The Department of Transport state following regulations:

The main/high-beam **headlamp** must be at the same height or lower than the dipped/low-beam headlamp

The dipped/low-beam lamps must be on the outside.  
The main/high-beam lamps must be on the inside.

The dipped/low beam bulb must be between 22 inch - 54 inch (559 mm - 1372 mm) above the road surface

## For dipped/low beam headlamps only

Only the vertical adjustment of the headlamp is permitted, horizontal adjustment is not allowed!
