

# MAXOUT™

Proven Dry Chemical Fire Protection

## 800 VEHICLE FIRES OCCUR EVERY DAY

A quick blast of MaxOut™ proven dry chemical fire protection can mean the difference between a minor annoyance and a major catastrophe.

H3R Performance offers four MaxOut™ [fire extinguishers](#) that have a proven track record in extinguishing the types of fires likely to occur in an automotive environment.

- Listed and rated by Underwriters Laboratories
- US Coast Guard Approved with bracket listed on UL label (MX250C, MX250R)
- Meets DOT requirements for RVs and Heavy Duty Trucks (MX250C, MX250R)
- High quality steel cylinders and all metal valve construction
- Rechargeable
- Steel mounting bracket
- Compact, lightweight, easy to use
- 6 year limited warranty
- Made in U.S.A.

*All MaxOut™ models effectively smother and break the chain reaction of fires involving flammable liquids and pressurized gasses, and will not conduct electricity back to the operator. MaxOut™ models MX250C and MX250R are also highly effective at stopping fires of common combustibles like wood and paper. They are also great for marine or residential use.*

	Model <b>MX100R</b>
Agent	1.0 lb.
Gross	2.2 lb.
Height	10.0 in.
Width	3.6 in.
Diameter	2.6 in.
UL rating	2B:C

The compact MX100R is perfect for storing under your dash or front seat. Fire engine red finish will not fade like anodized units on the market will.

	Model <b>MX100C</b>
Agent	1.0 lb.
Gross	2.2 lb.
Height	10.0 in.
Width	3.6 in.
Diameter	2.6 in.
UL rating	2B:C

This is the MX100R with a cool chrome finish. Who says safety has to be boring!

	Model <b>MX250R</b>
Agent	2.5 lb.
Gross	5.0 lb.
Height	14.8 in.
Width	4.5 in.
Diameter	3.0 in.
UL rating	1A:10B:C

Twice the size and power of the smaller extinguishers, plus an "A" rating for extra peace of mind. USCG Approved.

	Model <b>MX250C</b>
Agent	2.5 lb.
Gross	5.0 lb.
Height	14.8 in.
Width	4.5 in.
Diameter	3.0 in.
UL rating	1A:10B:C

Gleaming chrome finish adds an extra touch of class to any vehicle. Same specs as the MX250R. USCG Approved.

## POINT OF SALE COMMUNICATION

Did you know that:

- 800 vehicle fires occur every day?<sup>1</sup>
- One in three new car buyers would like to purchase a fire extinguisher for their vehicle?<sup>2</sup>
- Many states require that a Fire Extinguisher be UL Listed in order to be legally offered for sale?

These important facts emphasize both the need for automotive fire extinguishers in general, and the benefits of premium, UL listed MaxOut™ fire extinguishers from H3R Performance. Rely on the attractive self-sell packaging and versatile counter mat that can also function as a poster to help educate consumers about MaxOut™!

*Most automobile fires begin in the engine. Short circuits, leaking fluids and faulty fuel delivery systems are common causes. Fires can also start in exhaust system manifolds, catalytic converters and even brakes.*

## MOUNTING OPTIONS

The four MaxOut™ fire extinguishers come standard with aviation style mounting brackets. Stylish, versatile billet mounting accessories that are accepted by the NHRA, NMRA and NMCA racing bodies are also available. Band clamps fit 2.6" or 3.0" diameter fire extinguishers, and can be combined with the flat surface mount or either of the two roll bar mounts. Available in polished and brushed finishes.

### Billet brackets - NHRA, NMRA & NMCA Accepted

Billet Mounting Accessory (sold separately)	Polished	Brushed
