

Amber/Blue – Dual Function 17" Low Profile LED Mini-Lightbar

Product Information Sheet

W A R N I N G & H A Z A R D

Now Available!

76770

Built to take the roughest conditions and long hours of operation!

PRODUCT DETAILS

These LED modules in a rugged polycarbonate base are road tested, vibration and moisture resistant and use much lower current than other warning lights. Choose either the **Amber** option or the **Blue** option for your specific application needs.†

A simple switch installation allows for easy conversion between the two (2) colors.* This LED Mini-Lightbar works well with Utility, road maintenance, construction, and public works vehicle.

* Check local regulations to ensure proper use and application.

† It is not recommended to use both Amber and Blue together.
