Mfg's PN: 107 504 128

Mfg: Griffiths Technical Inc

Description: Kuehl 911 507 Compressor Kit Upgrade for 134a, Rev 2
Replaces York compressor

Mfg Warranty: 1 year limited warranty from date of purchase. See mfg's warranty statement.

Fits

Make: Porsche

Model/Yr: 911SC, 1978-1983, LH & RH Drive

note: Fits all models with 'factory air' having a Behr brand evaporator with flare fittings located in vehicles 'smuggler's box' in the front trunk, and deck lid condenser with flare fittings.

Griffiths' Kuehl 507 Compressor Upgrade Kit is a bolt on replacement for the old troublesome York compressor. The Kuehl unit runs smoother, quieter, requires less energy, and takes up less room in the engine bay.

The Kuehl 507 compressor kit comes with the Kuehl Kwick light weight steel mounting adapter bracket which bolts directly to the original York base so you'll avoid the knuckle scraping during belt alignment. Includes 2 new barrier hose assemblies: from evaporator to compressor, and from compressor to deck lid condenser with a low-high pressure switch built in. The Kuehl 507 compressor has R12 service ports on its side for easy access, and comes with R134a charge port adapters, Ester oil and R134a conversion sticker, and Griffiths' detailed installation instructions. Compatible with R134a as well as R12 refrigerants.
