

# Premium Suction

## FEATURES

Replacing the stock rubber suction hose with the polished finish aluminum pipe and Super Hybrid Filter improves intake efficiency. This kit was designed to maintain the stability for daily use without effect on the stock control.

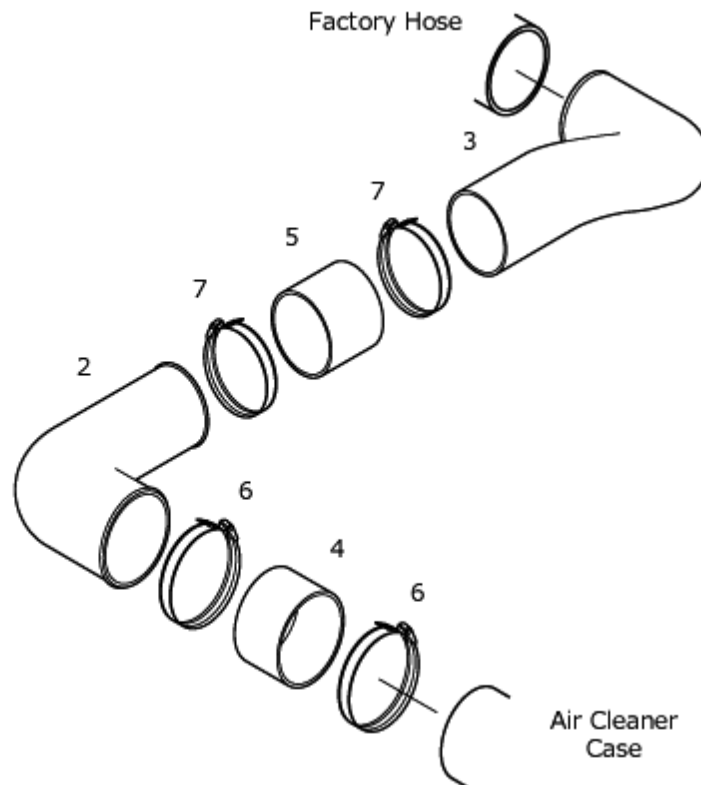

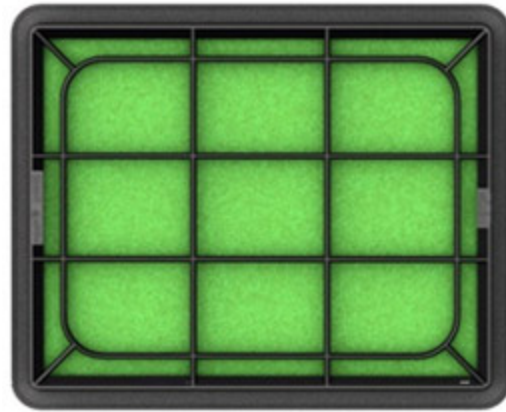

### Stock Suction Pipe(left) vs. HKS Suction Pipe(right)

Compared to the stock rubber suction hose and resin suction pipe, HKS' cast aluminum pipe was designed exclusively for this applications to ensure maximum intake air path cross section area. Smoother [air intake](#) can be provided.

Part number of stock air element  
SH01-13-3A0A

Super Hybrid Filter in the kit  
70017-AZ009

- 2. Suction Pipe No.1
- 3. Suction Pipe No.2
- 4. Joint Hose 80mm
- 5. Joint Hose 70mm
- 6. Hose Clamp #56
- 7. Hose Clamp #48
