

Piston Replacement for the 2009–2014 Acura TSX Compressor

The 2009–2014 Acura TSX 2.4L compressor is a commonly replaced compressor in the market. global parts distributors, llc (gpd) offers two options for this vehicle:

- gpd #6513244: Piston Replacement for the Scroll Compressor
- gpd #6512931: HS090R Scroll O.E. Style

gpd #6512931

gpd #6513244

The piston compressor is a direct bolt-off, bolt-on replacement for the scroll style compressor. gpd's piston design is more tolerable of debris left in the A/C system and performs better at lower RPMS than the O.E. scroll.

All gpd compressors come with the correct amount of oil for the A/C system. No matter which compressor is chosen for replacement, gpd strongly recommends that the condenser is replaced and the system is flushed.
