About Us...

Full Panels versus Patches...

Many of our parts are available in 2 versions, a partial patch panel, and a full factory replacement style panel. Although both will usually repair the same damage, there are different things to consider when trying to choose between the two.

When repairing heavy collision damage, the best panel to get is the factory replacement panel. On quarters or fenders, usually a patch won't repair the structure and inner bracing that is usually damaged in a collision. If factory replacement panels are not available for your application, you will want to try to find good used factory sheet metal that perhaps needs rust repair with our patch panel.

Another point to consider is that when replacing with factory panels, you weld at the factory seams, or bolt on the panel at the factory points, and no other welding or finishing is required. With patch panels, you will have to finish the seams which will translate into more cash required to achieve the same finish. Although the initial cost is higher, usually the cost of replacing a factory panel will save you money in the end.

FENDERS

All of our front fenders include the inner bracing and are complete bolt-on assemblies, not just the outer skin. Lower rear patch panels patch the outer skin only. Holes may have to be punched for emblems, moldings, or trim not used on all models. Use your old panel as a guide. On some models, we offer an emblem template kit to help you drill the holes properly.

HOODS

All of our hoods are double panel assemblies, including the inner frame and outer skin welded together with factory dimension nuts to attach to the hinges. Again, no sides or under hood to finish as you do with fiberglass parts. Our hoods will last the life of the car with proper care.

DOOR SHELLS

Our Door Shells are complete bolt-on assemblies, with complete inner structure and outer skin included. You will have to swap your vent windows, door latches, door remote, and window regulator assemblies and parts from your old door onto our new one. In most popular models, all new parts are available to complete replace all the parts in the door.

QUARTER PANELS

Goodmark's Factory Style Quarter Panels all feature a full sail panel to the roof, door jamb pillar (if used originally), and extend to the trunk opening and wrap around the tail panel just like a factory part. Usually weather-strip gutters will need to be added because they were not part of the quarter originally.

TRUNK LIDS

Our Trunk Lids are full double-wall construction with full inner frame and outer skin spot-welded together. No pin-on cheesy fiberglass panels here!

FLOORS

Our factory style floors extend to all the factory seams, and feature the correct bracing welded underneath. We also have a selection of inner rockers, outer rockers, and bucket seat mounting brackets to help you in your floor restoration. Forget trying to weld together multiple patches to fix your rusty floor - we have the ultimate solution!

TRUNK FLOORS

We offer full factory style trunk floors for most factory models. Each includes the under bracing welded in, ready to install.

Dodge & Plymouth

High performance Dodges and Plymouths were a dominant force on the streets and at the track back in the heyday of the muscle car. Today restorers are almost fanatic in their love for the Pentastar beasts of the sixties and seventies. But for a long time it has been nearly impossible to find quality reproduction parts for restoration or modification; especially sheet metal body parts. But today the restoration specialists at Goodmark Industries are hard at work building top quality fenders, quarter panels, and more parts for your favorite Mopar muscle car. Check out the following pages to find the parts you need. And keep your eye on the Goodmark website, as we have new parts in development all the time. Read on!

Bumpers and Grille

Goodmark has new chrome steel bumpers and stainless steel hardware to mount your new bumper. Our Premium Quality bumpers are chromed in the USA and are excellent quality. Always use new hardware for that freshly restored look!

Chrome Bumpers

New chromed steel bumpers replace rusted or damaged originals. Our bumpers are triple nickle plated for durability and are great driver quality. Premium Quality bumpers are chromed in the USA and are excellent quality.

Front End Sheetmetal

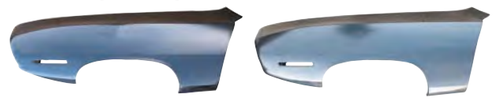

Look!

Front Fenders
Truck Freight

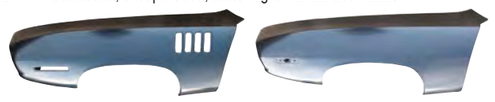

New steel bolt-on assemblies feature the headlamp panel and all the braces as originals, not just the outer skins. We have spent a considerable amount of time and money to make these fenders from scratch and the result is a beautiful fender we would be proud to put on our own cars. These have not been available for several years, so get yours now that they're available!

70-71 . . Challenger, Left / Right . . . . . .2120-100-70L / R . .
72-74 . . Challenger, Left / Right . . . . . .2120-100-72L / R . .

70 . . . . . Barracuda, Left / Right. . . . . .2422-100-70L / R . .

Which quarter panel do you need?

A "Full Quarter Panel" is made just like the panels which were welded onto your car when it was new. These panels reach all the way to each edge of the rear quarter panel area, including the trunk and door edges, and reach to the roof line, just like the factory-original panels did for your particular model. For Dodges and Plymouths, the door jamb was never part of the original quarter panels.

"Quarter Skins" are nearly as large as "Full Quarter Panels", but do not include any trunk lips or sail panel. They cover only the side of the quarter panel, and reach upward to approximately the location where the bottom of original vinyl roofs would normally be. Keep in mind that, while "Quarter Skins" initially cost less than "Full Quarter Panels", it often takes more labor to install them. So, if keeping your costs down is the only reason that you might select "Quarter Skins" over "Full Quarter Panels", you should be aware that the final net cost might not represent much of a savings. Also, "Quarter Skins" do require a lip to weld to, all the way around the edge. This makes them a poor choice for badly rusted-out cars or collision damage since there is often no bottom edge remaining to weld to. In this case, you are better off choosing "Full Quarter Panels", and adding Outer Wheel Houses to completely replace the rust.

"Quarter Patches" are just what they sound like small pieces of quarter panels, for repairing small holes in isolated areas. These are good choices for nearly perfect cars with tiny holes in specific spots, or for low-budget "driver" cars. But it can be very difficult to hide the seam areas where the patches are welded to the original panels.

Quarter Panels

Full Quarter Panels

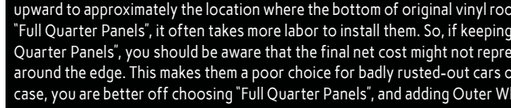

New EDP coated steel full factory style and coverage quarter panels for hardtop models. These are not the side skins but full factory coverage panels. Each panel is complete factory dimensions seam to seam. Be sure to order the trunk weather-strip gutters with your new panels as they are not included. Also be sure to order outer wheelhouses and trunk drop-offs if needed. All quarters are shipped truck freight.

Full Quarter Panels. Your BEST Choice!

If you have a car that is worth restoring, then it is probably worth restoring right! Our top-quality Full Quarter Panels are made just like the factory made them originally, with lap seams, and they reach up to the roof line. Unquestionably, these are the best choice for any quality restoration of a Mopar body.

Quarter Panel Skins

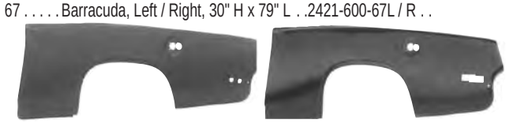

New EDP coated steel panels cover the side of the quarter panel. They are not full panels, and do not include the sail panel, nor do they extend to the trunk opening, but go from the bottom up to the beltline and lip over the belt about 1". Be sure to order outer wheelhouses and drop-offs if required. All quarter skins are shipped truck freight.

Trunk Lids

Trunk Lids

Look!

New EDP coated steel trunk lids are complete bolt-on assemblies, not just the outer skin. Barracuda models include provisions to mount both styles of factory rear spoilers, while the Challenger version does not have provisions for the rear spoiler.

70-74 . . Barracuda . . . . . .2422-700-70. . . . . .
70-74 . . Challenger . . . . . .2120-700-70. . . . . .

Don't even THINK of replacing quarter panels while leaving old rusted outer wheelhouses in place. Many people have made this mistake over the years, and end up having to do their car over again. The original outer wheelhouse is welded onto the quarter panel at the factory, and the seam forms a natural place to trap moisture and debris. Whenever you see a car with rust around the wheel well opening, you know that BOTH the quarter panel and the outer wheelhouse are badly rusted. While the wheelhouse is indeed hidden behind the quarter panel, it is the foundation that your new quarter panel must be welded to!

Deck Filler Panels

These are the steel panels that fill between the trunk lid and rear window. Usually rusted and repairs the rear window lower channel.

70-74 . . Challenger Coupe . . . . . .2120-710-701. . . . .
70-74 . . Barracuda Coupe. . . . . .2422-710-701. . . . .

Gas Tanks

Replace that rusty, muck-filled old gas tank in your Dodge or Plymouth, with brand new high quality reproduction steel Gas Tanks from Goodmark®. There is no cost-efficient way to properly restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, gas caps, and sending units. Go for it.

Gas Tank Straps
New tank straps used on popular models. Early models usually use one strap, while later models use a pair of straps.

What's that black coating on most Goodmark© sheetmetal?

It's called EDP, which stands for Electro Deposit Primer, and it makes an excellent primer under your paint job.

As you probably know, factory paint back in the '60's and '70's was usually just sprayed onto the surfaces that could be reached by a spray gun. But this left many blind areas behind braces, etc, completely bare of any paint protection. Hence, many cars rusted within a few years. But EDP coating is applied electrically, almost like a plating process. The excellent rust-resistant coating reaches every nook and cranny, for unparalleled corrosion resistance.

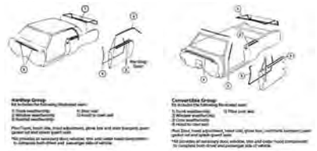

The only surface preparation required is a light scuffing of the surface for better paint adhesion. No stripping is necessary. The panel is protected from rust as long as the EDP coating remains under your paint.

This is one more way that Goodmark© goes the extra mile for our customers!

Weatherstrips

Weatherstrip Kits

A convenient way to get all your weatherstrip needs in one package. See listings for specific lists of what's included in each kit.

70 . . . . . Challenger Coupe 2120-900-701S

Mustang/Cougar

Mustang & Cougar

Goodmark knows how much fun owning a sporty car can be...which is why we decided to service Mustang owners with the best quality sheetmetal and trim money can buy. We sort through thousands of parts available on the market to bring you the best available anywhere...at an affordable price.

Look!

Front & Rear Bumpers

These Premium Quality Bumpers are new, die-stamped, high quality steel, triple plated, and fit perfectly. The show-quality plating process of copper/ nickel/ chrome meets original factory standards. Get a set of these excellent bumpers for your car, and show them off to the world.

Chrome Bumpers

Our bumpers are new die-stamped steel, triple plated chrome, and excellent fit. Holes for bumper guards or pads are not drilled, and will need to be added if required. Be sure to order new mounting hardware to give your car a clean detailed look.

Bumper Mounting Hardware Kits

All the hardware you need to install your front and rear bumper face bars, and all mounting brackets. This hardware is not included with our Master Body Hardware Kits and must be ordered separately. This is not generic hardware - all fasteners have the correct markings and finish and are concours correct. Don't settle for the cheap stuff when the right stuff is so affordable!

69-70 . . Shelby GT Quarter Sail Ornament,
. . . . . "SHELBY" (use 2). . . . . .3022-615-693. . . . . .

Don't even THINK. . .

of replacing quarter panels while leaving old rusted wheelhouses in place. Many people have made this mistake over the years, and end up having to do their car over again. The original Outer Wheelhouse is welded onto the quarter panel at the factory, and the seam forms a natural place to trap moisture and debris. Whenever you see a car with rust around the wheel well opening, you know that BOTH the quarter panel and the Outer Wheelhouse are badly rusted. While the wheelhouse is indeed hidden behind the quarter panel, it is the foundation that your new quarter panel must be welded to. So, rusted and weakened steel may not hold your quarter panel properly. Moreover, you may soon have to resort to repairing rust holes again this time in the wheelhouse. And where is the first place prospective buyers will probe their fingers into while searching for evidence of rust repair? Under the wheel well opening, of course!

Mustang/Cougar

Quarter Window Assemblies

Instead of trying to restore several worn original parts, just replace the entire assembly...it's cheaper! Each includes frame, molding, weatherstrip and glass.

64-66 . . Mustang Coupe Assembly, Left / Right
. . . . . Clear Glass 3020-663-641LS/RS

Which type of "Quarter Panel" do you need?

A "Full Quarter Panel" is made just like the panels which were welded onto your car when it was new. These panels reach all the way to each edge of the rear quarter panel area, including the trunk and door jamb, and reach to the roof line, just like the factory-original panels did for your particular model.

"Quarter Skins" are nearly as large as "Full Quarter Panels", but do not include any trunk lip, door jamb or sail panel. They cover only the side of the quarter panel, and reach upward to approximately the location where the bottom of original vinyl roofs would normally be. Keep in mind that, while "Quarter Skins" initially cost less than "Full Quarter Panels", it often takes more labor to install them. So, if keeping your costs down is the only reason that you might select "Quarter Skins" over "Full Quarter Panels", you should be aware that the final net cost might not represent much of a savings. Also, "Quarter Skins" do require a lip to weld to, all the way around the edge. This makes them a poor choice for badly rusted-out cars or collision damage since there is often no bottom edge remaining to weld to. In this case, you are better off choosing "Full Quarter Panels", and adding Outer Wheel Houses to completely replace the rust.

"Quarter Patches" are just what they sound like small pieces of quarter panels, for repairing small holes in isolated areas. These are good choices for nearly perfect cars with tiny holes in specific spots, or for low-budget "driver" cars. But it can be very difficult to hide the seam areas where the patches are welded to the original panels.

What's that black coating on most Goodmark® sheetmetal?

It's called EDP, which stands for Electro Deposit Primer, and it makes an excellent primer under your paint job.

As you probably know, factory paint back in the '60's and '70's was usually just sprayed onto the surfaces that could be reached by a spray gun. But this left many blind areas behind braces, etc, completely bare of any paint protection. Hence, many cars rusted within a few years. But EDP coating is applied electrically, almost like a plating process. The excellent rust-resistant coating reaches every nook and cranny, for unparalleled corrosion resistance.

The only surface preparation required is a light scuffing of the surface for better paint adhesion. No stripping is necessary. The panel is protected from rust as long as the EDP coating remains under your paint.

This is one more way that Goodmark® goes the extra mile for our customers!

Rear Wheelhouse Assemblies and Parts

EDP coated welded inner and outer panel assemblies. Modify slightly on top for convertible models. We also offer inner and outer panels separately for those who wish to assemble the wheelhouse themselves.

. . . . . Round Disc only . . . . . 3020-726-641 . . . . . .

Doors & Hardware

Replace that rusty, muck-filled old gas tank in your Mustang or Cougar, with brand new high quality reproduction steel Gas Tanks from Goodmark®. There is no cost-efficient way to properly restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, and gas caps. Go for it.

Gas Tank Straps and Mounting Hardware

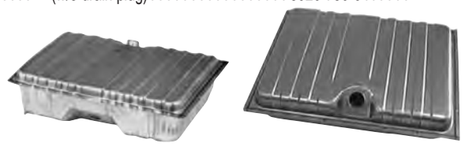

Straps retain the gas tank to the trunk floor. Hardware kits mount the tank to the floor.
64-67 . . Mustang / Cougar Tank Hardware Kit (11 pieces)
. . . . . 3020-749-64S. . . . . .

Tips for Installing Sheetmetal

Here are some tips you can use to install your sheetmetal. Many times our parts are being installed by novice bodymen, who do not have a lot of experience in body repair. Some of the procedures required are somewhat difficult, and not for the novice to attempt without some training. If you don't know what you're doing, and you want to install a pair of quarter panels, please gain some knowledge first before attempting any major repair. Most of the customer service complaints or questions we get can be answered by using a little common sense and knowing something about body assembly and procedure.

1) *Professional installation is highly recommended!* If you don't know what you're doing, please don't attempt major bodywork! These parts are very expensive and hard to repair if you screw something up. We recommend using a qualified professional shop to install our products...they're not for the "do-it-yourselfer." Contact a local car club to see who they can recommend in your area, or look online for training videos on how to install sheetmetal.

2) *Always test fit and inspect parts before painting or installing!* Mocking up the parts or test fitting before installing is ALWAYS a good idea. Then, if there is a fit problem, it can be addressed before paint work had been started on the vehicle. By simply clamping parts together you can see how they are going to fit before any parts are painted or welded. Compare each part to the original to see the differences. Do you need to swap a bracket or drill a different hole? Now is the time to find out! Our parts are patterned after the factory service replacement parts, which may or may not be exactly identical to your original. Keep in mind that when these cars and trucks were built new, they did not have the strict production tolerences that are used now, and it takes a LOT of trial and error and time and effort to make all the gaps even for show quality. Keep in mind that what fits great on one car might not fit as well on another of the same model...that's just the way the vehicles were built originally! Even the factory had to fix cars on the production line that had substandard fit issues...so you may have to do some tweaking too.

3) *Never cut and weld on more than one section at a time!* Remember that when the vehicle was assembled in the factory, it was clamped together in giant jigs and fixtures to assure the body would be aligned with all parts fitting the factory pattern when it was welded together. Since you don't have access to those fixtures and jigs to maintain body alignment, NEVER work on more than one section or you can lose the factory alignment. If you chop the entire rear clip off at once to replace it, it is almost impossible to get each panel aligned so it will once again fit the rest of the car. Once you have "sprung" the body from the factory shape...you can almost count on it being ruined. In cases where we hear that "one side quarter fit great but the other side fit terrible" 99 times out of 100 it is because the body has sprung from factory specs because both quarters, trunk floor, and tail were whacked off together, leaving the floor pan and the roof swinging free in the breeze. The panels aren't wrong, but without a factory reference point to start with, it's very difficult to get the body back into proper shape. Also, if the car had major collision damage in the past that was repaired incorrectly, the body may be "tweaked" out of alignment which can throw the fit of your new panels off. ALWAYS leave a factory reference point and repair one panel at a time...that way the new panels will be put together as close as possible to the way the factory did it.

4) *Always support the body so that proper alignment can be maintained during repair!* Some customers call to complain about the fit of a door or quarter, then we find out the car is being supported on oil drums on all 4 corners and is literally folding in the middle...and the customer doesn't know why his door doesn't gap correctly! The best way to perform body repairs is to have the body on the ground, supported by the suspension and wheels. After the body has been repaired, then is the time to take the body off the frame and put it on a rotissorie so final detailing can be done and the frame detailed. NEVER cut on a body that is not supported properly or you will "spring" the body out of shape!

5) *Sheetmetal is easily damaged, and small pecks and dings are considered "normal!"* No one likes to receive a damaged part, and we do our best to package your parts so they will arrive to you undamaged. But small pecks and dings and ripples are part of the mass production stamping process and should be considered normal with any sheetmetal panel. If you want a "show quality" finish, you have to take the time to make each panel as perfect as possible. That is a step the factory never did when making your vehicle new. They were in a hurry making as many vehicles as they could produce, and cobbled them together and blew them out of the factory just as fast as they could...they were not "hand crafted" when new...don't expect replacement parts to be any different. The attention to detail that you perform during your restoration is the difference between a good driver and a "show" car. No credit will be issued for parts returned because of minor flaws and imperfections and are not considered "defects."

Chevy & Nova

In 1962 Chevrolet announced their all-new downsized "X-body" model , known as the "Chevy II". The new model was originally intended as an economy car to compete with Ford's successful Falcon. But they soon found that people liked the little car as a fun driving sporty model. Thus was born the Nova SS, and by 1966 you could order the Nova SS with the hot new L-79 327 high performance engine. 1968 was the year Chevrolet introduced an all-new body style and platform, which now shared the suspension system of the popular Camaro. This was also the last year for the name "Chevy II", and the first year that big block engines were available in the X-body. From 1969 on, the name was "Nova". In the early '70's, other GM families used the X-body platform to introduce their own versions of the car, including Pontiac's Ventura, Oldsmobile Omega, and the Buick Apollo and Skylark. (Note that some Nova parts listed in this section will fit these other X-body cars, as noted). Goodmark is proud to offer the following section of premium quality reproduction parts for Chevy II's, Nova's, and other X-body cars.

Bumpers and Grille

These Premium Quality Bumpers are new, die-stamped, high quality steel, triple plated, and fit perfectly. The show-quality plating process of copper/ nickel/ chrome meets original factory standards. Get a set of these excellent bumpers for your car, and show them off to the world.

Chrome Bumpers

New chrome stamped steel reproductions fit popular models. Hardware kits are available separately, or are included in our Master Body Hardware Kits.

62-64 . Front Bumper . . . . . .4010-000-62. . . .

. . . . . Rear, Left / Right Pair . . . . . .4010-807-62P. . .
66-67 . Front Inner, Left / Right Pair . . . . . .4011-005-66P. . . .
. . . . . Rear, Left / Right. . . . . .4011-890-66L / R

68-72 . Nova only Front Pair, Left / Right . .4012-005-68LS / RS
. . . . . Rear, Left / Right. . . . . .4012-890-68L / R

Bumper Bracket Hardware Kits

All the hardware you need to mount the front or rear brackets to the body.

62-65 . Front (10 Pieces). . . . . .4010-005-621S. . .
. . . . . Rear (18 Pieces). . . . . .4010-807-621S. . . .
66-67 . Front (12 Pieces). . . . . .4011-005-661S. . .
. . . . . Rear (18 Pieces). . . . . .4011-807-661S. . .
68-72 . Nova Front (16 Pieces). . . . . .4012-005-681S. . .
. . . . . Rear (8 Pieces). . . . . .4020-807-671S. . .

Bumper Guards

New (not rechromed) guards and hardware for complete installation. Hardware does not come with guards and must be ordered separately.

66-67 . Front Guards, Pair. . . . . .4011-015-66S. . .
. . . . . Hardware Kit (12 pieces) . . . . . .4011-015-661S. . . .
. . . . . Rear Guards, Pair . . . . . .4011-895-66S. . .
. . . . . Hardware Kit (12 pieces) . . . . . .4011-895-661S. . . .

Rear License Brackets

EDP coated brackets that mount the license plate to the car. Rubber bumpers sold separately.

62-65 License Bumper Kit (F & R) (4 pieces) 4010-040-62S . . .
68-72 . Rear Tag Bracket . . . . . .4012-885-68. . . . .
73-74 . Rear Tag Bracket . . . . . .4021-885-70. . . . .
75-79 . Rear Tag Bracket . . . . . .4013-885-75. . . . .
68-79 . Tag Bracket Bumpers, Pair . . . . . .4012-885-68S. . . . .

License Lamp Assemblies

Complete license lamp assembly for popular models. Lens and gasket is available separately for service.

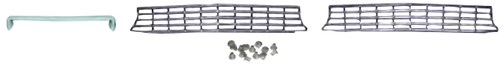

62-65 . License Lamp Assembly . . . . . .4010-886-62. . . . .
66-72 . License Lamp Assembly . . . . . .4011-886-66. . . . .
. . . . . Lens only. . . . . .4011-887-66. . . . . .
. . . . . Gasket only. . . . . .4011-887-662. . . . .

Grilles & Front Lamps

Grilles

Anodized aluminum grilles are ready for installation. Support brackets are not included with grilles. Be sure to use new hardware with a grille.

62-65 . Grille Guard, Chrome . . . . . .4010-050-621. . .
63 . . . Grille with Braces and Rivets . . . . .4010-050-63. . . .
64 . . . Grille with Braces and Rivets . . . . .4010-050-64. . . .
63-64 . Grille Hardware Kit (14 Pieces). . . .4010-050-631S. . . .

66 . . . Grille . . . . . .4011-050-66. . . .
. . . . . Mounting Bracket Set (6 Pieces) . .4011-053-66S. . . .
. . . . . Grille Hardware Kit (19 Pieces). . . .4011-050-661S. . .
. . . . . Lower Grille Molding . . . . . .4011-055-66. . . . .

67 . . . Grille, Paint for SS. . . . . .4011-050-67. . . .
. . . . . Grille Hardware Kit (24 Pieces). . . .4011-050-671S. . .

68-69 . Grille, Standard . . . . . .4012-050-681. . .
. . . . . SS. . . . . .4012-050-682. . .
68 . . . Grille Hardware Kit (22 Pieces). . . .4012-050-683S. . .
69-72 . Nova Grille Hardware Kit (22 Pieces) 4012-050-693S

70-72 . Nova Grille, Standard . . . . . .4012-050-701. . .
70-72 . Nova Grille, SS . . . . . .4012-050-702. . .

73-74 . Nova Grille, SS . . . . . .4012-050-732. . .

The term "X-body" refers to the platform on which Chevy II's, Nova's, Pontiac Ventura II's, Olds Omega's, and Buick Apollo's were built.

Headlamp Bezels

Chrome die-cast bezels surround the headlamp. Most are sold as a matched Left / Right pair. Be sure to use new hardware with new bezels.

62-64 . Headlamp Bezels, Left / Right Pair
. . . . . .4010-060-62P. . .
65 . . . Headlamp Bezel (Use 2 per Car) . .4010-060-65. . . . .
62-65 . Hardware Kit (12 Pieces) . . . . . .4010-060-621S. . . .

66 . . . . Headlamp Bezel (use 2) . . . . . .4011-060-66. . . . . .
. . . . . Hardware Kit (12 pieces) . . . . . .4011-060-661S. . . .
67 . . . . Headlamp Bezel, Left / Right . . . . .4011-060-67L / R
. . . . . Hardware Kit (16 pieces) . . . . . .4011-060-671S. . . .
. . . . . Bezel Seals (pair) . . . . . .4011-060-672P. . .

68 . . . Chevy II / Nova Bezels, Left / Right Pair
. . . . . .4012-060-68P. . .
68-69 . Chevy II / Nova Headlamp Bezel Hardware Kit
. . . . . (20 Pieces) . . . . . .4012-060-681S. . .
69-72 . Nova Bezels, Left /Right Pair . . . . .4012-060-69P. . .
70-72 . Nova Headlamp Bezel Hardware Kit
. . . . . (16 Pieces) . . . . . .4012-060-701S. . .

Headlamp Washer Kit

Complete set of nozzles, washers, and nuts to correctly install optional headlamp washers on both sides.
69 . . . Nova (12-Piece Kit). . . . . .4012-060-691S. . .

Headlamp Assemblies

Complete assembly with mounting ring, retaining ring, and sealed beam. Use 2 per car.

62-70 . T-3 Sealed Beams only (pair) . . . . .4010-066-62P. . .
70-79 . Round Sealed Beam only (use 2). .4012-066-71. . . . .
77-79 . Phoenix, 79 Nova Square Headlamp Capsule
. . . . . (use 2). . . . . .4313-061-77. . . . .

Headlamp Retaining Rings

New correct width stainless steel ring that retains the sealed beam to the mounting ring. Correct screws are available separately.

62-72 . Retaining Ring (use 2 per car) . . . .4010-062-62. . . . .
73-74 . Retaining Ring (use 2 per car) . . . .4012-062-73. . . . .
75-79 . Retaining Ring (round) (use 2) . . . .4144-062-73. . . .
62-72 . Screw Kit (6 Screws). . . . . .4141-062-581S. . . .

Headlamp Mounting Rings

Metal buckets that mount the sealed beam to the car.
66-67 . Right, '68-72 Left . . . . . .4011-063-66R. . . .
68-72 . Right, '73-74 Left or Right. . . . . .4140-063-47. . . . .
75-79 . Left or Right (round) . . . . . .4144-063-73. . . . .

Headlamp Mounting Buckets

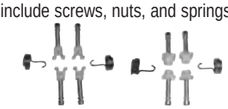

Metal sub-bodies that mount the headlamp mounting ring.

66 . . . Chevy II, Left / Right . . . . . .4011-064-66L / R .
67 . . . . Chevy II, Left / Right . . . . . .4011-064-67L / R .

Headlamp Adjusting Parts

All the parts needed to correctly replace the headlamp adjusters on one car. Complete kits include screws, nuts, and springs.

62-67 . Chevy II Headlamp Adjuster Kit,
. . . . . (Screws, Nuts, Springs) (10 pieces) 4010-069-62S . .
68-74 . "X" Body Headlamp Adjuster Kit,
. . . . . (Screws, Nuts, Springs) (10 pieces) 4012-069-71S .

62-67 . Chevy II Adjusting Screw and Nut, Box of 25 HWB2101
75-78 . Nova, 75-79 Omega, 77 Ventura (with Round Headlamps)
. . . . . Adjusting Screw and Nut, Box of 25 HWB2108 . . .

63-64 . Park Lamp Assembly, Left / Right. . .4010-071-63L / R
. . . . . Lenses only, Pair . . . . . .4010-070-63P. . . .
62-64 . Park Lens Gaskets only, Pair . . . . .4010-072-62P. . . . .

65 . . . . Park Lamp Assembly, Left / Right. . .4010-071-65L / R
66-67 . Park Lamp Assembly, Left / Right. . .4011-071-66L / R .
68-69 . Park Lamp Assembly (use 2) . . . . .4012-071-68. . . . .
. . . . . Lenses only (pair). . . . . .4012-070-68P. . . .
. . . . . Lens Gaskets only (pair). . . . . .4012-072-68P. . . . .

70 . . . . Park Lamp Assembly (use 2) . . . . .4012-071-70. . . . .
. . . . . Lenses only (pair). . . . . .4012-070-70P. . . .
71-72 . Nova Park Lamp Assembly (use 2) 4012-071-71. . . . .
. . . . . Lenses only (pair). . . . . .4012-070-71P. . . .
70-72 . Park Lens Gaskets only (pair). . . . .4012-072-70P. . . . .

73-74 . Nova Park Lamp Assembly (use 2) 4012-071-73. . . . .

62-65 . Park Lamp Lens Screw Kit (4 pieces) 4020-070-675S
66-69 . Park Lamp Lens Screw Kit (4 pieces) 4030-070-651S
70-72 . Nova Park Lamp Lens Screw Kit (4 pieces)
. . . . . .4010-070-621S. . . .

Park Lamp Bezels

New anodized aluminum bezels and extensions for the park lamps. Be sure to get the hardware kit if needed.

63-64 . Park Lamp Bezels, Left / Right Pair 4010-076-63P. . . .
62-64 . Bezel Extensions, Left / Right Pair 4010-076-621P. . .
63-64 . Bezel Hardware Kit (8 Pieces) . . .4010-076-631S. . . .
73-74 . Nova Park Lamp Bezel (use 2). . . .4012-076-73. . . . .

Front End Sheetmetal

Bumper Fillers

EDP coated steel or molded plastic panels that fill the space between the front bumper and the grille, or between the rear bumper and the body. 1968-72 models use a plastic front filler with a steel reinforcement panel underneath.

62-65 . Chevy II, Steel Front Filler . . . . . .4010-020-62. . . . .
66-67 . Chevy II, Steel Front Filler . . . . . .4011-020-66. . . . .

68-72 . Nova, Plastic Front Filler. 4012-020-681
. . . . . Nova / Ventura II Front Steel Reinforcement
. . . . . .4012-020-68. . . . .

. . . . . Nova / Ventura II, Rear Filler. . . . . .4012-808-68. . . . .

Front Fender Mudcaps

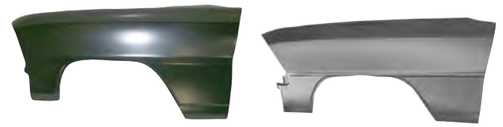

Tough ABS plastic panels behind headlamps that keep debris from entering the engine compartment. Commonly broken or missing from road debris damage. Sold as matched pairs.
62-65 . Chevy II, Left / Right Pair . . . . . .4010-063-62P. . . .
66-67 . Chevy II, Left / Right Pair . . . . . .4011-063-66P. . . .

Fenders

New EDP coated steel front fenders feature correct fit and appearance. Best quality on the market!

62-65 . Chevy II, Left / Right . . . . . .4010-100-62L / R

66 . . . Chevy II, Left / Right - Best Quality! 4011-100-66L / R
67 . . . Chevy II, Left / Right - Best Quality! 4011-100-67L / R

68-69 . Nova, Left / Right . . . . . .4012-100-68L / R
70-74 . Nova, Left / Right . . . . . .4012-100-70L / R

Fender Eyebrow Moldings

New anodized aluminum moldings for the front edge of the fender. This molding matches up to the hood molding and grille.

65 . . . Fender Eyebrow Moldings (pair). . .4010-115-65P. . .
68-72 . Fender Eyebrow Moldings (pair). . .4012-115-68P. . .

Fender Braces

New tubular steel braces that brace the lower front fender to the radiator support.

62-65 . Fender Braces, Pair . . . . . .4010-120-62P. . . .
66-67 . Fender Braces, Pair . . . . . .4011-120-66P. . . .
68-74 . Nova / Ventura II, Left / Right Pair .4012-120-68P. . . .

Fender Ornaments

New chrome die-cast ornaments fit on the lower rear of the fenders. Be sure to order for both sides of the car. Mask and paint to match body color.
69-71 . Nova (Use 2 per Car) . . . . . .4012-130-692. . . .

Antenna Assemblies

Complete antenna assemblies include correct mast and all items needed to install.

66-67 . Antenna Gasket only. . . . . .4011-170-665. . . . .
68-69 . Antenna Ass'y, Front w/ AM Radio .4012-170-681S. .
68-69 . Antenna Ass'y, Front w/ AM/FM Radio 4012-170-682S
68 . . . Antenna Ass'y, Rear with AM Radio 4020-615-671S
68-69 . Antenna Gasket only. . . . . .4020-920-675. . . . .

Inner Fenders

New EDP coated steel inner fenders and braces for popular models.
68-74 . Nova Inner Fender, Left / Right. . . .4012-350-68L / R
68-74 . Nova Inner Fender Brace (to firewall),
. . . . . Left / Right . . . . . .4020-352-67L / R

Inner Fender Splash Seals

New die-cut rubber seals staple to the fenders or inner fenders and seal dust and debris from entering the engine compartment at the cowl or over the control arms.

62-67 . Fender to Cowl Seals, Pair. . . . . .4010-351-62P. . . .
68 . . . . Inner Fender Splash Seals, Pair. . .4012-351-68S. . . .
69 . . . . Inner Fender Splash Seals, Pair. . .4012-351-69S. . . .
70-74 . Inner Fender Splash Seals, Pair. . .4012-351-70S. . . .

Shock Tower Caps and Front Fender Apron Patches

New chrome shock tower caps replace worn or broken originals. Be sure to order our patch for the RH inner fender under the batter tray. This is a common rust area on early Chevy II models.

62-67 . Shock Tower Caps, Black (use 2). . .4010-360-62. . . . .
. . . . . Shock Tower Caps, Chrome, Pair. . .4010-350-623P. . .
62-67 . Right Front Fender Apron Patch . . .4010-355-621R . .

Hoods, OEM Style

Look!

New EDP coated steel stock flat hoods feature detailed inner frames and bolt on like originals. All hoods are shipped via Truck Freight.

62-65 . Chevy II / Nova standard flat hood 4010-200-62. . . .
66-67 . Chevy II / Nova standard flat hood 4011-200-66. . . .

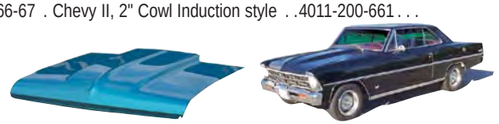

68-72 . Nova standard flat hood . . . . . .4012-200-681. . .
Note: Use #4012-255-681P Brackets to convert this to a SS hood.

Hoods, Cowl Induction Style

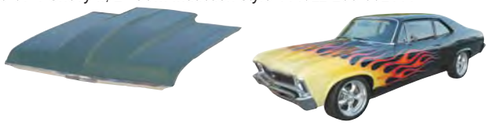

New EDP coated steel hoods feature a functional Cowl Induction style scoop and are available for several applications.

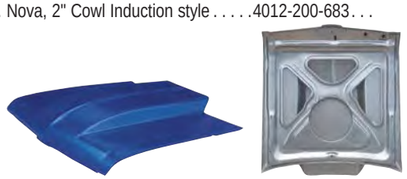

66-67 . Chevy II, 2" Cowl Induction style . .4011-200-661. . .

66-67 . Chevy II, 2" Cowl Induction style . .4011-200-661. . .

68-72 . Nova, 2" Cowl Induction style. . . . .4012-200-683. . .

68-72 . Nova, 4" Cowl Induction style. . . . .4012-200-684. . .

73-74 . Nova, 2" Cowl Induction style. . . . .4012-200-731. . .

Hood Insulation Pads

Die-cut insulation that glues to the underside of the hood. Can be trimmed to work on Cowl Induction style hoods as well. Sold as a set for one hood.

62-65 . Hood Insulation Pad Set (4-pieces) 4010-202-62S. . . .
66-67 . Hood Insulation Pad Set (4-pieces) 4011-202-66S. . . .
68-74 . Hood Insulation Pad Set (4-pieces) 4012-202-68S. . . .

Hood Pad Clip

Plastic push-on discs that hold the hood insulation to the hood. Sold by the box. Use as required.
75-79 . "X" Body, Box of 25, (2" Diameter) .HWB2401. . . . . .

Hood Leveler Kits

Correctly plated bolts, nuts, and rubber caps to replace the hood adjusters at the front edge of the hood. Always a good idea to replace when replacing a hood. Rubber caps also sold separately.

64-70 . Chevy II / Nova, Hood Leveler Kit
. . . . . (6 Pieces) . . . . . .4010-205-642S. . .
62-79 . Rubber Caps only, Pair . . . . . .4010-205-62P. . . . .
73-79 . Hood Adjustment Bumper (use 2). .4012-205-73. . . . .

Hood Side Bumpers

Rubber bumpers that cushion between the hood and front fenders, and help align the hood. Usually missing or hardened and compressed. Also see our Rubber Bumper Kits in the Weatherstrip Sections.
66-67 . Fender to Cowl Bumpers (pair). . . .4011-206-662P. . . .
68-79 . Hood Side Bumpers, pair (use as req.) 4020-206-67P. .

Hood Hinges

New (not rebuilt) hinges for most models. Be sure to use new springs for best function.

63-65 . Hood Hinge, Left / Right . . . . . .4010-210-63L / R
66-67 Hood Hinge, Left / Right - Excellent! 4020-210-67AL / R
. . . . . Chrome, pair 4020-210-67ACP
68-79 . Hood Hinge, Left / Right . . . . . .4012-210-68L / R

Hood Hinge Springs

New springs replace worn sagging originals. Use with new or rebuilt hinges.

63-64 . Spring (use 2) . . . . . .4010-211-64. . . . .
65 . . . . Spring (use 2) . . . . . .4010-211-65. . . . .
66-79 . Spring (use 2) . . . . . .4011-211-66. . . . . .

Hood Moldings

New anodized aluminum molding includes attaching hardware.

62-65 . Nova Hood Spear . . . . . .4010-215-62. . . .

66 . . . . Chevy II, with Hardware . . . . . .4011-250-66. . . . .

68-72 . L6 Throttle Cable. . . . . .4020-233-678. . . .
70-72 . Nova 4-bbl small-block V8 Cable . .4012-233-713. . . .

What's that black coating on most Goodmark© sheetmetal?

It's called EDP, which stands for Electro Deposit Primer, and it makes an excellent primer under your paint job.

As you probably know, factory paint back in the '60's and '70's was usually just sprayed onto the surfaces that could be reached by a spray gun. But this left many blind areas behind braces, etc, completely bare of any paint protection. Hence, many cars rusted within a few years. But EDP coating is applied electrically, almost like a plating process. The excellent rust-resistant coating reaches every nook and cranny, for unparalleled corrosion resistance.

The only surface preparation required is a light scuffing of the surface for better paint adhesion. No stripping is necessary. The panel is protected from rust as long as the EDP coating remains under your paint.

This is one more way that Goodmark© goes the extra mile for our customers!

Transmission Kickdown Linkage

Reproduction rod and swivel that serves as the kickdown linkage for models with Powerglide 2-speed automatic transmission, or the Throttle Valve Cable for models with Turbo-Hydramatic 350 transmission.

67-72 . with 2-bbl V8 . . . . . .4011-234-671S. . .
. . . . . with 4-bbl V8 . . . . . .4011-234-672S. . .

Editors love Goodmark!

"rounding out the trim pieces on the outside of the car are Goodmark reproduction mirrors, floor mats, side marker assemblies and bumpers, all of which are manufactured with factory quality in mind. We bet you thought Goodmark just made body panels; in actuality, Goodmark offers many of these and other parts for many different makes and models."

62-79 . Brake Hose Clips, box of 25 . . . . . HWB2416. . . . . .

Roof & Windshield

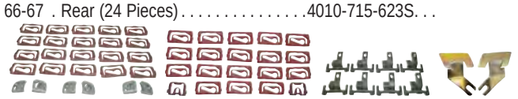

Windshield Reveal Molding Clip Kits
Complete sets of clips used to mount the front or rear windshield reveal moldings. Be sure to replace these, as old clips are usually in pretty sad shape.

62-67 . Front, Upper & Sides (34 pieces) . . 4010-525-623S. . .
62-65 . Front Lower (8 pieces) . . . . . .HWB2089. . . . . .
66-67 . Front Lower (10 pieces) . . . . . .HWB2090. . . . . .

62-65 . Rear (28 Pieces) . . . . . .4010-715-624S. . .
66-67 . Rear (24 Pieces) . . . . . .4010-715-623S. . .

68-74 . Front, Upper and Sides
. . . . . w/o Vinyl Top (32-Pieces) . . . . . .4012-525-683S. . .
. . . . . w/ Vinyl Top (20-Pieces) . . . . . .4012-525-684S. . .
. . . . . Lower (exc. 2 Outer Clips) (8-pcs) 4020-525-674S .
. . . . . Lower Outer, Left / Right Pair . . .4020-525-674P. . . .

Windshield Reveal Molding Clip Kits (continued)

68-74 . Rear, without Vinyl Top (20-Pieces) 4012-715-683S. . .
68-74 . Rear, with Vinyl Top (20-Pieces) . . .4012-715-684S. . .

Drip Rail Corners

New die-cast chrome lower rear corners for the drip rails. These are commonly pitted and should be replaced when restoring a car.
66-67 . Hardtop Drip Rail Corners, L / R Pair 4011-925-661P .
. . . . . Windshield Pillars, Left / Right . . . .4011-926-661L / R

Quarter Panels

Look!

Full Quarter Panels
EDP coated stamped steel panels feature full factory coverage to the factory seams. All panels are shipped via Truck Freight.

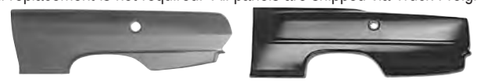

62-65 . Chevy II Nova 2-Door Hardtop,
. . . . . Left / Right . . . . . .4010-601-62L / R
NOTE: The tail lamp panel is not included on the 1962-65 panels and must be ordered separately.
66-67 . Chevy II Nova 2-Door Hardtop,
. . . . . Left / Right . . . . . .4011-601-66L / R

68-69 . Nova 2-Door Sedan, Left / Right. . .4012-601-68L / R
70-72 . Nova 2-Door Sedan, Also 71-72 Ventura II,
. . . . . Left / Right . . . . . .4012-601-70L / R

Quarter Panel Skins
A less-expensive alternative to factory style quarters, we offer full quarter panel side skins. All panels do not have the sail panel to the roof, no door jamb pillar, and do not extend to the trunk opening. They only cover the side of the quarter panel, and lip over the belt line about 1" to give you a welding lip. You can cut these panels up to repair the sections you need if full replacement is not required. All panels are shipped via Truck Freight.

62-65 . Chevy II, 26" H x 75" L, Left / Right 4010-600-62L / R
66-67 . Chevy II, 26" H x 75" L, Left / Right 4011-600-66L / R

68-69 . Nova, 26" H x 76" L, Left / Right. . .4012-600-68L / R
70-72 . "X" Body, 26" H x 76" L, Left / Right 4012-600-70L / R

73-74.."X" Body, 26" H x 76" L, Left / Right 4012-600-731L / R.

73-74 . "X" Body, 20" H x 76" L, Left / Right 4012-600-73L / R
75-79 . "X"-Body, 20" H x 76" L, Left / Right 4013-600-75L / R

Lower Rear Quarter Patches
EDP coated steel patches for the lower rear section of the quarter panels.

73-74 . "X" Body, 13" H x 35" L, Left / Right 4012-690-73L / R
NOTE: Can be used with a '70-72 factory style quarter or quarter skin to "make" a '73-74 coupe quarter.
75-79 . "X" Body, 12" H, Left / Right . . . . . .4013-690-75L / R

Rear Wheelhouses
EDP coated panels form the rear wheelhouses. The inner wheelhouses are the ones you see inside the trunk, the outer wheelhouses mate up to the wheel lip on the quarter panel. Both are needed to make a complete rear wheelhouse.

62-65 . Chevy II Outer, Left / Right . . . . . .4010-675-62L / R
66-67 . Chevy II Outer, Left / Right . . . . . .4011-675-66L / R

68-74 . "X" Body Inner, Left / Right . . . . . .4012-670-68L / R
68-74 . "X" Body Outer, Left / Right . . . . . .4012-675-68L / R

Door Lock Striker Bolts
New hex head striker bolt mounts in the door jamb. Use 2-4 per car.
68-70 . Nova (Hex Head Bolt with Collar) . .4030-606-64. . . . .

1/4 Sash Chrome Moldings
Die-cast chrome moldings that trim the front edge of the quarter glass. Includes glass setting channel, but you must also order new weatherstrips.
66-67 . Nova Hardtop, Left / Right Pair with
. . . . . Glass Set Channel . . . . . .4011-665-66P. . . .

Deck & Trunk

Trunk Lids
New EDP coated stamped steel trunk lids feature complete inner frames, not just the outer skin.

62-64 . Trunk Lid (except Wagon). . . . . .4010-700-62. . . .
65 . . . . Trunk Lid (except Wagon). . . . . .4010-700-65. . . .

66-67 . Trunk Lid (except Wagon). . . . . .4011-700-66. . . .
68-74 . "X" Body, except Hatchback . . . . . .4012-700-68. . . .

Trunk Latches and Retainers
Reproduction latch assemblies and lock retainers to replace broken or missing originals.

62-72 . Trunk Latch Assembly. . . . . .4042-705-59. . . . .
73-74 . Trunk Latch Assembly. . . . . .4021-705-70. . . . .
71-72 . Trunk Latch Striker . . . . . .4021-705-703. . . .
62-65 . Trunk Lock Retainer . . . . . .4010-705-622. . . .
66-67 . Trunk Lock Retainer . . . . . .4011-705-66. . . . .
68-74 . Trunk Lock Retainer . . . . . .4012-705-68. . . . .

Deck Filler Panels
EDP coated panel that fills between the trunk lid and the rear window. Always a common rust area on GM cars.

66-67 . Chevy II 2-door . . . . . .4011-710-66. . . . .
68-74 . "X" Body 2-Door Sedan (with molding
. . . . . stanchions included). . . . . .4012-710-68. . . .

68-72 . "X" Body Package Tray Inner Corners,
. . . . . Left / Right Pair. . . . . .4012-710-681P. . .

Trunk Gutter Side Braces
This is the inner brace that goes from the trunk weatherstrip gutter to the trunk floor in the rear corners of the trunk.

68-69 . Chevy II / Nova, Left / Right . . . . . .4012-721-681L / R
70 . . . . Nova, Left / Right . . . . . .4012-721-701L / R
71-72 . Nova / Ventura II, Left / Right . . . . .4012-721-711L / R

Shock Tower Braces and Mounts

These EDP coated braces reinforce the trunk floor at the shock mounts.
68-74 . "X" Body Shock Tower Support / Bolt Plate,
. . . . . Left / Right . . . . . .4012-723-68L / R
68-74 . "X" Body Lower Rear Shock Mount Plate
. . . . . (use 2). . . . . .4012-724-681. . . .

Trunk Floors
New EDP coated steel trunk floor patches for all models except Station Wagon. All trunk floors ship via Truck Freight.

62-67 . 38" W x 38.5" L (center patch) . . . .4010-725-62. . . . .
68-72 . 36" W x 46.5" L (center patch) . . . .4012-725-68. . . .
68-72 9" W x 34.5" L (side patch, Left / Right) 4012-728-68 L/R

71-72 . "X" Body Full Trunk Floor with Braces 4012-725-71S

Trunk Floor Drop-Offs
EDP coated filler panels that go from the side of the trunk floor down to the bottom rear of the quarter panel. These are commonly rusted and probably need to be replaced when quarters and outer wheelhouses are replaced.

66-67 . Chevy II, Left / Right . . . . . .4011-735-66L / R .
68-74 . "X" Body, Left / Right. . . . . .4012-735-68L / R

Trunk Floor Braces
EDP coated braces that support the trunk floor. These are the braces that the gas tank straps attach to. Use 2 per car.

62-67 . Chevy II. . . . . .4010-745-62. . . . .
68-72 . Nova / Ventura II . . . . . .4012-745-68. . . . .

Rear Cross Rails
EDP coated rear brace behind the rear bumper. These parts form the structure for the bottom rear of the body.

68-72 . Nova / Ventura II Rear Cross Rail. .4012-790-681. . .
68-74 . "X"-Body Rear Cross Rail Side Filler, Left / Right
. . . . . .4012-790-682L / R
68-72 . Nova / Ventura II Rear Cross Rail Front Brace
. . . . . .4012-790-683. . . .

Spare Tire Hold Down Parts
Here are some handy items that should be used with every new trunk floor. This is the bracket that the spare tire hold down "J"-bolt hooks to on the trunk floor. It is not included with a trunk floor...so be sure to order one if you need it. We also offer the "J"-bolt and Wing Nut for the Spare Tire.

62-70 . Chevy II / Nova Anchor Plate . . . . .4010-726-621. . . . .
71-79 . "X" Body Anchor Plate. . . . . .4021-726-701. . . . .
67-81 . Wing Nut & J-Bolt Set. . . . . .4011-726-671S. . .
67 . . . . Wing Nut & J-Bolt Set, for Space Saver Spare
. . . . . .4011-726-67S. . . .

Rear Frame Rails
New EDP coated steel complete factory style rear frame rails replace rusted originals.

62-67 . Front Leaf Spring Support, LH / RH
. . . . . (except Convertible) . . . . . .4010-773-621L / R
66-67 . Rear Leaf Spring Brace, Left / Right4011-773-661L / R
68-72 . Full Rear Frame Rail, Left / Right . .4012-770-68L / R
. . . . . Rear Side Rail Brace, Left / Right. .4012-773-68L / R

Trunk Lip Moldings
Anodized aluminum moldings
62-65 . Chevy II Trunk Lip Molding . . . . . .4010-775-621. . . .
62-65 . Chevy II Outer "C" Moldings, Left / Right Pair
. . . . . .4010-775-62P. . .

Gas Tanks
Replace rust and muck-filled old gas tanks in your muscle car, with brand new high quality steel Gas Tanks from Goodmark®. There is no cost-efficient way to restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, and gas caps. Go for it!

62-67 . Chevy II, without Filler Neck,
. . . . . except 62-63 3-Seat Wagon. . . .4010-750-62. . . .
68-69 . Nova, with Filler Neck . . . . . .4012-750-681. . .
70 . . . . Nova, with Filler Neck, without EEC 4012-750-701 . .

Gas Tanks (continued)

70 . . . . Nova, with Filler Neck, with EEC . .4012-750-703. . .
71-72 . "X" Body, with Filler Neck . . . . . .4012-750-702. . .
73-74 . "X" Body, with Filler Neck . . . . . .4012-750-732. . .
75-79 . "X" Body, with Filler Neck . . . . . .4012-750-73. . . .

Gas Tank Straps

Be sure to use new straps whenever replacing a gas tank. These are cheap insurance against rust, as well as making your new tank look that much nicer.

62-67 . Chevy II, Pair. . . . . .4010-749-62P. . . .
68-72 . "X" Body, Pair . . . . . .4012-749-68P. . . .
73-79 . "X" Body, Pair . . . . . .4012-749-73P. . . .

Gas Tank Strap Hardware Kits

With your new straps, be sure to order new hardware...the original stuff is so rusty and chewed up from years of sitting under the car, it's almost always unusable. Forget finding good original hardware...it's almost impossible to find.

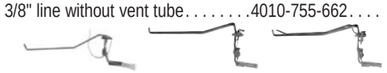

62-66 . Chevy II (8 Pieces) . . . . . .4010-749-621S. . .
67 . . . . Chevy II (10 Pieces) . . . . . .4011-749-67S. . . .
68-72 . "X" Body (12 Pieces). . . . . .4012-749-681S. . .

Gas Tank Sending Units

Always use a new sending unit when replacing your tank. This insures clean flow of fuel without a rusty crudded tube restricting your gas flow to your motor. Each sender comes with lock and "O"-ring.

62-65 . 5/16" line without vent tube. . . . . .4010-755-62. . . . .
. . . . . 3/8" line without vent tube. . . . . .4010-755-64. . . . .
66-67 . 5/16" line without vent tube. . . . . .4011-755-661. . . .
. . . . . 3/8" line without vent tube. . . . . .4010-755-662. . . .

68-72 . 5/16" line without vent tube. . . . . .4012-755-681. . . .
. . . . . 3/8" line without vent tube. . . . . .4012-755-682. . . .
. . . . . 3/8" line with vent tube . . . . . .4012-755-69. . . . .

76-81 . 3/8" line without vent tube. . . . . .4013-755-761. . . .
. . . . . 3/8" line with vent tube . . . . . .4013-755-762. . . .

Gas Tank Filler Tubes

New reproduction steel filler tubes to use with our new tanks. Rubber hose not included.

62-64 . Filler Tube . . . . . .4010-753-62. . . .
65-67 . Filler Tube . . . . . .4010-753-65. . . . .

Gas Caps

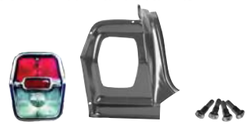

New reproduction gas caps replace leaking, broken, or missing originals.

Body Hardware

The lowly bolts, screws, clips, springs, retainers, and other hardware items are often overlooked—until you're trying hard to reassemble your finished Chevy II / Nova and get it ready to drive out of the garage. But you'll hate to put rusty or mismatched hardware on that beautiful newly painted vehicle. And those "shade-tree" fixes like baling wire and universal hardware can look kind of tacky. And then, where can you find the authentic hardware at the last minute? Get a head start on the completion of a highly detailed project, by ordering the correct hardware for your vehicle today.

Master Body Hardware Kits

Most of the hardware you need to properly assemble your body is included in these comprehensive concours quality kits. See our website Online Catalog for a complete list of each kit's components. Typical kits include fasteners to attach: Back-Up Lamps, Battery Tray, Bumpers and Brackets and Guards, Bumper Filler Panel, Cowl Panel, Door Latches, Fenders and Braces and Extensions and Splash Shields, Grille and Brackets and Moldings, Headlamp Bezels, Housings, and Adjusters, Header Panel, Hood and Hinges, Hood Levelers, Hood Catch and Lock Plate, Hood Catch Support, Hood Moldings, License Plate Brackets, Marker Lamps, Nameplates, Parking Lamps, Tail Lamps, Trunk Latch and Striker, Trunk Lid, Valance, Wheelhouses and Brackets.

WEATHERSTRIPS

With time and temperature, old rubber items tend to harden, shrink, crack, and generally disintegrate. Not only do they stop functioning as designed, but they just plain look ugly. Seal out the elements, and make your Chevy II / Nova look great at the same time, with these top quality cost-efficient Weatherstrip Kits from the restoration gurus at Goodmark Industries. The Goodmark products team carefully examined all of the available parts, and selected the finest reproductions they could find. Then they carefully chose the items that virtually every restorer or rodder needs, and put them in these complete and convenient kits.

Weatherstrip Kits

Convenient kits contain most of the weatherstrips you need to correctly re-seal your Chevy II. See the notes for the list of parts available in each kit.

Editors love Goodmark®!

"...about one-tenth of the storage in Goodmark's warehouse. It takes a lot of work, time and money to keep inventory such as this but it means that orders get filled fast..."

Super Chevy Magazine
September 2003

Camaro & Firebird

Camaros and Firebirds have long been very popular with racers, restorers, and collectors. Their long hoods and short trunks add up to sporty, macho styling that just about everyone seems to like. But for many years it was difficult to find affordable sheet metal and other parts for restoration or repair. Today your friends at Goodmark Industries are proud to offer a wide assortment of premium quality reproduction parts for the famous F-body twins. Look through the catalog to find the parts you need, or just give our expert sales staff a call!

Bumpers and Grille

Our bumpers are new, die-stamped, high quality steel, triple plated, and excellent fit. The plating process of copper / nickel / chrome meets original factory standards. Get a set of these quality bumpers for your car, and restore that shine your car's been lacking. Order a Bumper Bolt Kit and a Bumper Bracket Set for complete replacement. We also rechrome original bumpers...call us for prices and lead time. Send us your original core, and we will show plate it and pay the return shipping.

Chrome Bumpers

New high quality chrome bumpers will replace rusty or damaged originals. Be sure to order bolt kits and bracket sets for complete replacement where available.

Grilles & Front Lamps

We all know that a flawed grille can spoil the looks of any car. A segment that is missing, moldings that are missing, a crack, or blemish will mess up the "detailed" look of the whole front end. Get a brand new Goodmark© grille and show the world a "new face" on your car. These quality grilles are made from molded plastic just like the originals, and moldings are included with all kits. Looking good!

Grilles

All Grille Kits include grille, upper and lower molding, headlamp bezels, and all mounting hardware for simple installation and complete correct replacement.

67 . . . . . Camaro (except RS) Grille Kit . . . . . 4020-050-671S. . . .

A Word About Tooling...

The act of stamping flat sheets of steel into the complex shapes that make up fenders, doors, hoods, bumpers, and other parts generates tremendous pressure, heat, and friction.

The stress and strain of repeatedly stamping various shapes and distortions inevitably causes rapid wear to tooling surfaces. As the tooling wears out, the shapes it forms out of sheets of steel must also change. Thus, tool-life is a very big factor in the quality of parts you receive for your vintage car or truck.

Keeping this in mind, it just makes sense that brand new precision tooling can sometimes produce higher quality parts than old tooling, which has been used for many years to stamp tens of thousands of parts.

When the metal masters at Goodmark Industries encounter old tooling, they must weigh the practicality of restoring and resurrecting old dies and tools, versus the cost and time necessary to start over from scratch. But more importantly they must decide which method will result in better quality new products at affordable prices.

Goodmark® team members know that you want fenders, doors, quarter panels, and other sheet metal items that fit right, and look exactly like the originals. They also know that you aren't made of money, and that you need these parts to be affordable. Today's modern machining techniques and materials are vastly improved over those used nearly 40 years ago, when many of these parts were first made at the factory. Thus, when deciding whether to resurrect old tooling or make brand new dies, the decision often leans toward brand new tooling. Either way, Goodmark Industries prides itself in offering the finest available reproduction sheet metal parts on the planet, and providing these precision quality parts at reasonable prices.

Front End Sheetmetal

Front Valances

New EDP coated steel front valances cover below the front bumper. Mounting hardware is included with our Master Body Hardware Kits.

Steel Hoods

Truck Freight

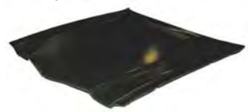

Hoods are wide and generally pretty flat in shape, which causes every little flaw to show through a paint job like a sore thumb. Make your hood look beautiful, and you've got a good head start on a great looking car. Goodmark's precision quality brand new hoods will look terrific on your car, and probably cost you a lot less than the bodywork and materials to restore that old rusty dented original. Go for it, and put a gorgeous new steel hood on your car today!

67-69 . . Camaro Standard Flat Hood . . . . . .4020-200-671. . . . .
67-69 . . Camaro SS . . . . . .4020-200-67. . . . . .

69 . . . . Camaro Cowl Induction, Best Quality! 4020-200-691. . . . .
NOTE: Although only used in '69, will fit all '67-69 Camaro models.

70-81 . . Camaro (3-piece set). . . . . .4021-250-701S. . . .

Hoods, Cowl Induction Style

Truck Freight

For a smooth and practical style that allows more under-hood room for tall intakes or carb spacers, get one of these Steel Cowl Induction hoods. Goodmark® has the largest selection of Cowl Induction style hoods available today. These hoods are complete with stamped-steel under-hood bracing and outer skin, which looks as though they were stamped in an OEM factory. And, they bolt right on using stock hardware and hinges. What could be easier? The Cowl Induction hoods feature a functional 16" diameter air plenum to move air to the air cleaner.

Engine Compartment & Underhood Detail

Get the details right, and your engine compartment will be a rare treat for everyone to see at the next car show or cruise-in you attend. Enhance the appearance of the engine and the whole engine bay with correct clips, bolts, screws, straps, brackets, grommets, etc. And what is right at top-dead-center for everyone to see? The air cleaner, of course. Nothing looks better than the original style unit. Today, even many owners of street machines are modifying our stock air cleaners to fit their aftermarket carburetors and fuel injection, for that "period correct" look.

Cowl Induction Parts

All the parts you need to completely install a Cowl Induction system on a '67-69 V8 Camaro. All switches, brackets, flappers, air cleaner, spacers, wiring, etc. are included in one box.

Doors & Hardware

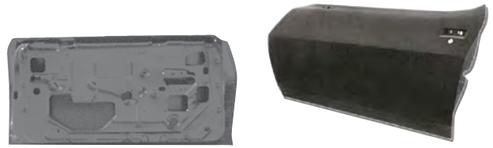

Door Shells

The most abused part of any car has to be the doors. Bicycles, grocery carts, and parking lots all seem to have been created for the purpose of damaging car doors. Add to that all the rain that slides down the side glass into the bottom of the door frame, and your doors face a pretty rough life. Now you can get all new complete door assemblies, door skins, hinges and inside / outside hardware. These precision parts allow you to easily repair or replace your door as needed. All Door Shells ship via Truck Freight.

Door Shells (continued)

67 . . . . . Door Shell, Left / Right . . . . . .4020-400-67L / R . .
68 . . . . . Door Shell, Left / Right . . . . . .4020-400-68L / R . .

. . . . . Box of 100 Screws . . . . . .HWB2202. . . . . .

What's that black coating on most Goodmark© sheetmetal?

It's called EDP, which stands for Electro Deposit Primer, and it makes an excellent primer under your paint job.

As you probably know, factory paint back in the '60's and '70's was usually just sprayed onto the surfaces that could be reached by a spray gun. But this left many blind areas behind braces, etc, completely bare of any paint protection. Hence, many cars rusted within a few years. But EDP coating is applied electrically, almost like a plating process. The excellent rust-resistant coating reaches every nook and cranny, for unparalleled corrosion resistance.

The only surface preparation required is a light scuffing of the surface for better paint adhesion. No stripping is necessary. The panel is protected from rust as long as the EDP coating remains under your paint.

This is one more way that Goodmark© goes the extra mile for our customers!

Floor Assemblies

Look!

Complete EDP coated factory-style floor assembly with front and rear seat braces, under rear seat braces, and correct contoured transmission tunnel. All floor assemblies ship via Truck Freight.

67-69 . . 1-Piece with Center and Rear Seat Braces
. . . . . .4020-500-67S. . . . .

70-74 . . 1-Piece Floor Pan Assembly (modify for A/T models)
. . . . . .4021-500-701S. . . .

Floor Pan Patches

Full-length pans for major floor rust repair, without replacing the entire floor. These panels do not extend under the rear seat, nor do they include any factory seat bracing. Partial sections are also available for specific repair areas.

67-69 . . Full-Length, 21" W x 60" L, Left / Right 4020-500-67L / R . . .
. . . . . Full-Length, 27" W x 82" L, Left / Right 4020-500-672L / R .

Which type of "Quarter Panel" do you need?

A "Full Quarter Panel" is made just like the panels which were welded onto your car when it was new. Indeed, for this reason some people call them "Factory-Style" or "OEM-Style" Quarter Panels. These panels reach all the way to each edge of the rear quarter panel area, including the trunk and door jambs, and reach to the roof line, just like the factory-original panels did for your particular model.

"Quarter Skins" are nearly as large as "Full Quarter Panels", but do not include any trunk lips, door jambs, etc. They reach out to each edge of the quarter panel area, but you must leave the edge of original quarter panels to weld to. "Quarter Skins" reach upward to approximately the location where the bottom of original vinyl roofs would normally be. Keep in mind that, while "Quarter Skins" initially cost less than "Full Quarter Panels", it often takes more labor to install them. So, if keeping your costs down is the only reason that you might select "Quarter Skins" over "Full Quarter Panels", you should be aware that the final net cost might not represent much of a savings. Also, "Quarter Skins" do require a lip to weld to, all the way around the edge. This makes them a poor choice for badly rusted-out cars since there is often no bottom edge remaining to weld to. In this case, you are better off choosing "Full Quarter Panels", and adding Outer Wheelhouses to completely replace the rust.

"Quarter Patches" are just what they sound like small pieces of quarter panels, for repairing small holes in isolated areas. These are good choices for nearly perfect cars with tiny holes in specific spots, or for low-budget "driver" cars. But it can be very difficult to hide the seam areas where the patches are welded to the original panels.

Floor Pan Patches (continued)

70-74 . . Full-Length, 21" W x 56" L, Left / Right 4021-500-70L / R . . .

. . . . . Firebird Convertible, Left / Right . . . . . .4320-602-69L / R . .

Trunk Weatherstrip Gutters

Steel rails that weld in the trunk opening on the quarters that make the channel that the trunk weatherstrip sets in. The '67-69 set also includes a patch for the parcel shelf (under the deck filler). The deck filler panel and the tail panel make up the rest of the channel.

67-69 . . Coupe (3-Piece Set) . . . . . .4020-714-67S. . . . . .

Quarter Panel Reinforcements

EDP coated steel braces that tack weld in the inside corner of the quarter window to provide structural reinforcement to this area. Absolutely a must when replacing factory quarters on coupe models.

67-69 . . Coupe Corner Window Reinforcements,
. . . . . Left / Right pair . . . . . .4020-604-672P. . . . .

80% Quarter Panels

EDP coated panels that are just like a Factory Style quarter, but are missing the sail panel (to the roof) and the door jamb pillar. Complete coverage around the tail panel and trunk opening (does not include weatherstrip gutter). Best value for the money! All Quarter Panels ship via Truck Freight.

67 . . . . . Camaro, 24" H x 66" L, Left / Right. . . .4020-603-67L / R . . .
68 . . . . . Camaro, 24" H x 66" L, Left / Right. . . .4020-603-68L / R . . .

69 . . . . . Camaro, 24" H x 66" L, Left / Right. . . .4020-603-69L / R . . .
69 . . . . . Firebird, 24" H x 66" L, Left / Right . . . .4320-603-69L / R . .

Quarter Side Skins

EDP coated panels repair major rust on the side of the quarter panel. These are not full panels, but cover from the bottom of the quarter up to the belt line. They lip into the door jamb, but do not include the pillar. They also roll over the top about 1/2" to give you a welding lip, but do not extend to the trunk opening, nor do they wrap around the tail panel. They only cover the SIDE of the quarter. Primarily used for rust repair in the wheel opening and lower half of the quarter, and where full quarters aren't available. All Quarter Panel Skins are shipped via Truck Freight.

67-68 . . Camaro, 24" H x 66" L, Left / Right. . . .4020-600-67L / R . . .

Full Quarter Panels. Your BEST Choice!

If you have a Camaro or Firebird that is worth restoring, then it is probably worth restoring right! These top-quality Full Quarter Panels are made just like the factory made them originally, with lap seams and inner door jambs, and they reach up to the roof line. Unquestionably, these are the best choice for any quality restoration of a Camaro or Firebird body.

Lower Rear Quarter Patches

EDP coated patches for the lower rear section of the quarter (from the rear wheel opening to the rear bumper) for those cars not needing complete panel replacement.

Rear Deck & Trunk

Trunk Lids

EDP coated trunk lids are an excellent alternative to a rusty, dented trunk lid. Our panels feature detailed inner frames and inner frame holes cut for the "ducktail" rear spoiler. All trunk lids ship via Truck Freight.

67-69 . .Trunk Lid (includes striker plate)
. . . . . Best Quality! . . . . . .4020-700-671. . . . .
70-81 . .Trunk Lid . . . . . .4021-700-70. . . . . .

Trunk Lid Torsion Rods

New tension rods used to keep the trunk lid raised when open. These are sometimes bent, corroded, or the wrong tension when using a rear spoiler. We offer the correct replacements.

67-69 . .RH Hinge Tension Rod (for models with Rear Spoiler,
. . . . . Includes Rubber Sleeve . . . . . .4020-700-672. . . . . .

70-81 . .LH Torque Rod. . . . . .4021-704-701L. . . . .

Replace the rusty and muck-filled old gas tank in your muscle car with brand new high quality steel Gas Tanks from Goodmark®. There is no cost-efficient way to restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, and gas caps. Most tanks are also available set up for EFI, and include the fuel pump and sending unit.

67-81 . . Sill Plate Screws (box of 100) . . . . . .HWB2203. . . . . .

Don't even THINK. . .

of replacing quarter panels while leaving old rusted outer wheelhouses in place. Many people have made this mistake over the years, and end up having to do their car over again. The original Outer Wheelhouse is welded onto the quarter panel at the factory, and the seam forms a natural place to trap moisture and debris. Whenever you see a car with rust around the wheel well opening, you know that BOTH the quarter panel and the Outer Wheelhouse are badly rusted. While the wheelhouse is indeed hidden behind the quarter panel, it is the foundation that your new quarter panel must be welded to. So, rusted and weakened steel may not hold your quarter panel properly. Moreover, you may soon have to resort to repairing rust holes again this time in the wheelhouse. And where is the first place prospective buyers will probe their fingers into while searching for evidence of rust repair? Under the wheel well opening, of course!

Body Hardware

The lowly bolts, screws, clips, springs, retainers, and other hardware items are often overlooked—until you're trying hard to reassemble your finished Camaro / Firebird and get it ready to drive out of the garage. But you'll hate to put rusty or mismatched hardware on that beautiful newly painted vehicle. And those "shade-tree" fixes like baling wire and universal hardware can look kind of tacky. And then, where can you find the authentic hardware at the last minute? Get a head start on the completion of a highly detailed project, by ordering the correct hardware for your vehicle today.

Master Body Hardware Kits

Most of the hardware you need to properly assemble your body is included in these comprehensive concours quality kits. See our website Online Catalog for a complete list of each kit's components. Typical kits include fasteners to attach: Back-Up Lamps, Battery Tray, Bumpers and Brackets and Guards, Bumper Filler Panel, Cowl Panel, Door Latches, Fenders and Braces and Extensions and Splash Shields, Grille and Brackets and Moldings, Headlamp Bezels, Housings, and Adjusters, Header Panel, Hood and Hinges, Hood Levelers, Hood Catch and Lock Plate, Hood Catch Support, Hood Moldings, License Plate Brackets, Marker Lamps, Nameplates, Parking Lamps, Tail Lamps, Trunk Latch and Striker, Trunk Lid, Valance, Wheelhouses and Brackets.

Chevelle, El Camino & Monte Carlo

This chapter is devoted to quality parts for Chevrolet's version of the "A-Body" platform, the popular and powerful CHEVELLE. Other "A-Body" cars, like Pontiac's GTO, are covered elsewhere in this catalog.

Goodmark proudly offers top quality reproduction sheet metal and other items that will look terrific on your car. Check out the following catalog pages for everything from complete factory-style quarter panels to brand new fenders...and even small trim items.

Bumpers and Grille

These Premium Quality Bumpers are new, die-stamped, high quality steel, triple plated, and fit perfectly. The show-quality plating process of copper/ nickel/ chrome meets original factory standards. Get a set of these excellent bumpers for your car, and show them off to the world. Be sure to order hardware and brackets where available for complete replacement.

Editors love Goodmark®!

"Wow! I hope every-one can see how straight and smooth the Chevelle's body looks with glossy black paint. Just wait until this baby's back together. Very soon."

Grille and Front Trim Parts

We all know that flawed trim can spoil the looks of any car. A bar or molding that is missing or bent, a ding, a crack, or blemish will mess up the "detailed" look of the whole front end. Get a brand new Goodmark® grille and show the world a "new face" on your car. These quality grilles are made from anodized aluminum or molded plastic just like the originals. Looking good! Hardware is included in our Master Body Hardware Kits.

Get new inner fenders!

With all the abuse that Inner Front Fenders have to take, it should be no surprise that they look so bad when you remove them from your car. The top areas usually look okay, up near the seam between the hood line and the outer fender. But it can be a real shocker when you disassemble the front sheet metal, and survey the rust and damage. Batteries leak acid on the Inner Front Fenders, while tires throw up rocks, water, snow, ice, salt, sand, and gravel at tremendous velocities. People often drill extra holes to mount accessories, and even Father Time seems to take a toll on those poor Inner Front Fenders. At Goodmark Industries we have learned to respect inner fenders, as we know how important they are to having proper fitting front sheet metal. And, they show up prominently every time you open your Chevelle's hood. Go ahead, order two new Front Inner Fenders with your new outer front fenders. You'll love the way they look!

Park Lamps

Complete park lamp assemblies for popular models. Each assembly includes housing, lens, lens gasket, and screws, ready to assemble. Lenses and Lens Screws are also available for some specific models listed.

Editors love Goodmark!

"Last but not least is the Goodmark license plate reminding every-one where to go for quality restoration parts. Incidentally, the headlight trim rings and parking light assemblies are also Goodmark parts."

Front Fenders

Truck Freight

You're going to love the way these beautiful brand new steel fenders will fit and look on your Chevelle. Just like original factory fenders with all braces, holes, and threads in place, these fenders are a much better choice than trying to deal with old fender rust, dents, paint, and body filler. These are the best quality on the market, and all fenders are shipped via Truck Freight.

Front Fender Braces

Steel braces used to brace the bottom of the front fender to the radiator support. Use 2 braces per car.

64-65 . . Chevelle / El Camino . . . . . 4030-120-64 . . . . . .
70-72 . . Chevelle / El Camino . . . . . 4033-120-70 . . . . . .

What's that black coating?

It's called EDP, which stands for Electro Deposit Primer, and it makes an excellent primer under your paint job.

As you probably know, factory paint back in the '60's and '70's was usually just sprayed onto the surfaces that could be reached by a spray gun. But this left many blind areas behind braces, etc, completely bare of any paint protection. Hence, many cars rusted within a few years. But EDP coating is applied electrically, almost like a plating process. The excellent rust-resistant coating reaches every nook and cranny, for unparalleled corrosion resistance.

The only surface preparation required is a light scuffing of the surface for better paint adhesion. No stripping is necessary. The panel is protected from rust as long as the EDP coating remains under your paint.

This is one more way that Goodmark® goes the extra mile for our customers!

Fender Tie Bars

EDP coated panel that goes above the grille assembly and ties the front fenders together.

65 . . . . . Chevelle / El Camino . . . . . 4030-150-65 . . . . . .

. . . . . Best Quality! . . . . . 4033-190-702L / R . .

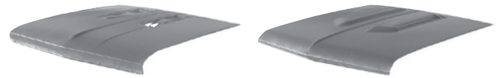

Goodmark®

Hoods

Hoods are wide and generally pretty flat in shape, which causes every little flaw to show through a paint job like a sore thumb. Make your hood look beautiful, and you've got a good head start on a great looking car. These precision quality brand new hoods will look terrific on your car, and probably cost you a lot less than the bodywork and materials to restore that old rusty dented original. Go for it, and put a gorgeous new steel hood on your car today! Be sure to order new inserts if required.

68-72 . . Bushing Hardware Kit . . . . . 4032-326-682S . . . . . .

Radiator Mounting Cushions

New rubber cushions that support the radiator when mounted to the radiator support. Sold in complete sets of 4 for one car.

68-77 . . 3-Core Radiator (Set of 4) 4012-326-681S
68-77 . . 4-Core Radiator (Set of 4) 4012-326-682S

Radiator Top Covers

EDP coated steel panel that retains the top of the radiator.

68-72 . . Small-Block V8 without A/C 4012-315-682
70-72 . . Big-Block V8 with A/C 4033-315-70

Engine Compartment Detail

Get the details right, and your engine compartment will be a rare treat for everyone to see at the next car show or cruise-in you attend. Enhance the appearance of the engine and the whole engine bay with correct clips, bolts, screws, straps, brackets, grommets, etc. And what is right at top-dead-center for everyone to see? The air cleaner, of course. Nothing looks better than the original style unit. Today, even many owners of street machines are modifying our stock air cleaners to fit their aftermarket carburetors and fuel injection, for that "period correct" look.

Air Cleaner Assembly and Parts

Complete new assemblies include base, lid and filter. Lids and bases are available upon request.

64-66 . . 283 4-bbl, '64-65 327 4-bbl Air Cleaner Assembly
(base, lid, filter, and spark arrestor) . 4010-230-644S

Editors love Goodmark!

"rounding out the trim pieces on the outside of the car are Goodmark reproduction mirrors, floor mats, side marker assemblies and bumpers, all of which are manufactured with factory quality in mind. We bet you thought Goodmark just made body panels; in actuality, Goodmark offers many of these and other parts for many different makes and models."

66-77 . . Hold-Down Clamp / Bolt 4031-301-665
78-88 . . Hold-Down Clamp 4145-301-81

67-72 . . Oil Pan Battery Cable Clip 4020-302-672
65-67 . . Battery Cable Junction Block 4030-375-644

Radiator Caps

Excellent quality original style radiator cap for all models. These are much better quality than others on the market.

64-72 . . 15 lb. (RC-15) 4040-306-57

Coolant Overflor Jar Caps

Reproduction overflow jar cap for popular models. Used on models with captive coolant system.

73-88 . . Coolant Jar Cap 4312-309-73

Fan Blade Assembly

Heavy-Duty 5-blade cooling fan used on all high performance models with heavy-duty cooling.

(photo not available)

67-79 . . Chevrolet V8 4011-312-672

Fan Shrouds

Excellent quality steel or molded plastic fan shrouds for popular models. Use these whenever replacing the radiator support or radiator for proper cooling function.

64-67 . . Small Block V8 (w/o HD cooling) 4030-310-641
66-67 . . Small Block V8 (w/ HD cooling) 4031-310-661
66-67 . . Big Block V8 4031-310-662
68 . . . . . Small Block V8 4032-310-681

Editors love Goodmark!

"We can all see in this photo, wherever there is body filler, it's a place that we most commonly find factory blemishes and body seams. This photo is a true testament to how close Goodmark has come to the quality of factory sheetmetal."

Fan Shrouds (continued)

68 . . . . . Big Block V8 4032-310-682

Floor Pans

EDP coated floor assemblies and patches help repair even the most rusted out Chevelle. Our full assembly includes the complete floor pan, factory seam to seam, from the firewall to the rear axle kick up, rocker to rocker. All floor braces are included with the floor assembly. Our partial floor pans will cover the entire transmission tunnel when put together for full replacement, and include a few inches up the firewall where it commonly rusts. All floor assemblies and full-length floors ship via Truck Freight.

64-67 . . 1-Piece Full Floor Assembly (includes 3 floor braces)

Chevelle/El Camino/Monte Carlo

Which quarter panel do you need?

A "Full Quarter Panel" is made just like the panels which were welded onto your car when it was new. Indeed, for this reason some people call them "Factory-Style" or "OEM-Style" Quarter Panels. These panels reach all the way to each edge of the rear quarter panel area, including the trunk and door edges, and reach to the roof line, just like the factory-original panels did for your particular model. For GM cars, this will include the door jamb area.

"Quarter Skins" are nearly as large as "Full Quarter Panels", but do not include any trunk lips, door jambs, etc. They reach out to each edge of the quarter panel area, but you must leave the edge of original quarter panels to weld to. "Quarter Skins" reach upward to approximately the location where the bottom of original vinyl roofs would normally be. Keep in mind that, while "Quarter Skins" initially cost less than "Full Quarter Panels", it often takes more labor to install them. So, if keeping your costs down is the only reason that you might select "Quarter Skins" over "Full Quarter Panels", you should be aware that the final net cost might not represent much of a savings. Also, "Quarter Skins" do require a lip to weld to, all the way around the edge. This makes them a poor choice for badly rusted-out cars since there is often no bottom edge remaining to weld to. In this case, you are better off choosing "Full Quarter Panels", and adding Outer Wheel Houses to completely replace the rust.

"Quarter Patches" are just what they sound like small pieces of quarter panels, for repairing small holes in isolated areas. These are good choices for nearly perfect cars with tiny holes in specific spots, or for low-budget "driver" cars. But it can be very difficult to hide the seam areas where the patches are welded to the original panels.

M/T Floor Shift "Humps"

Sheetmetal tunnel that welds to the floor pan and supports the shifter on floor shift M/T models. Use these when converting to M/T floor shift or replacing floors.

Quarter Skins

EDP coated steel skins are not full panels, but cover from the bottom of the side of the panel up to the beltline. They do not include the sail panel to the roof, the door jamb pillar, nor do they extend to the trunk opening. An excellent choice for repairing rust in the wheel arch or lower rear section. All quarter skins ship via Truck Freight.

Rear Wheelhouses

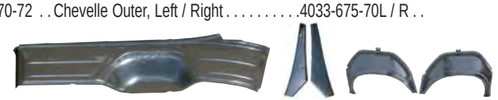

EDP coated steel panels used to form the wheelhouse over the rear wheel. The inner wheelhouse is the one you see inside the trunk. The outer wheelhouse mates up to the quarter panel in the wheel lip. If your quarters are rusty in the wheel opening, you need to replace these, too. These can be modified for convertible models by crushing down the top section to clear the top frame.

64-67 . . Inner, Left / Right . . . . . .4030-670-64L / R . .

Don't even THINK...

of replacing quarter panels while leaving old rusted outer wheelhouses in place. Many people have made this mistake over the years, and end up having to do their car over again. The original Outer Wheelhouse is welded onto the quarter panel at the factory, and the seam forms a natural place to trap moisture and debris. Whenever you see a car with rust around the wheel well opening, you know that BOTH the quarter panel and the Outer Wheelhouse are badly rusted. While the wheelhouse is indeed hidden behind the quarter panel, it is the foundation that your new quarter panel must be welded to. So, rusted and weakened steel may not hold your quarter panel properly. Moreover, you may soon have to resort to repairing rust holes again this time in the wheelhouse. And where is the first place prospective buyers will probe their fingers into while searching for evidence of rust repair? Under the wheel well opening, of course!

Bed Floor Assembly

Truck Freight

EDP coated complete floor assembly replaces rusted or damaged originals.

78-87 . . El Camino / Caballero Bed Floor Assembly
. . . . . .4085-730-78S. . . . .

Bed Moldings

Complete set of El Camino / Sprint / Caballero moldings used to trim the top of the bedsides and tailgate. Mounting clips are included with most moldings. Some individual moldings are available upon request.

64-67 . . Cab / Bed Molding Set (9 pieces for cab, bedsides, and top of tailgate)

Quarter Glass Sash Chrome

This is the vertical chrome molding that holds the weatherstrip between the quarter glass and door glass. Usually pitted from age. Each molding comes with the glass set channel to attach it to the edge of the quarter glass. Weatherstrips are not included, but are included with our Weatherstrip Kits or are available in the weatherstrip section.

64-65 . . 2-Door Hardtop, Left / Right . . . . . .4030-665-641L / R . .

Look!

Editors love Goodmark!

"With the amount of rust present in the trunk floor, it's much easier to replace it than rework it and hope the rust doesn't reappear. Like all the other sheetmetal panels, it comes right from Goodmark®'s massive inventory."

Deck Filler Panels

EDP coated panels that fit between the trunk lid and back window. This is a common rust area on all GM cars.

64-65 . . 2-Door Hardtop, with Inner Support. . . .4030-710-641. . . . . .

. . . . . Convertible. . . . . .4032-710-682. . . . . .

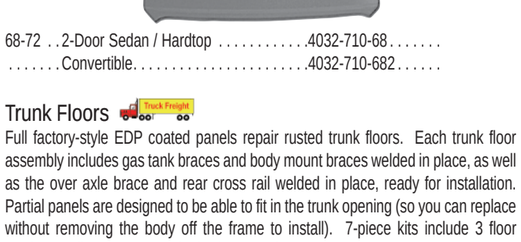

Trunk Floors

Full factory-style EDP coated panels repair rusted trunk floors. Each trunk floor assembly includes gas tank braces and body mount braces welded in place, as well as the over axle brace and rear cross rail welded in place, ready for installation. Partial panels are designed to be able to fit in the trunk opening (so you can replace without removing the body off the frame to install). 7-piece kits include 3 floor sections, 2 floor braces, and 2 body mount braces.

Gas Tanks

Replace rust and muck-filled old gas tanks in your muscle car, with brand new high quality steel Gas Tanks from Goodmark®. There is no cost-efficient way to restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, and gas caps. All Gas Tanks include filler neck unless noted. Some tanks are available set up for EFI with fuel pump and sending unit included.

Chevelle/El Camino/Monte Carlo

Body Stripes and Stencil Kits

Part of what made the SS models so attractive were the optional body stripes used on most performance models. We offer good quality kits to replace the stripes on a freshly painted car so you can get back to your original glory, or add performance to a standard model for sportier appearance.

67 . . . . . Chevelle SS-396 Stripe Kit (10 pieces)

Body Hardware

The lowly brackets, bolts, clips, springs, retainers, levers, and other hardware items are often overlooked—until you're trying hard to reassemble your finished Chevelle and get it ready to drive out of the garage. But you'll hate to put rusty or mismatched hardware on that beautiful newly painted car. And those "shade-tree" fixes like baling wire and universal hardware can look kind of tacky. And then, where can you find the authentic hardware at the last minute? Get a head start on the completion of a highly detailed project, by ordering the correct hardware for your vehicle today.

Body Hardware Kits

Excellent kits feature correct fasteners for specific models, not generic hardware. Each group of parts is individually bagged and labeled so that you know just where they go, and even the assembly manual page number is assigned to each bag. Typical kit includes fasteners to attach: back-up lamps, battery tray, bumpers & brackets & guards, bumper filler panel, cowl panel, door latches, fenders & braces & extensions & splash shields, grille & brackets & mouldings, headlamp bezels, housings & adjusters, header panel, hood & hinges, hood levelers, hood catch & lock plate, hood catch support, hood mouldings, license plate brackets, marker lamps, nameplates, parking lamps, tailamps, trunk latch & striker, trunk lid, valance, wheelhouses & brackets.

Emblems

We have the detail items others don't offer that make the difference between a show car and a nice driver. Our selection of emblems completes your exterior refinishing, and truly makes an old car look brand new. Be sure to research and order all the emblems you need. All emblems are die-cast, chromed and painted where needed, and are licensed reproductions or service GM parts.

Weatherstrips

Detail your Chevelle, and keep out weather and wind noise with our premium quality rubber Weatherstrips. These excellent reproductions of original parts will help your doors shut with that "new-car" solid sound, and they will keep windows from rattling and scraping against metal door parts. Get new Weatherstrips for your Chevelle from Goodmark!

Weatherstrip Kits

Goodmark has all the weatherstripping you need to correctly replace worn originals in one handy kit.

Buick, Olds & Pontiac

"A-Bodies", such as the Buick Special / Skylark / GS, Oldsmobile F-85 / Cutlass / 442, and Pontiac Tempest / LeMans / GTO, are worshiped by their fans, and are famous for their winning history at the track and on the streets of America. Until recently only a few parts were available for these "other" A-Bodies. But the restoration professionals at Goodmark are hard at work developing more and more premium parts for these popular muscle cars. Review the following pages carefully, and keep an eye on Goodmark's fine website for the latest announcements in newly available parts for Buick, Oldsmobile, and Pontiac A-Bodies.

Bumpers and Grille

Goodmark has new chrome steel bumpers and stainless steel hardware to mount your new bumper. Our Premium Quality bumpers are chromed in the USA and are excellent quality. Always use new hardware for that freshly restored look!

Chrome Bumpers

New chrome bumpers for popular models. These bumpers are designed to replace dull or corroded factory units. Premium bumpers are chromed in the USA for the ultimate in quality!

Front Lamps

Being able to light up the road and see ahead driving at night is an important safety factor. Old lenses can be dull and fogged, and in some cases cracked from age or collision damage. We offer new reproduction lamp lenses and gaskets to make replacement and restoration easy.

Headlamp Capsules

Replacement style headlamp capsules for popular models. Each capsule contains a sealed beam unit, mounting ring, and retaining ring, ready to install.

(photo not available)

Front Fenders

Truck Freight

You're going to love the way these beautiful brand new steel fenders will fit and look on your Cutlass. Just like original factory fenders with all braces, holes, and threads in place, these fenders are a much better choice than trying to deal with old fender rust, dents, paint, and body filler. These are the best quality on the market, and all fenders are shipped via Truck Freight.

68-69 Pontiac, Left / Right (except Grand Prix)
. . . . . .4332-100-68L / R . .
70-72 Oldsmobile, Left / Right . . . . . .4533-100-70L / R . .

Lower Rear Fender Patches

EDP coated lower rear patches repair rust between the front wheel opening and the door. Best quality on the market!
68-69 Pontiac "A", 12" H x 14" W, Left / Right 4332-190-68L / R . . .

Antenna Parts

Gasket for the mast, and grommet for the lead through the cowl.

Cowl Grommet . . . . . .4030-374-642. . . . . .

Get new inner fenders!

With all the abuse that Inner Front Fenders have to take, it should be no surprise that they look so bad when you remove them from your car. The top areas usually look okay, up near the seam between the hood line and the outer fender. But it can be a real shocker when you disassemble the front sheet metal, and survey the rust and damage. Batteries leak acid on the Inner Front Fenders, while tires throw up rocks, water, snow, ice, salt, sand, and gravel at tremendous velocities. People often drill extra holes to mount accessories, and even Father Time seems to take a toll on those poor Inner Front Fenders. At Goodmark Industries we have learned to respect inner fenders, as we know how important they are to having proper fitting front sheet metal. And, they show up prominently every time you open your hood. Go ahead, order two new Front Inner Fenders with your new outer front fenders. You'll love the way they look!

Inner Fender Wire Straps

New plastic straps that retain wiring to the inner fender on Oldsmobile models. Sold by the box.

70-77 Oldsmobile, box of 50 . . . . . .HWB2418 . . . . . .

Inner Fenders

EDP coated steel panels form the inner skirt for the front fenders. Usually rusted from leaking batteries or destroyed from road debris kicked up from the front wheels.

64-67 Pontiac, Left / Right . . . . . .4330-350-64L / R . .
68-69 Pontiac, Left / Right . . . . . .4332-350-68L / R . .

Inner Fender Splash Shields

Heavy rubber splash shields with staples are crucial to keeping your engine compartment clean from road spray kicked up from the tires. Be sure to replace these with your new inner fenders.

78-88 All . . . . . .4145-319-811. . . . . .

Radiator Supports

EDP coated steel panels form the inner structure to the front clip. Usually rusted from leaking coolant or collision damage.

66-67 Pontiac (exc. A/C or Ram Air) . . . . . .4331-320-661. . . . . .
68-70 Pontiac (exc. '70 Tempest / LeMans) . .4333-320-70. . . . . .
NOTE: Trim top panel slightly for '68 models, remove bumper hooks for '69 models.

Radiator Support Bushings

New bushings replace worn or rotted units that mount the radiator support to the frame of the car. Hardware is included with each kit.

68-72 Pontiac "A". . . . . .4332-326-68S. . . . . .

Engine Compartment Detail

Get the details right, and your engine compartment will be a rare treat for everyone to see at the next car show or cruise-in you attend. Enhance the appearance of the engine and the whole engine bay with correct clips, bolts, screws, straps, brackets, grommets, etc. And what is right at top-dead-center for everyone to see? The air cleaner, of course. Nothing looks better than the original style unit. Today, even many owners of street machines are modifying our stock air cleaners to fit their aftermarket carburetors and fuel injection, for that "period correct" look.

Air Cleaner Lids

New chrome and painted lids used on factory high-performance air cleaners.

67-68 GTO H.O., '66-67 4-4-2 Open Element
Chrome Lid only . . . . . .4031-230-667X. . . . .
69-70 GTO with Ram Air Black Lid only . . . . .4020-230-6925. . . . .

64-72 Speedometer Cable Grommet. . . . . .4030-985-64. . . . . .

What's that black coating?

It's called EDP, which stands for Electro Deposit Primer, and it makes an excellent primer under your paint job.

As you probably know, factory paint back in the '60's and '70's was usually just sprayed onto the surfaces that could be reached by a spray gun. But this left many blind areas behind braces, etc, completely bare of any paint protection. Hence, many cars rusted within a few years. But EDP coating is applied electrically, almost like a plating process. The excellent rust-resistant coating reaches every nook and cranny, for unparalleled corrosion resistance.

The only surface preparation required is a light scuffing of the surface for better paint adhesion. No stripping is necessary. The panel is protected from rust as long as the EDP coating remains under your paint.

This is one more way that Goodmark® goes the extra mile for our customers!

Cowl Parts
New parts used to keep debris out and seal the cowl area.

70-72 Cutlass Supreme / 442 Convertible,
Left / Right . . . . . .4560-602-70L / R . .

Trunk Weatherstrip Gutters

EDP coated steel gutters welded to the trunk lip opening that form the channel for the trunk weatherstrip. These are not included with a factory quarter panel.

64-65 except Wagon (2-Piece Set) . . . . . .4030-714-64S. . . . . .
66-67 except Wagon (2-Piece Set) . . . . . .4031-714-66S. . . . . .
70-72 Buick "A" except Wagon (2-Piece Set) .4032-714-68S. . . . . .

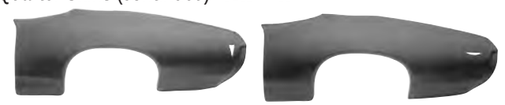

Quarter Skins

EDP coated steel skins are not full panels, but cover from the bottom of the side of the panel up to the beltline. They do not include the sail panel to the roof, the door jamb pillar, nor do they extend to the trunk opening. An excellent choice for repairing rust in the wheel arch or lower rear section. All quarter skins ship via Truck Freight.

64-65 Pontiac "A" 2-door, 29" H x 85" L, Left / Right
. . . . . .4330-600-64L / R . .

Tempest / LeMans / GTO only . . . . .4332-612-68P. . . . . .

Rear Wheelhouses

EDP coated steel panels used to form the wheelhouse over the rear wheel. The inner wheelhouse is the one you see inside the trunk. The outer wheelhouse mates up to the quarter panel in the wheel lip. If your quarters are rusty in the wheel opening, you need to replace these, too. These can be modified for convertible models by crushing down the top section to clear the top frame.

64-67 Inner, Left / Right . . . . . .4030-670-64L / R . .
68-72 Inner, Left / Right . . . . . .4032-670-68L / R . . .

70-72 Olds "A" Outer, Left / Right . . . . . .4533-675-70L / R . .

Quarter Glass Sash Chrome

This is the vertical chrome molding that holds the weatherstrip between the quarter glass and door glass. Usually pitted from age. Each molding comes with the glass set channel to attach it to the edge of the quarter glass. Weatherstrips are not included, but are available in the weatherstrip section.

64-65 2-Door Hardtop, Left / Right . . . . . .4030-665-641L / R
66-67 2-Door Hardtop / Convertible, Left / Right Pair

69-72 2-Door Hardtop / Convertible, Left / Right Pair
. . . . . .4032-665-69P. . . . . .

Convertible Top Boot Clips

Reproduction sets of new spring steel and plastic clips to mount the top boot on convertible models.

64-65 . . Top Boot Clip Set. . . . . .4030-708-64S. . . . . .
66-67 . . Top Boot Clip Set (16 pieces) . . . . . .4031-708-66S. . . . . .

Convertible Pinchweld Molding Clips

Correct reproduction clips used on the moldings that trim the convertible top opening on the tops of the quarters and deck filler.

64-65 . . Pinchweld Molding Clip (as required) . . .4030-711-642. . . . . .
66-67 . . Pinchweld Molding Clip (use 12). . . . . .4031-711-662. . . . . .
68-72 . . Pinchweld Molding Clip (as required) . . .4032-711-682. . . . . .

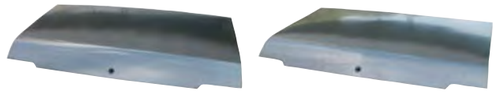

Deck & Trunk

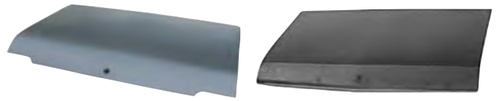

Trunk Lids

Truck Freight

EDP coated steel panels are complete assemblies, not just the outer skin. Bolt-on and paint to match the body. Best quality on the market. All trunk lids are shipped via Truck Freight.

70-72 Olds "A" 2-door (except Supreme)
Trunk Lid. . . . . .4533-700-70. . . . . .
70-72 Cutlass Supreme 2-door Hardtop
Trunk Lid. . . . . .4560-700-701. . . . . .

70-72 Cutlass Supreme Convertible, all Cutlass 4-door
Trunk Lid. . . . . .4560-700-702. . . . . .
70-72 Buick "A" Trunk Lid . . . . . .4032-700-68. . . . . .

Trunk Latches

Complete latch assembly for popular models. Replaces worn or broken original.
64-72 Trunk Latch Assembly . . . . . .4042-705-59. . . . . .
73-77 Trunk Latch Assembly . . . . . .4021-705-70. . . . . .
71-72 Trunk Latch Striker . . . . . .4021-705-703. . . . . .

Rear Spoiler Pads

Die cut set of rear spoiler pads used on "Judge" rear spoilers. Sold in pairs.
69 GTO Judge, pair . . . . . .4332-701-693P. . . . . .

Deck Filler Panels

EDP coated panels that fit between the trunk lid and back window. This is a common rust area on all GM cars.

64-65 All 2-Door Sedan / Hardtop . . . . . .4330-710-64. . . . . .
66-67 All 2-Door Sedan / Hardtop . . . . . .4331-710-66. . . . . .

70-72 Cutlass Supreme 2-Door Hardtop . . . . .4560-710-70. . . . . .

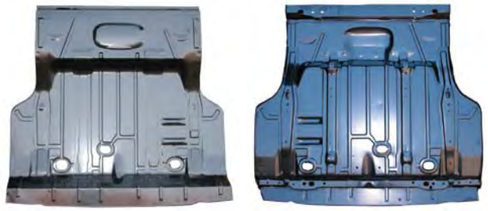

Trunk Floors

Truck Freight

We offer a complete selection of trunk floors for all models. Full trunk floors must be modified to fit along the rear tail panel, but otherwise will completely replace a factory trunk floor. We also offer EDP coated panels to repair rusted trunk floors. Each panel is designed to be able to fit in the trunk opening (so you can replace without removing the body off the frame to install). 7-piece kits include 3 floor sections, 2 floor braces, and 2 body mount braces.

64-67 All Full Trunk Floor (modify at tail panel)
. . . . . .4430-725-64S. . . . .

68 All Full Trunk Floor (modify at tail panel)
. . . . . .4032-725-681S. . . .

Trunk Floors (continued)

Truck Freight

Gas Tanks

Replace rust and muck-filled old gas tanks in your muscle car, with brand new high quality steel Gas Tanks from Goodmark©. There is no cost-efficient way to restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, and gas caps. All Gas Tanks include filler neck unless noted. Some tanks are available set up for EFI with fuel pump and sending unit included.

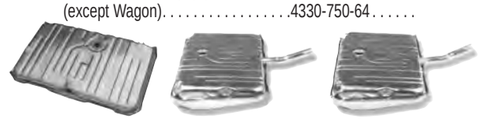

Gas Tanks

Gas tanks fit all models except Wagon.
64 Pontiac "A" (No Vent Pipe) (with filler neck)
(except Wagon). . . . . .4330-750-641. . . . .
(same but set up for EFI) . . . . . .4330-750-641FI . . .

EMBLEMS

We have the detail items others don't offer that make the difference between a show car and a nice driver. Our selection of emblems completes your exterior refinishing, and truly makes an old car look brand new. Be sure to research and order all the emblems you need. All emblems are die-cast, chromed and painted where needed, and are licensed reproductions or service GM parts.

Full Size Chevrolet/Pontiac

Full-Size muscle was always available before and after the intermediate cars came to fruition. A little known fact is that full-size models offer great weight transfer off the line, due to added weight over the rear axle. Smart drag racers used this fact to their advantage, and also the fact that the biggest engines were always available, where they might not be in an intermediate sized car. Goodmark offers a selection of sheetmetal for full-size models to keep your big car with your big motor happily cruising!

Bumpers and Grille

These Premium Quality Bumpers are new, die-stamped, high quality steel, triple plated, and fit perfectly. The show-quality plating process of copper/nickel/ chrome meets original factory standards. Get a set of these excellent bumpers for your car, and show them off to the world. Be sure to order hardware and brackets where available for complete replacement of your factory original bumpers.

Chrome Bumpers

New chrome bumpers for popular models. These bumpers are designed to replace dull or corroded factory units. Premium bumpers are chromed in the USA for the ultimate in quality!

Front Fenders

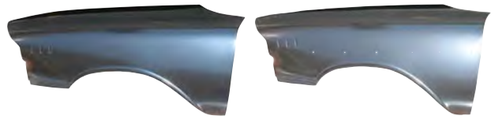

Truck Freight

You're going to love the way these beautiful brand new steel fenders will fit and look on your Chevy. Just like original factory fenders with all braces, holes, and threads in place, these fenders are a much better choice than trying to deal with old fender rust, dents, paint, and body filler. These are the best quality on the market, and all fenders are shipped via Truck Freight.

Hoods, OEM Style

Truck Freight

Hoods are wide and generally pretty flat in shape, which causes every little flaw to show through a paint job like a sore thumb. Make your hood look beautiful, and you've got a good head start on a great looking car. These precision quality brand new hoods will look terrific on your car, and probably cost you a lot less than the bodywork and materials to restore that old rusty dented original. Go for it, and put a gorgeous new steel hood on your car today! Be sure to order new inserts or moldings if required. All hoods are shipped via Truck Freight.

Look!

Get new inner fenders!

With all the abuse that Inner Front Fenders have to take, it should be no surprise that they look so bad when you remove them from your car. The top areas usually look okay, up near the seam between the hood line and the outer fender. But it can be a real shocker when you disassemble the front sheet metal, and survey the rust and damage. Batteries leak acid on the Inner Front Fenders, while tires throw up rocks, water, snow, ice, salt, sand, and gravel at tremendous velocities. People often drill extra holes to mount accessories, and even Father Time seems to take a toll on those poor Inner Front Fenders. At Goodmark Industries we have learned to respect inner fenders, as we know how important they are to having proper fitting front sheet metal. And, they show up prominently every time you open your car's hood. Go ahead, order two new Inner Fenders. You'll love the way they look!

Hood Insulation Pad Clips

New plastic clips hold the insulation pad to the underside of the hood. Use as required.

71-76 .. Hood Pad Clips (Box of 25). . . . . .HWB2401. . . . . .

Hood Adjustment Bumpers

Complete set of the bolts, nuts, and rubber caps used for the hood adjusters at the front of the hood. Rubber caps are also sold separately.

Engine Compartment Detail

Get the details right, and your engine compartment will be a rare treat for everyone to see at the next car show or cruise-in you attend. Enhance the appearance of the engine and the whole engine bay with correct clips, bolts, screws, straps, brackets, grommets, etc. And what is right at top-dead-center for everyone to see? The air cleaner, of course. Nothing looks better than the original style unit. Today, even many owners of street machines are modifying our stock air cleaners to fit their aftermarket carburetors and fuel injection, for that "period correct" look.

Air Cleaner Assembly and Parts

Complete new assemblies include base, lid and filter. Lids and bases are available upon request.

59-64 .. Chevrolet 283 / 327 4-bbl Air Cleaner Assembly

Quarter Panels

Look!

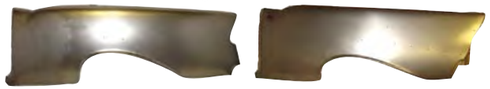

Quarter Panels

Truck Freight

Full factory style quarter panels for popular models. These can easily be modified to fit sedan models by allowing for the window frame on the "B"-pillar. Be sure to use with new wheelhouses and trunk fillers for complete replacement.

55 .. .. .. Chevrolet 2-door hardtop / convertible,
. .. . Left / Right . . . . . .4040-601-552L / R
. .. . Chevrolet Nomad 2d Wagon, LH / RH .4040-601-553L / R

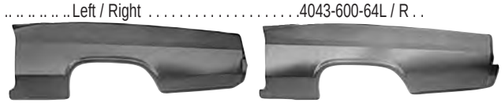

56 .. .. .. Chevrolet 2-door hardtop / convertible,
. .. . Left / Right . . . . . .4040-601-562L / R
57 .. .. .. Chevrolet 2-door hardtop / convertible,
. .. . Left / Right . . . . . .4040-601-572L / R

Quarter Skins

EDP coated steel skins are not full panels, but cover from the bottom of the side of the panel up to the beltline. They do not include the sail panel to the roof, the door jamb pillar, nor do they extend to the trunk opening. An excellent choice for repairing rust in the wheel arch or lower rear section. All quarter skins ship via Truck Freight.

64 .. .. .. Chevrolet 2-door, 30" H x 100" L,
. .. . Left / Right . . . . . .4043-600-64L / R . .

. .. . Back Rest Bracket, LH / RH . . . . . .4040-643-555L / R . .

Inner Quarter Panels

More heavy gauge steel panels that trim the inside of the quarter panel. This is what the quarter window regulator mounts to.

55-57 .. Chevrolet Convertible Inner Quarter,
. .. . Left / Right . . . . . .4040-645-553L / R .
. .. . Upper Inner Quarter, Left / Right . . .4040-645-554L / R .

Quarter Glass Sash Chrome

Vertical chrome molding that holds the weatherstrip between the quarter glass and door glass. Comes with the glass set channel to attach it to the edge of the quarter glass. Weatherstrips are included with our Weatherstrip Kits or are available in the weatherstrip section.
69-70 .. 2-Door Hardtop / Convertible, also 71-72 Chevrolet,
. .. . Left / Right Pair . . . . . .4032-665-69P . . . . . .

Rear Wheelhouses

Heavy gauge steel panels used to form the wheelhouse over the rear wheel. The inner wheelhouse is the one you see inside the trunk. The outer wheelhouse mates up to the quarter panel in the wheel lip. If your quarters are rusty in the wheel opening, you need to replace these, too. These can be modified for convertible models by crushing down the top section to clear the top frame.

55-57 .. Chevrolet 2d Sedan Inner, LH / RH. . . .4040-670-551L / R .
. .. . 2d Hardtop Inner, LH / RH . . . . . .4040-670-552L / R .

Gas Tanks

Replace rust and muck-filled old gas tanks in your muscle car, with brand new high quality steel Gas Tanks from Goodmark®. There is no cost-efficient way to restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, and gas caps. All Gas Tanks do not include filler neck unless noted. Some tanks are available set up for EFI and include the fuel pump and sending unit.

A Word About Tooling...

The act of stamping flat sheets of steel into the complex shapes that make up fenders, doors, hoods, bumpers, and other parts generates tremendous pressure, heat, and friction.
The stress and strain of repeatedly stamping various shapes and distortions inevitably causes rapid wear to tooling surfaces. As the tooling wears out, the shapes it forms out of sheets of steel must also change. Thus, tool-life is a very big factor in the quality of parts you receive for your vintage car or truck.
Keeping this in mind, it just makes sense that brand new precision tooling can sometimes produce higher quality parts than old tooling, which has been used for many years to stamp tens of thousands of parts.
When the metal masters at Goodmark Industries encounter old tooling, they must weigh the practicality of restoring and resurrecting old dies and tools, versus the cost and time necessary to start over from scratch. But more importantly they must decide which method will result in better quality new products at affordable prices.
Goodmark© team members know that you want fenders, doors, quarter panels, and other sheet metal items that fit right, and look exactly like the originals. They also know that you aren't made of money, and that you need these parts to be affordable. Today's modern machining techniques and materials are vastly improved over those used nearly 50 years ago, when many of these parts were first made at the factory. Thus, when deciding whether to resurrect old tooling or make brand new dies, the decision often leans toward brand new tooling. Either way, Goodmark Industries prides itself in offering the finest available reproduction sheet metal parts on the planet, and providing these precision quality parts at reasonable prices.

Chevy/GMC Trucks

Chevy/GMC Trucks

Chevy and GMC Trucks are hot, and they're getting hotter every day with collectors, restorers, and rodders. And why not? They've got plenty of power under the hood, with rear wheel drive like good old muscle cars, or even four wheel drive. Let's face it; trucks are cool, trucks are practical, and trucks are great to drive. Here at Goodmark Industries we recognize these facts about Chevy and GMC trucks, and so we strive to bring you the very finest parts for restoration or modification of these icons of the American road. Keep your Chevy or GMC truck looking good, with Goodmark©!

Bumpers and Grille

Bumpers

These Premium Quality Bumpers are new, die-stamped, high quality steel, EDP coated or triple chrome plated, and are nice quality. The show-quality plating process of copper/ nickel/ chrome meets original factory standards. Get a set of these excellent bumpers for your truck, and show them off to the world.

Chevy/GMC Trucks

Grilles and Front Trim

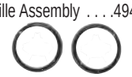

We all know that a flawed grille can spoil the looks of any truck. A bar that is missing or bent, a ding, a crack, or blemish will mess up the "detailed" look of the whole front end. Get a brand new Goodmark® grille and show the world a "new face" on your truck. These quality grilles are made from chromed steel, anodized aluminum, or plastic just like the originals. Looking good!

Front Lamps

It's what's up front that counts, and your front lights are like the "eyes" of your truck. Dented or dull-looking bezels, fogged or cracked lenses, or loose and rattling hardware can lead to a bad case of "ugly eyes"! Brighten your outlook on the road, and make your truck's "eyes" a sight for the whole world to appreciate, with brand new beautiful headlamps, Park Lamps, and all the related bezels and hardware from the Chevy/GMC truck experts at Goodmark®.

Headlamp Capsules

New aftermarket headlamp capsules include the sealed beam, retaining ring, and mounting ring for one headlamp. These are excellent for collsion repair.

Steel Front Fenders

The days of patching dents and rust holes in truck fenders are long gone. Serious truck lovers know that you just can't beat beautiful brand new steel fenders that replace rusted originals. These fenders are a tremendous value. They are not just "skins"; they are complete fender assemblies, ready to bolt on, and are the best quality on the market. All fenders are shipped via Truck Freight.

Get new inner fenders!

With all the abuse that Inner Front Fenders have to take, it should be no surprise that they look so badly when you remove them from your truck. The top areas usually look okay, up near the seam between the hood line and the outer fender. But it can be a real shocker when you disassemble the front sheet metal, and survey the rust and damage. Batteries leak acid on the Inner Front Fenders, while tires throw up rocks, water, snow, ice, salt, sand, and gravel at tremendous velocities. People often drill extra holes to mount accessories, and even Father Time seems to take a toll on those poor Inner Front Fenders. At Goodmark Industries we have learned to respect inner fenders, as we know how important they are to having proper fitting front sheet metal. And, they show up prominently every time you open your truck's hood. Go ahead, order two new Front Inner Fenders with your new outer front fenders. You'll love the way they look.

Fender Patch Panels

EDP coated steel patches for the lower front or rear section of the front fender. These are used to repair a commonly rusted area in order to salvage an otherwise solid fender.

Cowl Panel/Firewall

Firewall Panels

Editors love Goodmark!

"A big reason that the parts fit, and that there are parts for all the popular Chevys, is that Goodmark folks actually test everything on real cars. Sure they start with all the factory dimensions, but nothing goes into production until the piece is made and actually installed on a project vehicle. This pickup might be a great one by the time all the new Goodmark panels are made and installed."

EDP coated steel panels are complete firewall panels, not just partial patches.

47-55 . . 1st Series Firewall 4140-370-47

67-68 . . C/K Firewall 4143-370-671

Doors & Hardware

Get brand new steel doors for your pickup truck! As you have probably experienced, bicycles, grocery carts, and parking lots all seem to have been created for the sole purpose of damaging truck doors. Add to that all the rain that slides down the side glass into the bottom of the door frame, and your doors face a pretty rough life. Now you can get all new complete door assemblies, door skins, and inside/outside hardware. These precision parts allow you to easily repair or replace your doors as needed. Get the doors or parts you need from Goodmark, and make your doors a show-off point of your restoration.

Door Shells

Truck Freight

New EDP coated door assemblies feature full inner frames and outer skins, ready for assembly. Be sure to add our new window regulators and door latches for a new door assembly. All door shells ship via Truck Freight.

64-66 . . C/K Truck, Left / Right . . . . . .4142-400-64L / R . .

. . . . . Rear Side Door, Left / Right . . . . . .4144-400-771L / R .

Door Skins

New EDP coated steel panels for the outside of the door shell. These are included with our new door shells, but are available separately for those whose doors are otherwise solid, but the outer skin is dented by parking lot dings, light bottom rust, etc. You can use these with our lower inner door bottoms to save an otherwise solid door.

64-66 . . C/K Truck, Left / Right . . . . . .4142-450-64L / R . .
67-72 . . C/K Truck, Left / Right . . . . . .4143-450-67L / R . .

73-86 . . C/K, 87- 91 R/V Front Door, Left / Right
. . . . . .4144-450-73L / R . .

Inner Door Bottom Patches

EDP coated steel patches that repair rust in the lower inner side of the door. Use to salvage an otherwise solid door when shells are not available or too expensive. Can also be used with lower outer patches or outer skins.

47-55 . . 1st Series, 35-1/2" W x 5-1/2" H, L / R .4140-434-47L / R . .

Gas Tanks

Replace rust and muck-filled old gas tanks in your muscle truck with brand new high quality steel Gas Tanks from Goodmark®. There is no cost-efficient way to restore the outside appearance of a gas tank, and the rust particles, sludge, and stale gas residue inside are just carburetor problems waiting to happen. While you're at it, be sure to replace rusted or weakened old straps, brackets, bolts, and gas caps. Go for it.

Gas Tanks

New niterne steel gas tanks replace rusted, leaky, sludged originals. '49-72 Pickup tanks are all designed to go inside the cab. '73-up tanks are designed to go under the bed like the originals.

Fuel Tank Sending Units

Always replace your fuel tank sending unit when replacing the tank to insure a good flow of fuel instead of relying on a corroded rusty tube to flow fuel to your motor.

Bed Sheetmetal/Quarters

Rust, dents, accidents, and general abuse are heaped upon the beds of pickup trucks by just about everyone who has ever owned one. Even well-maintained low-mileage original trucks will generally have some damage to the beds. Goodmark's bedsides, bed floors, various bed patch panels, and wheel houses are made of heavy gauge automotive quality steel, and pressed on brand new dies by skilled craftsmen. This results in exceptional smoothness and fit. Put some brand new Goodmark® steel in the bed of your favorite pickup truck. You'll love the way they look, the way they fit, and you'll love throwing away those patched-up rusty originals too. We offer the front bed panels, bedsides, rear fenders or wheelhouses, floor cross braces, rear cross rails, and tailgates for complete replacement of most popular beds.

Front Bed Panels

Truck Freight

EDP coated steel panels for the front of the pickup bed.

47-53 . . Stepside / Fenderside Pickup . . . . . .4140-630-47. . . . . .

Bed Strips and Angle Strips

Bed Strip Kits are zinc coated steel strips used on models with wood floors between the wood boards. Angle Strip Kits are welded to the bedside and form the ledge for the outermost board to sit on. Use both kits when replacing bedsides or the bed floor. We do not offer the wood or hardware for the bed floor.

Tailgates

Look!

Improve the look of your pickup truck in a hurry, with a brand new steel Tail Gate from Goodmark®. Pickup Truck Tail Gates are highly subject to rust, warpage, dents, & damage. In years gone by the only alternative was to pay high prices for good used units from bone yards or swap meets. But today you can simply get online and order, or pick up the phone and get a beautiful brand new steel Tail Gate on its way to your door. It's fast and simple too; just open the box, get your local body shop to paint it to match, and hang it on your truck's tail gate hinges. What could be easier?

. . . . . '67-91 Lower Bumpers, pair . . . . . 4143-826-672P. . . . .

Rear Cargo Door Patches

EDP coated steel patch panels to repair the rear cargo doors on Panel or Suburban models when so equipped. These are NOT for models with rear tailgates.

73-91 . . Suburban, Left / Right . . . . . 4174-832-73L / R .

Rear Lamps

New Tail Lamps will brighten your truck and give it an attractive, fresh appearance. Replace old faded, cracked, or missing lenses and get new housings and connectors that are free of corrosion. New Tail Lamps take only a few minutes to install, but will look terrific on your truck for years to come.

Tail Lamps and Back-Up Lamps

New Lenses and brackets are available to replace the most common models. Be sure to order housings if needed.

Marker Lights

It's those little details that make the big difference. Side Marker Lights show up prominently on your truck, whether lighted or not. Old plastic lenses tend to be scratched or faded, and don't reflect light as well as they did when they were new. Dress up your truck with a brand new set of Side Marker Lights.

Side Marker Lamps

New complete marker lamps for popular models.

68-72 . . C/K Side Marker 4-Piece Set,

Body Moldings

The soft aluminum and thin stainless steel original moldings on a truck always seem to get damaged, dinged, faded, or pitted. It doesn't take much damage to spoil the overall looks of your machine. These Goodmark parts are of the highest quality, for both fit and finish. Designed as a direct replacement for original equipment, These premium moldings are produced from the highest quality materials. Install these moldings on your truck, for that freshly-restored appearance.

Body Molding Kits

New complete molding sets to replace moldings on the fenders, doors, cab, and rear bedsides on both sides. All mounting clips are included with each kit. SWB = Shortbed, LWB = Longbed

Weatherstrips

Nothing screams "old worn out truck" like a drafty, leaky cab. Why put all your money in new seat covers and carpet when every time it rains, water pours into the cab, soiling materials and rusting the floors. We have the solution to your leaky cab problems with these complete kits that replace most of the rubber on the truck in one package. No more hunting for elusive parts!

Weatherstrip Kits

Kits designed to replace the commonly replaced weatherstrips on popular truck models.

Hardware

Hardware

Goodmark sells hardware kits for specific applications and they are listed in the individual car sections, but we also sell generic hardware for any restoration or where hardware is not available for specific applications. Our generic hardware is sold in bulk by the box and will fit and function like originals but may not have OEM markings. Be sure to order the correct size fasteners you need...we do not have applications listed for many of our generic fasteners.

Bumper Bolts

We offer stainless capped bumper bolts in a variety of sizes to fit your needs. Each bolt comes with a matching nut.

3/8”-16 x 7/8”, round head HW1002
3/8”-16 x 1”, round head. HW1003
3/8”-16 x 1”, pan head (Chrysler style) HW1005
7/16”-14 x 1”, pan head HW1010

Performance Matters

ATK High Performance Engines give you serious muscle for your build. Power for every enthusiast looking to make a strong statmenent. ATK offers a range of engines to meet your performance project requirements.

ATK HIGH PERFORMANCE ENGINES

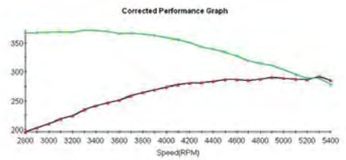

Building Quality Engines for over 75 Years

Chevrolet

350 87-95 TBI

HP: 290

TQ: 370

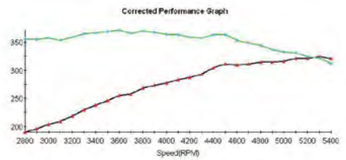

BASE ENGINE PART # HP31
BLOCK: Seasoned OE Block 4 Bolt Main 1pc Seal
BORE/STROKE: 4.040 x 3.480
CRANKSHAFT: OE Cast Steel
RODS: GM PM 5.7 Rods
PISTONS: Hypereutectic 9.6:1 Compression
RINGS: Moly
CAMSHAFT: Hyd. Roller
CAM SPECS: 198/210 @50 .435in/.462ex
CYLINDER HEADS: OE TBI Iron 67cc 1.94/1.50
ROCKER ARMS: Stamped Steel 1.5 Ratio

Got a 87-95 Chevy Truck that needs more power? This is the way to go. We upgraded to a Performance Hydraulic Roller Cam/Lifters that will work with your TBI system and produce more power through out the RPM range. Now you have the extra power to do some real towing!

350CI 325HP

HP: 325 @ 5300RPM

TQ: 370 @ 3600RPM

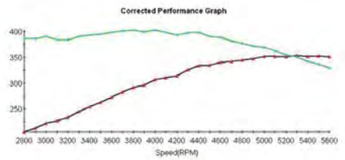

BASE ENGINE PART # HP29
MID DRESS ENGINE PART # HP29M
COMPLETE/DYNO ENGINE PART # HP29C
SHORT BLOCK # SP01
For R/S Dipstick use Part #HP30
BLOCK: Seasoned OE Block 4 Bolt Main
BORE/STROKE: 4.040 x 3.480
CRANKSHAFT: OE Cast Crankshaft
RODS: GM PM Rods
PISTONS: Hypereutectic Flat Tops 9.1 Compression
RINGS: Moly
CAMSHAFT: Hyd. Flat Tappet

This Street Performer engine is perfect for upgrading that worn out 350 engine. It has great street manners and a nice noticeable lope for that muscle car sound you want while maintaining good vacuum for power accessories.

350CI Engine 350HP

HP: 350 @ 5200RPM

TQ: 400 @ 4000RPM
