LED Technology Reduces Maintenance Costs and Down Time!

PRODUCT DETAILS

This Class I LED beacon is designed to provide optimal lighting for all application needs. Popular with vehicles in the Agriculture, Mining, Towing, Utility and Construction industry. Capture the attention of oncoming motorists and pedestrians with bright LED light output. Available in low or high dome options and 12 volt or 24 volt models.

LED technology benefits also include low power draw and reduced on-going maintenance costs and down time. Outfit your vehicle with these high quality and economical beacons!

PRODUCT FEATURES AND BENEFITS

- SAE J845 Class I
- Amber only
- 18 total flash patterns
- Polycarbonate base
- Permanent mount
- 12 and 24 VDC
- Low Dome Dimensions:
5⁵/₁₆" (H) x 6⁷/₁₆" (Dia)
- High Dome Dimensions:
6¹³/₁₆" (H) x 6⁷/₁₆" (Dia)
