GRIFFITHS

SSF PN: 10 7517 910

Mfg's PN: 911Kuehlevap4

Mfg: Griffiths Technical Inc

Description: Kuehl 911/930 Serpentine Evaporator

Mfg Warranty: 3 year limited warranty from date of purchase. See mfg's warranty statement.

Fits

Make: Porsche

Model/Yr: 911, 1970-1989, LH & RH Drive

930, 1976-1989, LH & RH Drive

note: Fits all models with 'factory air' having a Behr brand evaporator box located in vehicles 'smuggler's box' in the front trunk

Cross overs: 901-573-907-00

911-573-929-00

911-573-929-01

Griffiths' high performance Kuehl Serpentine Evaporator is a drop in replacement for the old-style tube and fin evaporator. The Kuehl Evaporator has only 2 brazed joints which reduces chances for leaks. The cooling fins are permanently brazed to the serpentine extruded tube which insures greater heat transfer.

The Kuehl Serpentine Evaporator has more surface area than the OEM and is lighter too. In a head to head controlled test, the original Kuehl out performed the OEM evaporator as well as an inexpensive competitor copies. The Kuehl unit simply has greater surface area yielding more btu's per square inch than any other.

Comes complete with: new expansion valve, improved evaporator gasket sealing kit, new air outlet tube, thermostat brass sleeve, o-rings and flare adapters (can be used in both early flare fittings as well as later o-ring fittings systems), and Griffiths' detailed installation instructions. Compatible with R134a as well as R12 refrigerants.
