Model/Yr: 930, 1978-1989, LH & RH Drive

Cross overs: 930-573-053-00

930-573-053-01

The new Porsche 930 Kuehl High Performance Condenser for the 930 turbo deck lid is a direct drop in, bolt on, replacement for the stock factory condenser. This new condenser utilizes the latest generation "plate and fin" tubing technology. The benefits of the Kuehl design lay in its twin (double) manifolds with thin multi-channel extrusions and high fin density.

Includes new o-rings and flare adapters for earlier years. Compatible with R134a as well as R12 refrigerants.
