instructions:

Design

Quality:

Protect the finish with a non-abrasive automotive wax (e.g. Pure carnauba) on a regular basis. The use of any soap, polish or wax that contains an abrasive is detrimental to the finish, as the compounds scratch the finish and cause corrosion.

INSTALLATION INSTRUCTIONS

1. Before beginning the installation read all instructions carefully and verify that all the hardware is accounted for. If there are any listed part missing please notify your distributor immediately.
2. See pictures 3, 3a y 3b and locate the holes where the brackets are going to be installed.

3. For the front bracket install two M8x25 hex head galvanized bolts, two flat washers and two lock washers. See picture 4 and repeat it in the opposite side of the vehicle. Leave loose.

4. To install middle and rear brackets use two M8x30 hex head galvanized bolts, two flat washers and two lock washers for each bracket see picture 5 and repeat it in the opposite side. Leave loose.

5. Now proceed to install the running board sidebar (sold separately).
6. To install the running board, insert three square head bolts per each channel that it's located on the bottom (discard middle channel) refer picture 6.

Cleaning an care instructions:

Quality:

Protect the finish with a non- abrasive automotive wax.(e.g. Pure carnauba) on a regular basis. The use of any soap, polish or wax that contains an abrasive is detrimental to the finish, as the compounds scratch the finish and cause corrosion.

INSTALLATION INSTRUCTIONS

7. Place the running board above the brackets attach it with six 5/16" nuts, six flat washers and six lock washers per side. (hardware in black galvanized finish). See picture 7 and repeat in the opposite side. Leave loose.

8. If you are going to install an oval sidebar use two flat washers, two lock washers and two 5/16" nuts per bracket (hardware in black galvanized finish). See picture 8 and repeat in the opposite side. Leave loose.

9. Align sidebar and then tighten all bolts.
10. Do not use abrasive substances to clean your product.
11. Periodically check your product because it may need a re-tighten of bolts.
12. Fill the warranty card and place it inside your vehicle's glove box.
