## NEW FOR 2017 LUMINOUS LITEPIPES

SEE YOUR SIGHTS BRIGHTLY...  
DAY OR NIGHT.

Turn your favorite LiteWave® handgun sight into a low-light performance tool with the simple snap-in of the new HIVIZ® Luminous LitePipe™! Luminous LitePipes combine the same daylight brightness of traditional HIVIZ LitePipes with a new proprietary luminous core. This patent-pending luminous core offers unsurpassed brightness when fully charged, even in complete darkness. The fast-charging technology will keep the sight illuminated for more than 30 minutes with as little as 15 seconds of light exposure. Experience unbelievable brightness during the day, dusk or night with new HIVIZ Luminous LitePipes.

- Charged by UV or any light source
- 15 second charge = :30 minutes of brightness or more
- Brighter alternative to tritium when fully charged
- Perfect for transitional light times
- An affordable, innovative alternative to tritium
- Interchange Luminous LitePipes with any other HIVIZ interchangeable LitePipes

**SHORT** SHORT LitePipe Kits fit the following HIVIZ LiteWave sights: GLT178, SGLW18, SGLW06 and SGLW08.

**LONG** LitePipe Kits fit all other HIVIZ LiteWave sights not included in the Short LitePipe Kit.

# CHOOSING YOUR SIGHT...

## HANDGUNS

### LITEWAVE® SIGHTS

LiteWave sights combine interchangeability with absolute toughness. Choose from a variety of colored LitePipes™ that lock into place by the extremely durable exoskeleton for a sight that is designed to take a beating.

### OVERMOLDED SIGHTS

Overmolded sights give you a bright sight locked in clear resin that is as rugged as a sight can get. Developed for competitive shooters and Law Enforcement, these sights are perfect for repeated holstering.

### ORIGINAL

Tough sights with easily interchangeable LitePipes in a variety of color options for a customized sight picture.

### NITESIGHT™

We use the brightest tritium lamps available and enhance them with sapphire lenses for a rugged, dependable nighttime sight.

## SHOTGUNS

### BEAD REPLACEMENT SIGHTS

For a locked in sight that you can drag through the bushes, bead replacement sights fit the bill. Available in a variety of styles and colors.

### MAGNETIC SIGHTS

We set the standard for magnetic sights: easy to attach with strong, rare earth magnets for a solid sight picture, giving you options with interchangeable LitePipes.

## RIFLES

### ADJUSTABLE SIGHTS

HIVIZ® offers front LiteWave sights combined with adjustable rear sights for the most popular tack-drivers. Check out our popular Ruger 10/22 and new Henry Rifle models.

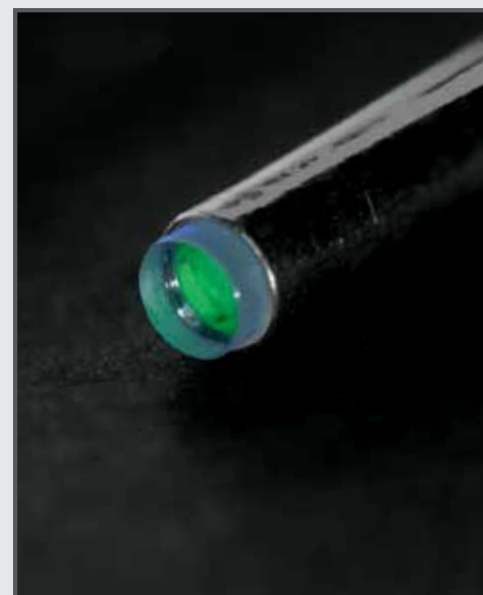

# NITESIGHT™

## WHY TRITIUM?

Take on the absolute darkness with HIVIZ® Tritium NiteSights™. These front and rear sight sets are filled with long-lasting Tritium creating a bright sight picture that is visible in complete dark and no-light conditions. The glowing, green Tritium is also surrounded by a daylight-visible white halo to create a sight combination that easily transitions from day-to-night shooting. Our tough, American-made NiteSights are guaranteed dependable on your favorite conceal carry pistol.

- Offers outstanding strength and durability
- Utilizes Tactical Tritium Lamps (brightest available)
- Fully protected and high-temperature resistant
- Laser-sealed with an aluminum sleeve and capped with a sapphire protective lens enhancing brightness

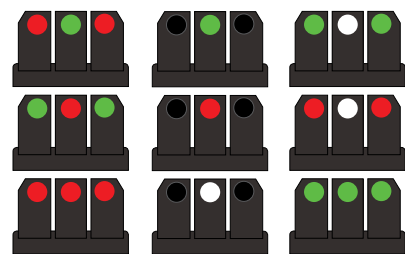

**LITEWAVE**<sup>®</sup>  
TECHNOLOGY

▶ ALL LITEWAVE<sup>®</sup> SIGHTS ARE ENGINEERED TO PROVIDE THE BRIGHTEST, TOUGHEST SIGHT PICTURE EVER. PERIOD.

HIVIZ<sup>®</sup> Shooting Systems has taken firearm sight technology to the next level with its revolutionary LiteWave design. This innovative wave design features a protective exoskeleton creating unmatched strength and durability, while still allowing the patented HIVIZ interchangeable LitePipe to gather light from all angles. This results in an incredibly bright sight picture in a variety of shooting conditions. Rear sights feature a square sight profile for precise rear sight alignment, and all LiteWave sights are holster friendly and ready for rigorous use on the range or in the field.

LITEPIPE<sup>™</sup> COMBINATIONS OFFER QUICK, EASY TARGET ACQUISITION IN ANY LIGHT CONDITION...

*LiteWave handgun front sights come with white, red and green pipes.*

*LiteWave handgun rear sights come with two black, two red and two green pipes.*

*The innovative LiteWave design is available for the Ruger 10/22, Henry rifles, handguns, and some shotguns. Look for its distinctive design for your favorite firearm.*

▶ CHANGING LITEWAVE<sup>®</sup> FRONT/REAR LITEPIPES<sup>™</sup>

No other sight company offers the awesome interchangeability that HIVIZ<sup>®</sup> does. With our provided LitePipe storage key, snapping locking LitePipes in and out in the field is a cinch and offers shooters of all disciplines the opportunity to "customize" their sight picture... any place, any time. It's as easy as inserting the pin on the key (provided), pushing the LitePipe down and back to release the lock and sliding the LitePipe out. You are ready!

LITEWAVE<sup>®</sup>  
HANDGUN  
REPLACEMENT  
LITEPIPE<sup>™</sup> SETS

Stock up on every color and size LiteWave handgun pipe that HIVIZ<sup>®</sup> offers. This helpful kit has 10 Litepipes and includes two sets of red and green front sight pipes in two lengths, as well as black, red and green sets of rear LitePipes for all LiteWave handgun models.

LWH-KIT

# MAGNI Optics®

IS CROSS-EYE DOMINANCE A PROBLEM FOR YOU? CHECK OUT MAGNI-OPTICS® TECHNOLOGY ONLY FROM HIVIZ® SHOOTING SYSTEMS.

Be the best shotgun shooter you can be with Magni-Optics Technology. No other shotgun sight on the market combines a LitePipe™ with a unique magnifying chamber and lens to correct cross-eye dominance issues and poor shooting form. This proprietary design not only makes better shooters, it creates safer shooters by encouraging both-eyes-open shooting and enhancing situational awareness.

The use of magnification ensures that the lighted sight picture is only visible if the shooter uses the correct sighting eye and the head is in the proper shooting position. Just as if you were looking through a riflescope, your head must stay in the correct position in order to use the sight, encouraging good shooting habits.

**Cross-eye dominance is an issue that affects over 40% of shooters, and many new and even experienced shooters struggle to keep proper head-to-stock alignment round after round. Magni-Optics can help any shotgun shooter be more successful.**

*If you are sighting with the proper eye, you'll see the fully lit sight.*

*If you are sighting with the wrong eye, or are sighting high or to the side of your barrel, the sight won't appear lit.*

Magni-Optics technology is available in both magnetic and bead replacement models with replaceable LitePipes.

## MAGNI-HUNTER

Magni-Hunter harnesses the magnetic technology HIVIZ is known for—powerful, rare earth magnets—that attach this cross-eye dominance solving sight easily yet firmly to the rib of nearly any shotgun. Featuring easily replaceable LitePipes in red and green, Magni-Hunter promises a quick-attach solution to any shooter battling eye dominance conditions. ●●

**MGH2007-I** Narrow Cross-Eye Dominant Correcting Sight  
Fits ribs from .230" to .330"  
(15/64" to 21/64") (5.8mm-8.3mm)

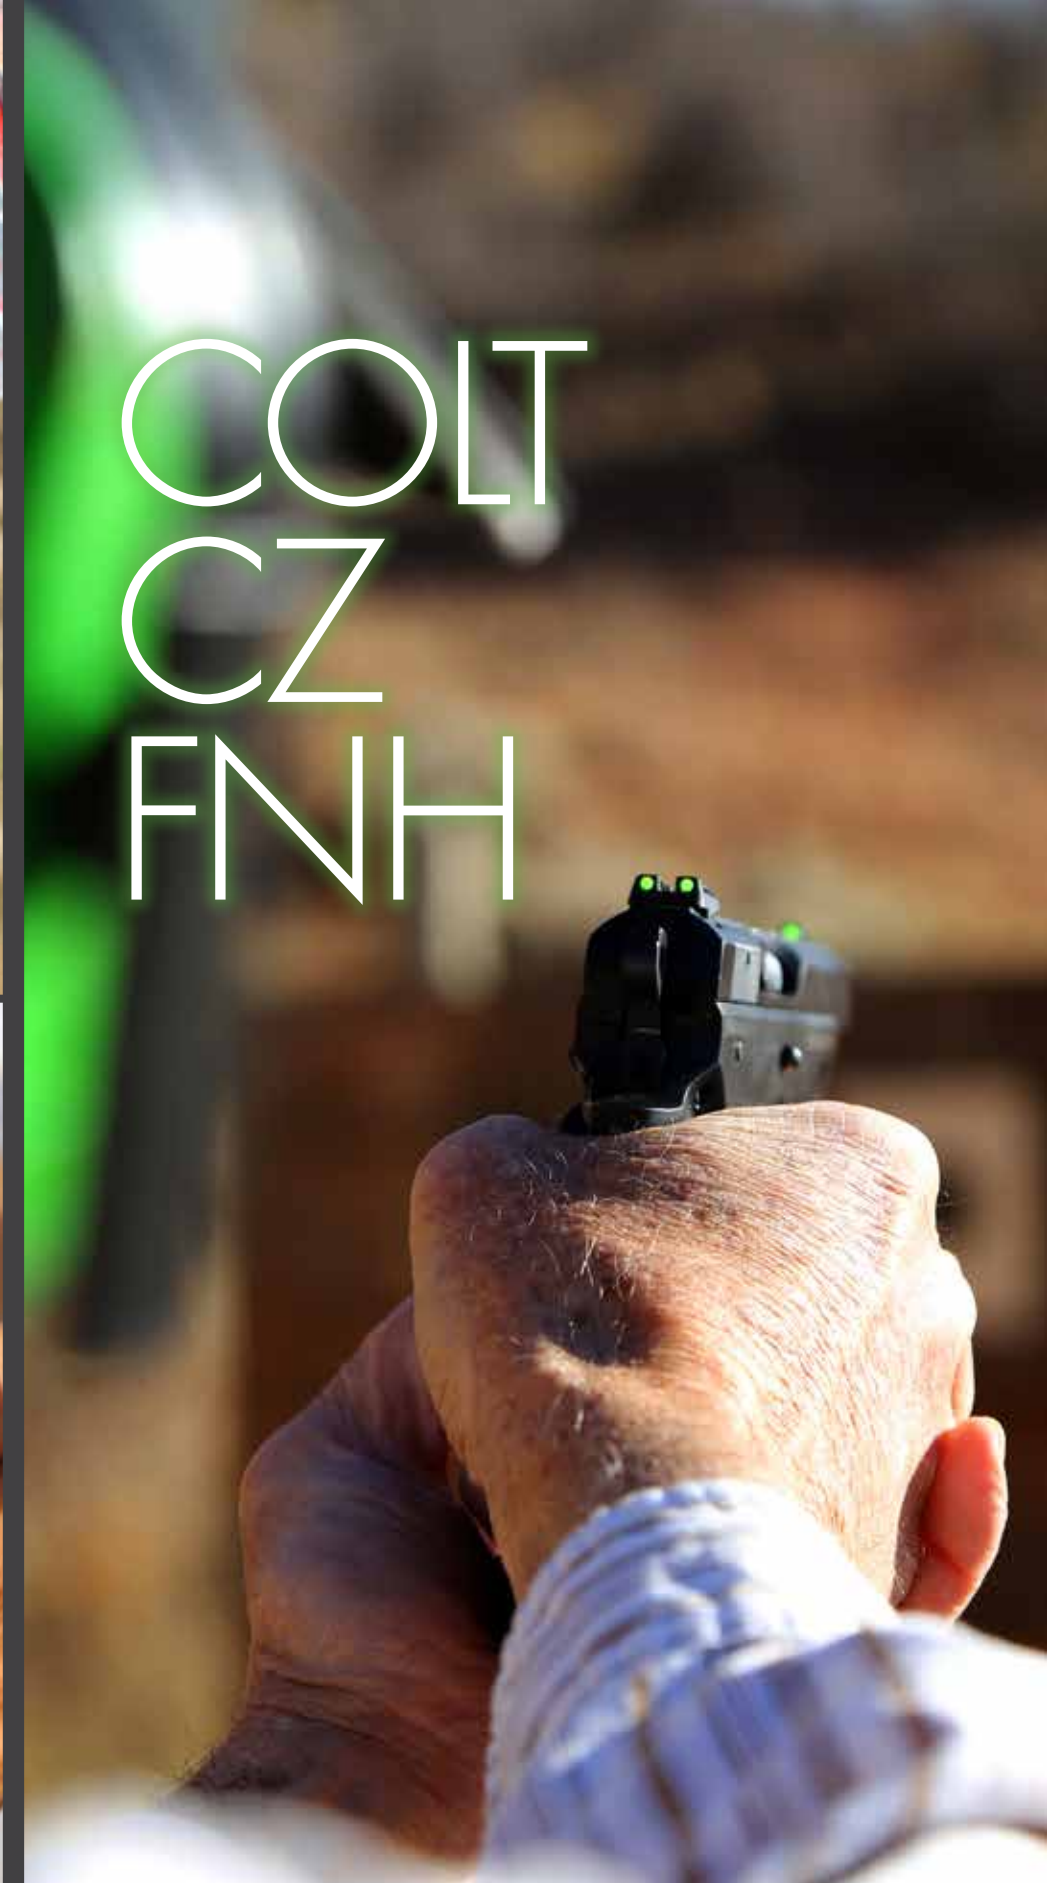

**MGH2007-II** Wide Cross-eye Dominant Correcting Sight  
Fits ribs from .355" to .440"  
(23/64" to 7/16") (9mm to 11.1mm)

## MAGNI-COMP

This screw-on bead sight offers instant success to cross-eye dominant shooters. Utilizing HIVIZ Magni-Optics Technology, Magni-Comp is an affordable sight solution that replaces standard beads on most shotguns, offering struggling shooters immediate relief and better shooting. Comes with red and green interchangeable LitePipes and a big smile. ●●

# MAGNETIC SHOTGUN SIGHTS

## CAN I HAVE A BRIGHT SIGHT THAT IS EASY TO INSTALL?

**WHEN YOU'RE LOOKING FOR THE BEST, TRUST THE ORIGINAL.** HIVIZ® created the original magnetic shotgun sight in 1996 and it is still the industry leader in this category. HIVIZ magnetic shotgun sights use powerful, rare earth magnets to attach sights easily yet firmly to the rib of nearly any shotgun. Featuring easily replaceable LitePipes™ in multiple colors, HIVIZ has a magnetic shotgun sight that is perfect for you.

- No need to remove bead
- Portable
- Sight and bead work together for the perfect fit
- Repeatable, accurate sight picture with simple attachment
- Available in a variety of styles, colors and sight diameters for every shooter's preference

**NOTE** \*Sight must fit your exact shotgun rib width for proper installation. Not compatible with carbon fiber or aluminum ribs.

### M-SERIES MAGNETIC SIGHTS

When versatility is vital, the M-Series line of magnetic sights has you covered. The snap-on magnetic base is available in three different sizes to fit a wide variety of rib widths. All M-Series sights come with green, red and the uniquely HIVIZ two-toned LitePipe™. Pair your favorite shotgun with one of our favorite magnetic sights. Interchangeable LitePipes: ●●●

**M200** Ultra Narrow M-Series. Fits ribs from .171" to .265" (11/64" to 17/64") (4.2mm to 6.7mm)

**M300** Narrow M-Series. Fits ribs from .218" to .328" (7/32" – 5/16") (5.5mm to 8.3mm)

**M400** Wide M-Series. Fits ribs from .328" to .437" (21/64" - 7/16") (8.3mm to 11.1mm)

### TWO-IN-ONE

Hate the idea of changing Litepipes in the field when lighting conditions change? Check out the HIVIZ Two-In-One magnetic sight. We've cleverly combined our green and orange Litepipes into a 180-degree, quick-change sight so you can change the color of your sight picture in seconds. All Two-In-One sights come with one orange/green round pipe sight and one orange/green triangular pipe sight. Change it fast with Two-In-One. Interchangeable LitePipes: ●●▲▲

**TO200** Ultra Narrow Two-In-One. Fits ribs from .171" to .265" (11/64" to 17/64") (4.2mm to 6.7mm)

**TO300** Narrow Two-In-One. Fits ribs from .218" to .328" (7/32" – 5/16") (5.5mm to 8.3mm)

**TO350** Wide Two-In-One. Fits ribs from .330" to .355" (21/64" to 23/64") (8.4mm to 9mm)

**TO400** Extra-Wide Two-In-One. Fits ribs from .360" to .440" (23/64" to 7/16") (9mm to 11.1mm)

# MAGNETIC/ PLAIN BARREL SIGHTS

## BIRDBUSTER®

This "one-size fits all" magnetic sight fits multiple rib widths and offers triangular and round LitePipes™ in red and green. A popular choice for the hunter using a magnetic sight on a variety of shotguns, the Birdbuster is a HIVIZ® hunting favorite.

Interchangeable LitePipes: ●●▲▲

**BB2005**

## S-SERIES SNAP-ON MAGNETIC BASE

Our most economical magnetic sight, the S-Series offers the bare basics to a shooter who knows exactly what color sight he likes. Available in three rib widths in two colors, this sight presents a bright affordable sight picture to any shotgun shooter. LitePipes are not interchangeable, so "what you see is what you get."

Sight choices: ●●

**S200-G** Green Ultra Narrow S-Series. **S200-R** Red Ultra Narrow S-Series.  
Fits ribs from .171" to .265" (11/64" to 17/64") (4.2mm-6.7mm)

**S300-G** Green Narrow S-Series. **S300-R** Red Narrow S-Series.  
Fits ribs from .218" to .328" (7/32" – 5/16") (5.5mm-8.3mm)

**S400-G** Green Wide S-Series. **S400-R** Red Wide S-Series.  
Fits ribs from .328" to .437" (21/64" - 7/16") (8.3mm-11.1mm)

## REMINGTON ETA

A brainchild developed specifically for this working-man's gun, the Remington ETA Sight (Easy Target Acquisition) is designed specifically to fit the Remington 870, 11-87, and 1100 models with 9/32" rib. This heavy-hitting magnetic sight comes with all the HIVIZ bells and whistles.

Interchangeable LitePipes: ●●●●▲▲

- Two diameter sizes of round green LitePipes
- Two diameter sizes of round red LitePipes
- One green and one red triangular LitePipe

**RM2006**

## MPB PLAIN BARREL SNAP-ON

Also available in a tactical model... check out page 41.

HIVIZ has something for every shotgun, including shotguns without ribs. Bad to the bone, this simple snap-on sight offers the LitePipe™ interchangeability that HIVIZ is known for in an easy-to attach design for any plain-barrel gun... offered with two different diameter green and red LitePipes...ready for action in the woods or on the street. **MPB** Fits all 12, 16, and 20 gauge plain barrel shotguns without ventilated ribs.

# BEAD REPLACEMENTS

## WHY A BEAD REPLACEMENT?

Bird Hunter? Competitive Target Shooter? Turkey-Stalker? Big Game Hunter? HIVIZ® has a bead replacement sight for you.

### BEAD SIGHT ADVANTAGES:

- A permanent bead that can't be lost or misplaced in transport or when hunting in thick brush or in blinds.
- Offers a consistent sight picture shot after shot.
- Interchangeable LitePipes giving you a variety of colors for a variety of conditions.
- Some bead sights offer a variety of sight diameters and shapes.
- Comes with screws in five thread sizes to fit most shotguns.

### LITEWAVE® COMPSIGHT®

#### THE BRIGHTEST SPOT IN COMPETITIVE SHOOTING

The HIVIZ CompSight has become the standard for competitive shotgun shooters and is the choice of national and Olympic champions. Utilizing a low-profile steel base, LiteWave CompSight offers all the advantages of the light gathering technology of LiteWave combined with the unsurpassed durability that the "wave" exoskeleton provides. Includes multiple diameters of LitePipes in red, green, and white along with a LitePipe™ storage/changing key.

*The LiteWave CompSight includes three diameters of LitePipes in red, green, and white along with a LitePipe storage/changing key.*

# BEAD REPLACEMENTS

## ▶ FLAME

The Flame sight packs HIVIZ® brightness into a low-profile, compact package. It's the perfect sight for the shotgun shooter who knows he wants either a bright green or red bead—all the time—in all conditions. Its low-profile design offers durability, and is a great choice for the rigors of the outdoor hunting environment.

- FL2005-G ●
- FL2004-R ●

## ▶ MINICOMP

If you're looking for a smaller, more affordable alternative to the CompSight, the HIVIZ MiniComp is a popular choice. Like all HIVIZ bead sights, MiniComp is bright and easy to install, and is the only HIVIZ bead sight offering an orange LitePipe in addition to the standard green and red. ●●● PM2011

## ▶ SPARK II

The Spark II is one of the first compact sights that HIVIZ developed and remains a top seller today. It's tiny but brilliant with an affordable price tag. Unlike the new Spark III, the LitePipes are not interchangeable, so make sure you pick the color that best suits your needs.

- BD1007 ●
- BD1008 ●

## ▶ TRICOMP

TriComp brings pinpoint accuracy to target acquisition. This innovative interchangeable design is loaded with options, equipped with both triangular and round LitePipes in a variety of colors and sizes. Any hunter or shooter can create a sight picture that suits their specific needs. ●●○▲▲△ PM2003

## ▶ SPARK III

Spark III brings HIVIZ's ingenious interchangeability to one of the brightest, most economical sights on the market. This big, bright dot is .090" in diameter, and comes with red, green and white LitePipes bringing affordable accuracy to any shotgun. ●●○ SK2011

# TURKEY/DEER

## ▶ TRIVIZ®

Arguably one of the coolest turkey sights on the planet, TriViz offers outstanding durability combined with a fantastically accurate sight picture. Whether you are crashing TriViz through the woods or sitting statuesque, the unique triangular sight picture helps any level of experienced hunter enjoy success. Fits most shotguns with vent ribs from 1/4" to 3/8" wide with removable front beads. Set offers (1) round front and (3) triangular front LitePipes in various heights paired with a triangular rear configuration – a FANTASTIC value for the price. ▲ ▲ ● ▲

TT1001

## ▶ C-SERIES

Combining our best selling M-Series magnetic front sight with our two-bead rear sight = versatility in the field. With the rear sight fully adjustable for windage and elevation, this sight can help you get your favorite slug or turkey gun dialed. Remove the rear sight and you'll have great target acquisition for upland birds or waterfowl. All sets come with a green and orange front LitePipe™ and rear green pipes. ● ●

**C200-2** Ultra Narrow C-Series. Fits ribs from .171" to .265" (11/64" to 17/64") (4.2mm to 6.7mm)

**C300-2** Narrow C-Series. Fits ribs from .218" to .328" (7/32" to 21/64") (5.5mm to 8.3mm)

**C400-1** Wide C-Series. Fits ribs from .328" to .437" (21/64" to 7/16") (8.3mm to 11.1mm)

## ▶ REMINGTON ETA SET

Similar to the C-Series, HiViz® has taken a specialty magnetic sight—the Remington ETA (Easy Target Acquisition)—and paired it with an adjustable rear dual bead sight giving you improved accuracy for deer and turkey hunting. Designed specifically for Remington 870 Express and 11-87 Sportsman shotguns with 9/32" vent ribs, this sight comes with one red and one green keyhole front LitePipe, one green round front LitePipe, and rear green pipes. Front: ● ● ● Rear: ● ●

RM2013

## ▶ FOUR-IN-ONE

This revolutionary sight will allow you to use one sight and one shotgun throughout the year for all your hunting and recreational needs. The Four-In-One features a fully adjustable rear sight that can be easily removed so you can quickly swap to a front-sight only bead for birds or target shooting. Quick, easy interchangeable LitePipes for both the front and rear give you the choice of four distinct color combinations.

Front: ● ● ● ● Rear: ● ● ● ●

**FO2008-I** fits ribs 1/4 to 9/32 (6.3mm to 7.5mm)

**FO2008-II** fits ribs 5/16 to 3/8 (7.9mm to 9.7mm)

# TACTICAL

## ▶ MPB-TAC

The MPB-TAC is one of the most versatile tactical shotgun sights available today. The sight body is an overmolded steel spring that clamps down securely to most 12 gauge shotgun barrels. It is easily installed and easily removed with no tools required because the sight self-centers behind the front bead for perfect alignment. It can fit on shotgun models with extended magazines as unique cutouts ensure the sight does not interfere with the magazine clamp. The interchangeable LitePipe™ is enclosed by four small clamps that provide protection against breakage without obstructing the target. ●●

*MPB-TAC*

## ▶ TAC1001

When you need a solid, permanent tactical shotgun sight, the TAC1001 is the choice for you. The ultra-bright green LitePipe is fully protected by an aircraft-grade aluminum skeletonized frame to withstand the harshest shooting conditions. The frame has a tapered front that is serrated to eliminate glare and keep the shooter's focus directly on the LitePipe. Available in low (front sight only use) and medium heights (for use with elevated rear sights). Fits 12 Gauge shotguns with smooth barrels and removable front beads. ●

*TAC-1001-L (Low)*  
*TAC-1001-M (Medium)*

## ▶ BENELLI M1

Upgrade your Benelli tactical shotgun with a better, brighter front sight from HIVIZ®. Choose from red or green interchangeable LitePipes for a sight picture that best suits your shooting conditions. Fits popular Benelli models including the M1, M2, M3, M4 and Nova Tactical and Super Nova Tactical with rear ghost ring. ●●

*M12010*

## ▶ AR 2008

Your AR rifle is not complete without a HIVIZ AR sight. The nearly indestructible AR2008 comes with interchangeable LitePipes in both green and red for extra customization and features a detent plunger to tighten engagement and prevent any side-to-side movement of the sight. This easy-to-install sight replaces all types of AR 15 sights, both fixed and detachable, as well as M4 rifles with A-Frame or folding front sights. ●●

*AR2008*

## ▶ AK 2010, AK 47, 74, AKM

Featuring all the benefits of the popular HIVIZ AR sight but built for your AK. Robust and affordable, this sight offers interchangeable LitePipes in green and red. Includes a sight tool for easy installation and sight adjustment. ●●

*AK2010*

## RIFLE

## ▶ NEW! HENRY RIFLE SETS

Dress up your favorite plinker or hunting rifle with the brightest sights on the market. Now available for most Henry rifles, HIVIZ® offers four new tack-driving sets with its patented LiteWave® design on the front sight. These sights deliver an amazingly bright sight picture for quick and easy target acquisition to boost your shooting performance. All sights are fully adjustable for windage and elevation. Includes red, green and white LitePipes for front sight and one set of green LitePipes for the rear sight. ●●○

**HHVS41** Fits: H006, H012 and H012R rifles

**HHVS450** Fits: H001T, H003T and H004, H004S and H010B rifles

**HHVS500** Fits: H001TM, H001TV, H003TM, H004M, H004V, H004SM, H004SV, H006C, H012C, H012CR and H010 models chambered in .357 Mag and 30/30 Win

**HHVS480** Fits: H006M, H012M, H012MR and H009

## ▶ HENRY CLASSIC LEVER-ACTION RIMFIRE FRONT SIGHT

Like all HIVIZ sights, this sweet rimfire front sight brightens up your sight picture, improving accuracy and making these lever-action Henrys the most fun and precise rifles on the range. This sight comes with four interchangeable front LitePipes in green, red, orange and black. Combine it with our Universal Rear sight for an even better sight picture. ●●●●

**HHVS001** Fits: H001, H001L, and H001Y models chambered in .22LR

**HHVS001M** Fits: HHVS001M fits H001M models chambered in .22 Mag

## ▶ UNIVERSAL REAR RIFLE SIGHT

The HIVIZ Universal Rear Rifle Sight offers shooters the opportunity to brighten up the rear sight picture on a wide selection of rifles. Mounting in a standard 3/8" dovetail, this sight is easy to install, has full windage and elevation adjustments and features HIVIZ green LitePipes. Make plinking more fun by adding the universal rear rifle sight to your favorite rifle. ●

**UNI2006**

# RIFLE

## RUGER 10/22 SIGHT SET

Whether you shoot America's favorite rifle competitively, in the field or at the range, the HIVIZ® Ruger 10/22 sight set is something that frankly, no self-respecting 10/22 owner should live without. The front sight features the latest LiteWave® technology for bright, reliable target acquisition. The rear sight was carefully designed around the original Ruger design and is both foldable and adjustable for elevation. Up your 10/22 game and *See What You've Been Missing*.

Fits all Ruger 10/22 Standard rifles with 18.5" barrel, Carbine and Takedown models.

● ● ○  
RG1022

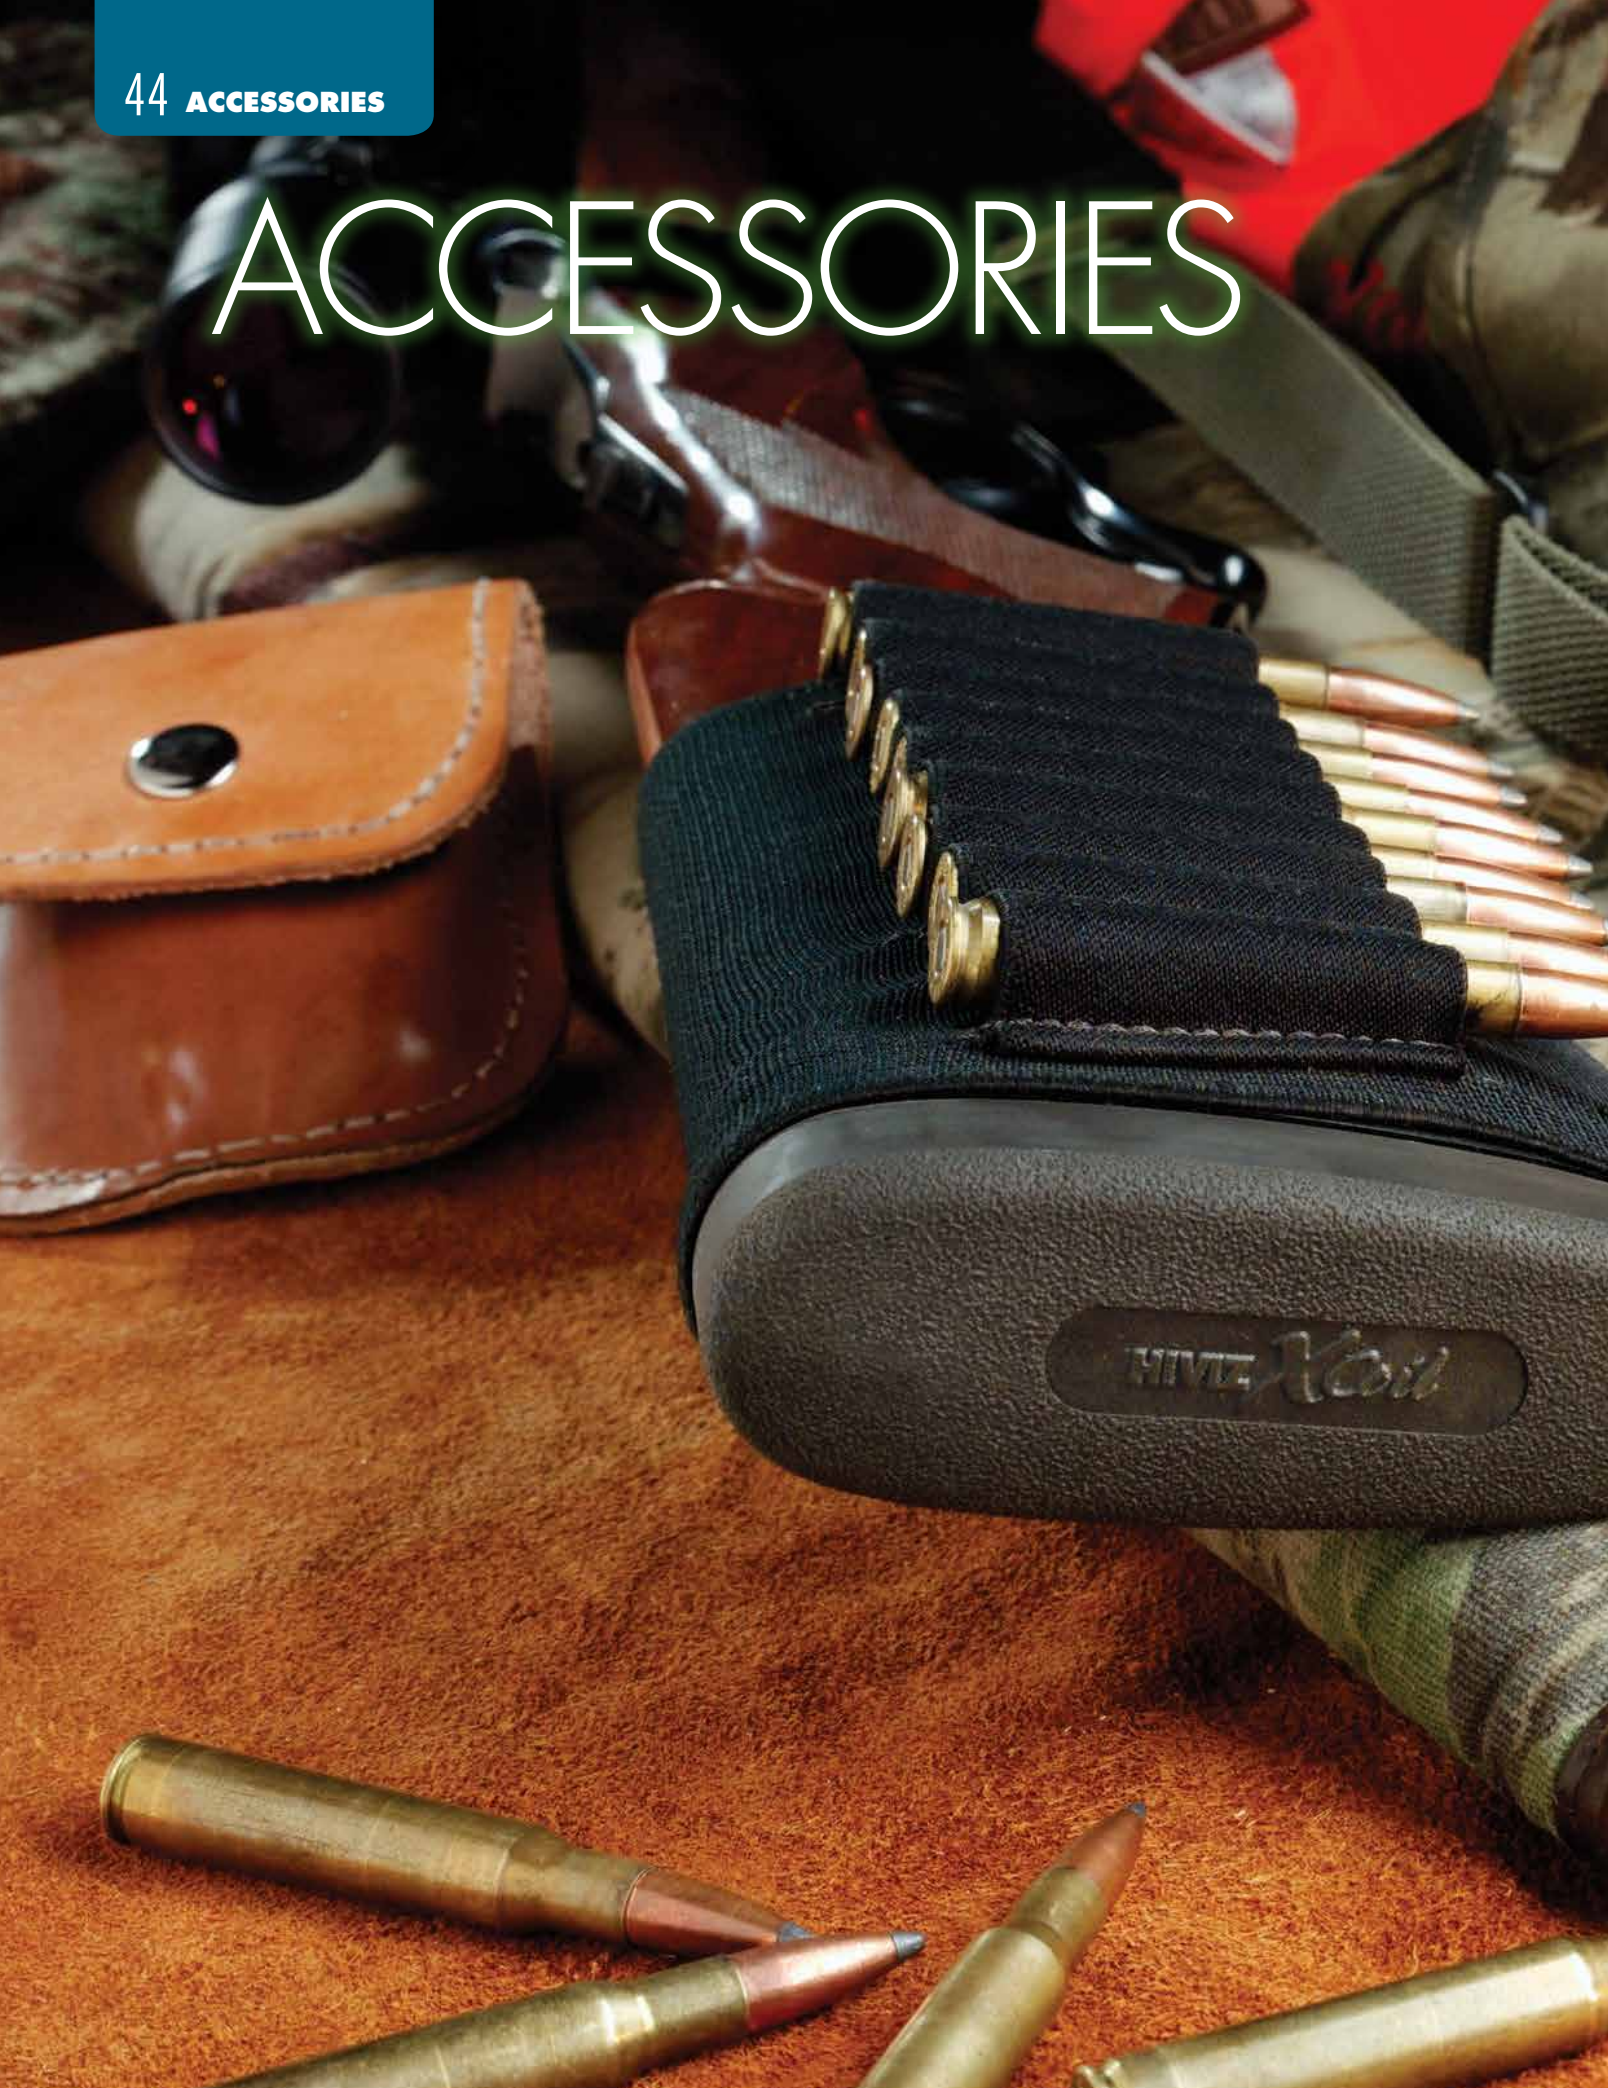

## FRONT DOVETAIL SIGHT

The Front Dovetail Sight series from HIVIZ are designed to replace front sights for all types of rimfire and centerfire rifles that have a 3/8" dovetail front sight. Comes with green and red interchangeable front LitePipes giving all shooters the right color for the right conditions—anytime, anywhere. ● ●

- DOVM-260: 1/4" height
- DOVM-315: 5/16" height
- DOVM-380: 3/8" height
- DOVM-420: 7/16" height
- DOVM-500: 1/2" height

5	4.300	4.300	3.800
6	1.300	1.300	1.180

## Xcoil RECOIL PADS

XCOIL® recoil pads are constructed of a composite proven superior at dampening recoil. Our testing has shown that the XCOIL absorbs felt recoil more effectively than any other recoil pad currently available.

With today's trend toward magnum and short magnum rifle calibers and 3 1/2" magnum shotgun loads, the energy pushing a projectile out the muzzle means magnum-level recoil on your shoulder. The XCOIL is the answer. The XCOIL composition also resists slipping when shouldered for consistent gun positioning.

The HIVIZ® XCOIL is currently offered in three sizes and two heel designs. These pads are grindable allowing for a true custom fit. Available in models to fit virtually any rifle or shotgun. Refer to the diagrams and selection chart at left to determine which pad is right for you.

- XCT1001** Universal - small. 1" thick, black. Fits stocks up to 5.1"H x 1.90"W
- XCT1002** Universal - medium. 1" thick, black. Fits stocks up to 5.4"H x 1.994"W

## AMERICAN INNOVATION IN THE HEART OF THE WILD WEST

Based in Laramie, Wyoming, HIVIZ® Shooting Systems carefully builds sights for your successful shooting experience in our new, state-of-the-art manufacturing facility.

A unique, one-stop shop, we house engineering, manufacturing, R&D, mold design and mold-making all under one roof. Precisely managing the manufacturing process from beginning to the end, we touch every design, mold and part with an expert team of American craftsmen.

We are proud to be installed as original equipment on many major brands including Ruger, Smith & Wesson, Sig, Browning, and Remington.

Here at HIVIZ, we are committed to leading quality, innovation, and customer service in the sight market. We take stock in knowing that a HIVIZ sight will make your shooting experience the absolute best that it can be.

**OUR CORE BELIEF:** HIVIZ® is founded on the basic principle that the better people shoot, the more success and fun they enjoy, therefore the more likely they are to continue the sport.

We have always had a vision to improve the art of shooting. Whether it's in the field, at the range, or for personal defense, our carefully engineered line of sights and recoil pads are designed to help people experience the freedom of outstanding marksmanship. Not only are our NiteSights™ and LitePipes amazingly bright, but we are also the only sight company offering a variety of interchangeable LitePipe™ shapes, colors, and sizes for every firearm and every lighting condition. For a brighter, better shooting performance day or night, choose HIVIZ®.
