

HEATSHIELD PRODUCTS, INC.

HEAT PROTECTION YOU CAN COUNT ON

Specification Sheet

Product

Name: Inferno Wrap

Section 1: Applications

Turbo manifolds, down pipes, up pipes, DPF, tier 4 exhaust systems, forced induction exhaust system.

Section 2: Features and Benefits

- *Withstands direct flame, heavy sparks, and molten metal*
- *Prevents the transfer of heat*
- *Reduces radiant heat by as much as 50%*

Section 3: Technical Data

- *Continuous filament amorphous silica fiber texturized to form bulky insulation. This material is not made from leached fiberglass.*
- *Silica yarn with braided weave*

Physical Characteristics

Fiber content: **Amorphous Silica**
Weave: **Braided**
Thickness: **.00625"**

Color: **White**
Electrical: **Non-conductive**
Widths: **1", 2", and 4"**

Temperature Parameters:

Service Temperature: **2000°F**

Maximum Temperature: **3000°F**
