AMBASSADOR® RECTANGULAR AIR HORN KIT (VEHICLES WITHOUT AIR SOURCE)

SOLENOID VALVE

- Next Generation bell design
- Two single rectangular bell shape horns
- 12VDC compressor
- 12V tank mount solenoid valve
- Shields and horn supports

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H02109A	26" & 29"	Chrome (Shown in photo)	(1) 26" H02101A horn, (1) 29" H02103A horn, H00550B tank mount solenoid valve, H13940S pressure switch, H14212 gauge, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00751N air tank, parts bag
H02009A	26" & 29"	Anodized Aluminum	(1) 26" H02001A horn, (1) 29" H02003A horn, H00550B tank mount solenoid valve, H13940S pressure switch, H14212 gauge, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00751N air tank, parts bag

AMBASSADOR® RECTANGULAR AIR HORN KIT (VEHICLES WITHOUT AIR SOURCE)

SOLENOID VALVE

- Legacy bell design
- Two single rectangular bell shape horns
- 12VDC compressor
- 12V tank mount solenoid valve
- Shields and horn supports

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00977N	26" & 29"	Chrome	(1) 26" H00978 horn, (1) 29" H00977 horn, H00550B tank mount solenoid valve, H13940S pressure switch, H14212 gauge, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00751N air tank, parts bag

AMBASSADOR® RECTANGULAR AIR HORN KIT (VEHICLES WITHOUT AIR SOURCE)

SOLENOID VALVE

- Legacy bell design
- Two single rectangular bell shape horns
- 12VDC compressor
- 12V tank mount solenoid valve
- Shields and horn supports

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00984	(2) 20"	Chrome	(2) 20" H00984B horns, H00550B tank mount solenoid valve, H13940S pressure switch, H14212 gauge, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00751N air tank, parts bag

AMBASSADOR® RECTANGULAR AIR HORN KIT (VEHICLES WITH AIR SOURCE)

SOLENOID VALVE

- Next Generation bell design
- Two single rectangular bell shape horns
- 12V tank mount solenoid valve
- Shields, tubing and horn supports

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H02009D	26" & 29"	Anodized	(1) 26" H02001A horn, (1) 29" H02003A horn, H00550B tank mount solenoid valve, H1311020S tubing, parts bag

AMBASSADOR® RECTANGULAR AIR HORN KIT (VEHICLES WITH AIR SOURCE)

LANYARD VALVE

- Legacy bell design
- Single rectangular bell shape horn
- Manual lanyard valve
- Shield, tubing and horn support

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00980	26"	Chrome	(1) 26" H00978 horn, H00755NS lanyard valve, H1311020S tubing, parts bag
H00979	29"	Chrome	(1) 29" H00977 horn, H00755NS lanyard valve, H1311020S tubing, parts bag

AMBASSADOR® RECTANGULAR AIR HORN KIT (VEHICLES WITH AIR SOURCE)

LANYARD VALVE

- Legacy bell design
- Two single rectangular bell shape horns
- Manual lanyard valve
- Shields, tubing and horn supports

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00981	26" & 29"	Chrome	(1) 26" H00978 horn, (1) 29" H00977 horn, H00755NS lanyard valve, H1311020S tubing, parts bag

AMBASSADOR® RECTANGULAR AIR HORN KIT (VEHICLES WITH AIR SOURCE)

REMOTE SOLENOID VALVE

- Legacy bell design
- Rectangular bell shape horns
- 12V remote mount solenoid valve
- Shields, tubing and horn support

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00981S	26"	Chrome	(1) 26" H00978 horn, H00550A 12V remote mount solenoid valve, H1311020S tubing, parts bag
H00981D	26" & 29"	Chrome	(1) 26" H00978 horn, (1) 29" H00977 horn, H00550A 12V remote mount solenoid valve, H1311020S tubing, parts bag

AMBASSADOR® ROUND BELL AIR HORN KIT (VEHICLES WITHOUT AIR SOURCE)

SOLENOID VALVE

- Two single round bell shape horns
- 12VDC compressor
- 12V tank mount solenoid valve
- Shields and horn supports

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H02012A	26" & 29"	Anodized	(1) 26" H02006A horn, (1) 29" H02007A horn, H00550B tank mount solenoid valve, H13940S pressure switch, H14212 gauge, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00751N air tank, parts bag

ROUND BELL AIR HORN KIT (VEHICLES WITH AIR SOURCE)

LANYARD VALVE

- Single round bell shape horn
- Manual lanyard valve
- Tubing and horn support

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00857	22"	Chrome	(1) 22" H00855 horn, H00755NS lanyard valve, H1311020S tubing, parts bag

ROUND BELL AIR HORN KIT (VEHICLES WITH AIR SOURCE)

LANYARD VALVE

- Two single round bell shape horns
- Manual lanyard valve
- Tubing and horn supports

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00859	19" & 22"	Chrome	(1) 19" H00856 horn, (1) 22" H00855 horn, H00755NS lanyard valve, H1311020S tubing, parts bag

BULLY® DUAL AIR HORN KIT (VEHICLES WITH AIR SOURCE)

LANYARD VALVE

- Dual horn
- Chrome horns
- Black body
- Manual lanyard valve
- Tubing

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00900CA	15.5"	Chrome	(1) H00910CA Bully® horn, H00755NS lanyard valve, H1311020S tubing, parts bag

BULLY® DUAL AIR HORN KIT (VEHICLES WITHOUT AIR SOURCE)

SOLENOID VALVE

- Dual horn
- 12VDC compressor
- Chrome horns
- Black body
- 12V tank mount solenoid valve

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00961EA	15.5"	Chrome	(1) H00910CA Bully® horn, H00550B tank mount solenoid valve, H13940S pressure switch, H14212 gauge, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00626 air tank, parts bag

BULLY® DUAL AIR HORN KIT (VEHICLES WITHOUT AIR SOURCE)

LANYARD VALVE

- Dual horn
- 12VDC compressor
- Chrome horns
- Black body
- Manual lanyard valve

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00962EA	15.5"	Chrome	(1) H00910CA Bully® horn, H00755NS lanyard valve, H13940S pressure switch, H14212 gauge, H00850EC compressor, H1311020S tubing, H00626 air tank, parts bag

BULLY® UNDER HOOD AIR HORN KIT (VEHICLES WITHOUT AIR SOURCE)

SOLENOID VALVE

- Dual horn
- 12VDC compressor
- 12V horn mount solenoid valve
- Black plastic or black zinc horn

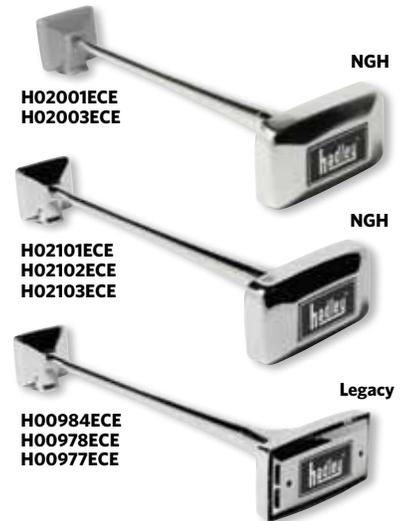

PRODUCT	LENGTH	HORN FINISH	KIT INCLUDES
H00964H	14 15/16"	Black Plastic	(1) H00640Z Bully® horn, H00550C horn mount solenoid valve, H13940S pressure switch, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00626 air tank, parts bag
H00964HM	14 15/16"	Black Zinc	(1) H00640R Bully® horn, H00550C horn mount solenoid valve, H13940S pressure switch, H12949S toggle switch, H00850EC compressor, H1311020S tubing, H00626 air tank, parts bag

CUSTOM RV & SPECIALTY VEHICLE MIRROR DESIGNS

Hadley's selection of mirrors allows you to choose virtually any configuration possible with the widest assortment of options.

HEAD OPTIONS

- 9" x 13"
- 8" x 18"

FINISH OPTIONS

- Black powder coat
- White
- Chrome

GLASS OPTIONS

- Full face: flat & convex
- Full face with stick-on convex
- Add-on convex mirror sizes:
 - 5" round
 - 6" round
 - 5" x 7" rectangular
- Split view
 - Flat top or bottom
 - Convex top or bottom
- Wide-angle convex BRC mirror
25% improvement in viewing area over conventional convex mirrors!
- Quick-release glass bezels
- Manual
- Heated remote

- Call Hadley for corner mount and side mount mirror options.

9" X 13" MIRROR

DISPLAYED WITH OPTIONAL LED TURN SIGNAL:

- 2 way, 2 color light: red & amber
- Available in a variety of lengths
- Clear lens
- Can be mounted on ANY head

- Optional camera shown

FORD CLASS C WIDE BODY MIRROR

- European styling
- 9" x 13" mirror head
- 18" arm

FORD CLASS C WIDE BODY MIRROR OPTIONS

PRODUCT	FINISH	MODEL	MANUAL	HEATED & REMOTE
T1000	White	2003 & Newer	Yes	No
T1001	White	2003 & Newer	Yes	No
T1004	White	2003 & Newer	No	Yes
T1005	White	2003 & Newer	No	Yes

TURN SIGNAL OPTIONS

- Thru-glass technology
- Side mount signal on mirror head
The only dual-directional turn signal!
- Bottom mount signal

CAMERA OPTIONS

Hadley's camera option sends an image to a monitor display inside the vehicle. The location of the camera within the mirror provides better protection of the camera. This upgrade feature adds another level of safety and security - providing on-screen surveillance for both sides of the vehicle.

CAMERA WITHIN THE MIRROR PROVIDES BETTER PROTECTION FOR THE CAMERA!

MULTIPLEXING CAPABILITIES

Multiplexing technology reduces the number and length of electrical wiring, meaning fewer wires and connections doing more work with less complexity.

CUSTOM TOUR COACH & TRANSIT MIRROR DESIGNS

Advanced BRT design, aesthetically pleasing with Hadley durability and reliability.

FEATURING THESE ADVANCED OPTIONS

DOVETAIL MOUNT

Less vibration, increased reliability and quick release for easy replacement with molded connector.

EXCLUSIVE "WIRECHASE" DESIGN

Available on mirrors with tube arms and extruded aluminum arms.

MULTIPLEXING TECHNOLOGY

Multiplexing technology reduces the number and length of electrical wiring, meaning fewer wires and connections doing more work with less complexity.

INNOVATIVE 9" X 13" MIRROR

Increases curb height on low floor buses - 2" gain on head clearance, and wider head for increased view area!

BRT 8" x 18"

DOOR MOUNT SHUTTLE BUS MIRRORS

Hadley leads the transit bus mirror industry with innovations to improve safety and reliability. Our exclusive wire chase design is available on select Hadley exterior mirrors and the revolutionary 9" x 13" head design which provides an additional 2" of curb height clearance on low floor transit buses. Hadley's wide angle convex provides a 25% gain in viewing area vs. conventional convex mirrors!

SWAN™ LUGGAGE RACK SYSTEMS

We're continuously looking for ways to give our customers the best interiors with new innovations and updated technology. The Swan® system by Hadley provides a multitude of configuration options with high quality performance and durability.

SILVER

BLACK

Shown: black upgrade and optional reading lights.

Complete luggage rack with clear anodized aluminum profiles, light grey ABS filler and bracket, loading floor with carpet.

Ceiling light included in the aluminum mounting profile.

Reading light with blue nightlight shown above each passenger row

Daytime appearance of interior system

Nighttime appearance of interior system

SWAN™ COMPLETE RACK SYSTEM

BENEFITS

- Modularity with a wide range of options
- Seamless luggage rack
- Rattle free system
- Robust luggage rack built to UIC 566 requirements
- Perfect linearity due to aluminum profiles
- Handrails for passenger safety
- Easy to clean
- Durable material
- Easy installation/replacement
- Can be installed as aftermarket solution
- LED Lighting

OPTIONS

Description	Additional Information
SPEAKER PKG (4 SPEAKERS), OEM radio	4 speakers tied into OEM chassis radio
SPEAKER PKG (4 SPEAKERS), rear stereo	4 additional speakers tied into rear stereo system - requires ELE328
SPEAKER PKG (4 SPEAKERS), A/V system	4 additional speakers tied into rear A/V system - requires one of the A/V packages
10.2" WEDGE MONITOR	Requires a standard A/V package with TV or DVD option
7" WEDGE MONITOR	Requires a standard A/V package with TV or DVD option
LIGHT - reading	LED double, gray
Ducted air vents at each seat location	Requires the use of: ACN969633 TRANS-AIR A/C SYSTEM - 120K BTU Available only for seating positions below luggage rack
Warm white LED lighting	Exchange Cool White LED Omega Lighting W/ Warm white LED's
SWAN color upgrade	Upgrade from Silver Swan to Black Swan

OMNI™ INTERIOR SYSTEM

This interior system has been designed for the coach market to offer passenger comfort, sense of spaciousness, and ease of handling and installation by the OEM.

FEATURING

- Ergonomically designed to give a comfortable and spacious environment
- Lighter weight
- Single bin LED lighting (low power consumption...standard)
- Illuminated handrail stripe - safety
- Optional window lighting
- Optional bungee chords (storage aid)
- LED reading lights (standard)
- Optional 10" & 15" LCD monitors
- Storage: over 100 lbs. per compartment
- Customizable (colors/fabric)
- Optional lockable storage for driver
- Optional upgradable sound system
- Optional wheel chair lift
- Optional luggage rack doors

MULTISETS AVAILABLE IN VARIOUS CONFIGURATIONS

- 9 LED reading lights that provide a luminous flux of more than 20 foot candle @ reading position
- Air vent (max air outlet opening 1.78 square inches)
- Blue nightlight
- Stop button as optional

NIGHT LIGHT ON HANDRAIL

Electroluminescent stripe, dimmable in intensity, to easily locate the handrail during night travel.

INTERIOR SYSTEM

The ONDA luggage rack features a flexible design with adaptability to different bus ceiling shapes; multiple options and features such as secondary lights, handrails, etc...

Complete interior systems window to window.
Modular lengths and upgradable.
Perfect linearity and minimal seams to reduce rattle and noise.

FEATURING

PASSENGER COMFORT

- Dedicated reading light for each passenger
- Loudspeaker mute
- Individual hostess/stop button (optional)
- Fully adjustable air nozzles

OPTIONS

- Nightlight on light profile
- Illuminated handrail
- Customized light levels inside of the coach
- Wide range of options available for service sets, upholstery and mood lights

ONDA™ LUGGAGE RACK OPTIONAL FEATURES

- 9 LED reading lights that provide a luminous flux of more than 20 foot candle @ reading position
- Air vent (max air outlet opening 1.78 sq. in.)
- Blue nightlight
- Optional stop button

ILLUMINATED HAND RAIL

- Electroluminescent stripe
- Dimmable
- Makes night travel safer

TOUR COACH & TRANSIT INTERIOR MIRROR DESIGNS

Hadley's interior transit bus mirrors are a durable yet economical choice for fleets, offered in the most popular sizes and shapes.

L20™ FLUORESCENT LIGHTING SYSTEM

Already a transit industry standard, the multi-functional L20 Lighting System just got better. Hadley provides a Lifetime Warranty covering the system for up to 12 years. It's the warranty you may never need to use. Thanks to the L20 one-piece composite design, it will not corrode, rust, dent, crack, scratch, promote condensation, rattle, shrink or stretch. With a focus on safety, the design of the L20 Lighting System will not conduct electricity and focuses light on those areas where light is needed. It is available in a number of modular designs and lengths to suit your specific application.

FEATURING

- Meets or exceeds APTA guidelines
- Flush hinged access doors
- Variety of mounting profiles
- One piece, fiber-reinforced composite base panel
- Clear prism, white frost, or blue tint poly-carbonate lamp cover
- LED available with standard 7 year LED warranty and optional 12 year LED warranty
- T-12 fluorescent tube types
- Shipped fully assembled for easy installation
- Lightweight
- Energy efficient

BALLASTS

- Single ballast per light
- ADB "arc sensing" with & without extinguishable
- Various voltages
- HO dimmable
- Repairable

L20R™ LED LIGHTING

Give your transit bus the “continuous light look” without the fluorescents with the Hadley L20-R LED system. Single bin LEDs and a new lower profile lens provide an appealing soft light with the appearance of a single fixture. The one-piece composite design will not corrode, rust, dent, crack, scratch, promote condensation, rattle, shrink or stretch. Fixture ends are sealed to help maintain a clean lens and the L20-RTM LED system is serviceable without removing or dropping the panel.

CONTINUOUS
“FLUORESCENT LOOK”
NO TIGER STRIPING!

- Easy installation
- Low profile lens in 2 styles
- Dimmable LED option
- Sealed fixture ends
- Managed air flow
- Energy efficient
- Vandal resistant
- Proven performance
- Light-weight
- Shipped fully assembled
- 24V, 12V option available

FEATURING

- Single bin LEDs for consistent color match
- Effective light distribution
- Clear, frost, or blue tint poly-carbonate lamp cover
- Aftermarket ready: replacement / retrofit conversions
- Incorporates lighting, air duct, electrical raceway and advertising card panel
- Same pultrusion as current L20
- Graffiti & dent resistant pultrusion
- Flush hinged access doors
- Variety of mounting profiles

Serviceable LED without
removing / dropping panel

OMEGA™ LIGHT BAR

A flexible lighting system with variable levels of light intensity for individual passenger comfort.

FEATURING

- Modularity
- Simple application: no need for recessed ceiling
- Uniform light distribution
- Low consumption
- Easy replacement = Reduced maintenance costs

Durable construction, adaptability and reliability in the Millennium and Mini Millennium transit lighting components.

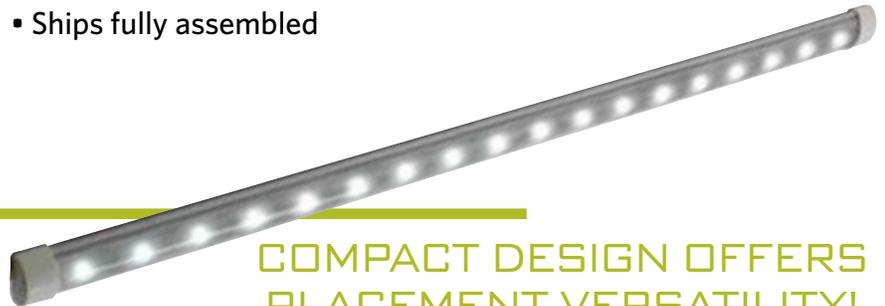

MILLENNIUM™ FLUORESCENT TUBE AND LED

- 2', 3', 4', 5' and 6' lengths available
- Repairable ballast with status indicators
- Optional design allows up to 3 units of 73" to be installed in continuous series with 3" lamp finishers at end of run
- Ships fully assembled

MINI MILLENNIUM™

- Low profile (installed is 1.125")
- Installs as new equipment or retrofit
- Long life, low temperature LED output
- Ships fully assembled

COMPACT DESIGN OFFERS PLACEMENT VERSATILITY!

NEXT GENERATION OFFERS FLEXIBILITY IN: MOUNTING • PLUMBING • LEVER ATTACHMENT

- Lightweight
- High flow standard. Call for low flow designs.
- PTC fittings - 3/8" standard or 1/4" custom
- Metric fittings available
- Multiple mounting configurations
- Fits all truck & trailer applications
- Low cost!
- Multiple lever orientations

NGHCV DUMP
(neutral position)

NGHCV NON-DUMP
(neutral position)

ALL MAKES NON-DUMP VALVE TRUCK AND TRAILER APPLICATIONS

- 3/8" PTC fittings in supply & suspension

PRODUCT	KIT INCLUDES
H01500UN	<ul style="list-style-type: none"> • 4 different size lever options • Mounting bolts • 1 - 3/8" 90 degree stem fittings • Instruction sheet

ALL MAKES PRESSURE DUMP VALVE TRUCK AND TRAILER APPLICATIONS

- 3/8" PTC fittings in supply & suspension
- 1/4" pilot port
- Excludes Peterbilt and Kenworth

PRODUCT	KIT INCLUDES
H01501UD	<ul style="list-style-type: none"> • 3 different size lever options • 1 - 1/4" 90 degree stem fittings • 1 - 3/8" 90 degree stem fittings • Air line to convert the H01501UD to a non-dump valve • Instruction sheet

ALL MAKES ZERO PRESSURE DUMP VALVE TRUCK AND TRAILER APPLICATIONS

- 3/8" PTC fittings in supply, suspension and pilot port

PRODUCT	KIT INCLUDES
H01502UNC	<ul style="list-style-type: none"> • 3 different size lever options • 1 - 1/4" 90 degree stem fittings • 1 - 3/8" plug • Mounting bolts • Instruction sheet

PRESSURE DUMP VALVE PETERBILT AND KENWORTH APPLICATIONS

- 1/4" PTC fittings in supply, suspension and pilot port

PRODUCT	KIT INCLUDES
H01501PUD	<ul style="list-style-type: none"> • 3 different size lever options • Mounting bolts • Instruction sheet

CLASSIC VALVES

450 SERIES HEIGHT CONTROL VALVE KITS

- For tractor cab or chassis and trailer applications

PRODUCT	KIT INCLUDES
H00450CE	H00450CE valve, (2) levers and (2) brackets

500 SERIES HEIGHT CONTROL VALVE KITS

- With integral dump valve for tractor, trailer and Class A RV applications (single suspension ports)

PRODUCT	KIT INCLUDES
H00500C	H00500C valve, (3) levers and (2) brackets

500 SERIES HEIGHT CONTROL VALVE KITS

- With Integral Dump Valve (Dual Suspension Ports)

PRODUCT	KIT INCLUDES
H00500DC	H00500DC valve, (3) levers and (2) brackets

500 SERIES HEIGHT CONTROL REVERSE ACTUATION VALVE KITS

- With integral dump and reverse actuation valve for automatic dump, trailer only

PRODUCT	KIT INCLUDES
H00500CA	H00500C valve, (3) levers and (2) brackets. HPB500D reverse actuation valve

600 SERIES HEIGHT CONTROL VALVE KITS

- Cabin leveling • For Cab or light duty chassis applications

PRODUCT	KIT INCLUDES
H00600P	(2) levers and HPB450H linkage

500 SERIES OEM / ALL MAKES HEIGHT CONTROL VALVE KITS

- For tractor applications
- With Integral Dump Valve (Dual suspension ports)

PRODUCT	MAKE	KIT INCLUDES
H00500CF	Mack	H00500CF valve, (3) levers and (2) brackets
H00500CG	Kenworth	H00500CG valve, (3) levers and (2) brackets
H00500FS	Freightliner	H00500FS valve, (3) levers and (2) brackets

GENUINE HADLEY

WHY IT MATTERS

Hadley height control valves are engineered to be the most reliable valves on the road. Counterfeit valves are not built to the same standards, do not meet the same specifications, do not perform as well or last as long as a genuine Hadley valve. Counterfeit valves submitted to Hadley for warranty claims will not be reimbursed and may result in punitive damages against the claimant.

GENUINE HADLEY MEANS SUPERIOR PERFORMANCE

- Superior lubricants with proven and consistent lubrication to protect the valve
- Proven O-ring seal integrity throughout the life of the valve
- Counterfeit valves require frequent replacement due to excessive wear and tear
- Hadley leveling valves are designed with 37 years of leveling valve technology
- Chosen by OEMs more often than any other valve brand
- Engineered to outlast all other leveling valves
- Made in the USA

LOOK FOR THE HADLEY LOGO

The Hadley logo is always molded or cast into the outer valve housing and cannot be removed. If you cannot easily locate the Hadley logo, it is a counterfeit and should be rejected.

SAMS™ LEVELING SYSTEM

The Smart Air Management System (SAMS™) by Hadley is an electronically controlled air management system that automatically levels the vehicle even in soft terrains or parking lots that prohibit jacks. The SAMS system is also the first system in the industry to be able to raise and lower the chassis while moving at slow speeds.

- Hadley systems are designed to meet each customers' specific needs

SAMS™ control panel

SAMS 2™ LEVELING SYSTEMS WITH INTEGRATED CONTROLS

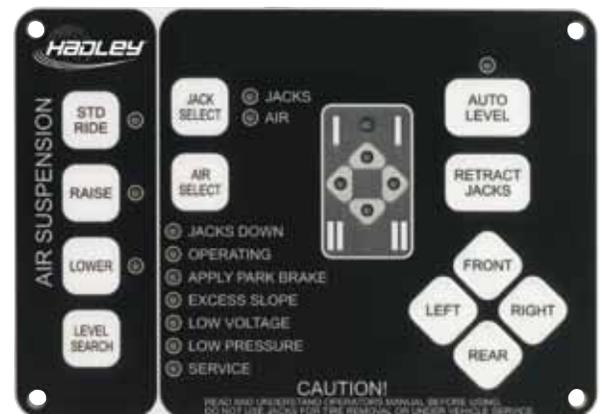

- The only automated system integrated with the suspension to control jacks and air leveling
- Full integration results in greater dependability and less service and warranty issues
- Eliminates extra control panel for jacks
- Automatically controls the ride height of vehicle during normal road use resulting in a smoother ride over mechanical control valve systems
- Built-in diagnostics

SAMS 2

- 4 station
- 6 station
- 8 station
