

# BLACK EXHAUST WRAP

**RATED TO:** 1200°F  
CONTINUOUS

2000°F  
INTERMITTENT

Black exhaust wrap maintains hotter exhaust and header gases, decreases the density, and that allows the exhaust gas to exit the system faster! Increased exhaust scavenging is produced, this pulls the intake gases through the cycle faster, helping to lower intake temperatures: that equals more horsepower. Our black exhaust wrap also reduces radiant heat damage and can lower under hood temperatures by as much as 50%. This exhaust wrap features a proprietary black coating and it holds its color longer than similar graphite coated wraps. It can withstand 1200°F continuous and 2000°F intermittent. Wrap or “coil” the black wrap around your exhaust pipe, using overlap to hold itself in place (like a hockey stick or tennis racket grip). Use our Thermal-Tie, hose clamps, or wire to secure ends in place.

Our black exhaust wrap is asbestos free and is made from a base high quality fiberglass yarn. It is noncombustible, it is also water and fungus resistant. Always wear gloves, safety glasses and dust mask when handling this product. Long sleeves are also recommended.

PART NO.	DESCRIPTION
321025	1" x 25' Roll
321050	1" x 50' Roll
321100	1" x 100' Roll
322015	2" x 15' Roll
322025	2" x 25' Roll
322050	2" x 50' Roll
322100	2" x 100' Roll
323100	3" x 100' Roll
324100	4" x 100' Roll
326100	6" x 100' Roll

## APPLICATIONS:

## FEATURES:

- Withstands 1200°F continuous, 2000°F intermittent
- Lowers under-hood temps up to 50%
- Deep black coating stays black
- Increases exhaust scavenging
- All rolls are 1/16" thick
- Made in USA
