

METAL CATALYZER

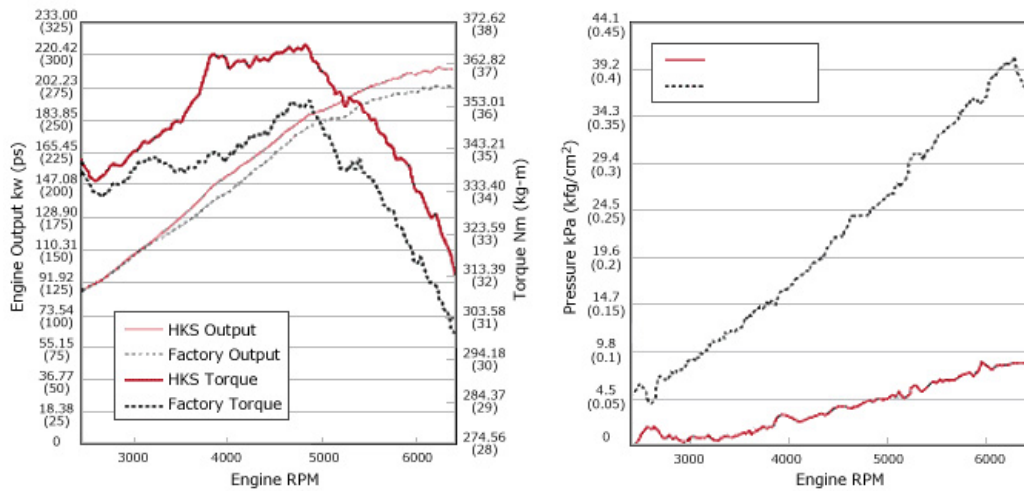

The Metal Catalyzer that has both high output and high purification system.

Features

- Metal Catalyzer for both MT and AT.
- 150 cell catalyzer is used for both exhaust efficiency and durability.
- High efficiency gives 5 to 7ps up. The choked feeling is also improved.
- It's designed for supercharger spec power up, therefore you don't have to worry about the NA, turbo or supercharger for installation.

* When you install the Metal Catalyzer, the exhaust sound tends to get bigger. Please be careful for Z33 that could have 3 to 4dB higher depending on the type of muffler or the time-related deterioration.

Other parts

Part	Quantity	Size
Stud bolt	4	M10
Nut w/ flange	6	M10
Nut	4	M10 P=1.5
Nut	2	M10 P=1.25
Bolt	4	M10 L=40 P=1.5
Bolt	2	M10 L=25 P=1.25
Spring washer	6	M10
Plain washer	12	M10
Gasket	2
